II-13. Describe the significance of the existing antidumping duty order covering imports of LEU from France in terms of its effect on your firm's imports, U.S. shipments of imports, and inventories. You may wish to compare your firm's operations before and after the imposition of the order.

II-14. Would your firm anticipate any changes in its imports, U.S. shipments of imports, or inventories of LEU in the future if the antidumping duty order on LEU from France were to be revoked?

- No Yes--Supply details as to the time, nature, and significance of such changes and provide underlying assumptions, along with relevant portions of business plans or other supporting documentation, for any trends or projections you may provide.

PART III.—PRICING AND MARKET FACTORS

Further information on this part of the questionnaire can be obtained from Kelly Clark (202-205-3166, kelly.clark@usitc.gov).

III-1. Who should be contacted regarding the requested pricing and related information?

Company contact:

(____)

If your firm sells its imported LEU to U.S. customers, report **net U.S. f.o.b. (or equivalent delivery) selling prices**; if your firm is a U.S. electric utility, enricher, fuel-assembly fabricator, or other U.S. firm that imports LEU for its own use, report **U.S. f.o.b. import price data**.

Indicate below what your firm does with its imports of LEU from France:

IMPORT FOR RESALE.

IMPORT FOR OWN USE.

Section III-A.—ENRICHMENT PRICES FOR LEU IMPORTED FROM FRANCE

This section requests quarterly price and quantity data, unless otherwise specified, concerning enrichment in France of uranium hexafluoride (UF₆) in the natural state to low enriched uranium that your firm imported pursuant to supply contracts with U.S. customers unrelated to you or imported for your own use during January 2002-June 2007. **Report the requested SWU price and quantity data only for your SWU production from France.**

Prices.—Prices are **net of all discounts, allowances (including any freight allowances), rebates, and any other deductions or premiums** and based on commercial quantities, not introductory offers. Express prices of the subject imported LEU in U.S. dollars per kilogram (kg) of uranium (U) in the low enriched UF₆.

Weighted-average net U.S. f.o.b. prices.--(1) Net U.S. f.o.b. (or equivalent delivery) selling prices that you invoice your U.S. customers for your French imported LEU from your U.S. selling locations; or (2) net U.S. f.o.b. import prices that are c.i.f. landed, duty-paid import prices at the U.S. port of entry for the LEU that you imported for your own use. Do not include U.S.-inland delivery costs to U.S. fuel-rod assemblers in the selling or purchase prices. The data requested are calculated by dividing your total net U.S. f.o.b. sales/import values for a particular period by the total net sales/import quantity shipped to U.S. fuel-assembly fabricators in that period.

PART III.—PRICING AND MARKET FACTORS--Continued

Quantities.--Quantities of the subject imported LEU are requested net of returns and expressed in kilograms of U in the LEU. Also report the number of SWUs (standard measure of enrichment) required/contracted to produce the LEU. Also requested are the period average U^{235} assays of the LEU and the associated tails. If your firm uses pounds for the quantity of LEU, please convert to kilograms at the rate of 0.45359 kgs per pound when reporting the price data.

Spot sales/import agreement.--An agreement, usually written, to supply LEU on an immediate or near-term basis (within 12 months) from the time of order.

Contract sales/import agreements.--A written agreement to supply LEU during a specified period of time, with deliveries of the LEU scheduled into the first calendar year or beyond from the contract-signing year. The total amount of this product may be specified exactly or approximately. Prices may or may not be fixed.

IF FIXED, prices may be set at a specified level during the entire contract period or may initially be set at some level but subject to increases at intervals and amounts specified in the contract.

IF NOT FIXED, prices are based on some agreed upon prevailing market price indicator at the time of delivery and--

(a) may be subject to a contract requirement of a floor price (based on market prices or your costs), a ceiling price, a discount from the market price, or some combination of these, or

(b) may not be subject to such contract price requirements but subject to escalator clauses.

Total shipments in each quarter.--Please report separately for each sales/import agreement category, as defined below, the quantity, total net f.o.b. selling/import value, and net U.S. f.o.b. weighted-average prices for your firm's total quarterly shipments to U.S. fuel-assembly fabricators of your firm's imports from France that it either a) sold to U.S. customers (unrelated to your firm) or b) imported for your own use.

Shipments refer to a) your imports that were physically delivered and/or book transferred to your U.S. customers, either directly upon importation or from your firm's U.S. inventories of its imported products or b) your firm's imports that were for its own use.

PART III.—PRICING AND MARKET FACTORS--Continued

Show, where indicated at the top of the tables, whether the reported price data are U.S. f.o.b. selling or import price data (the latter only if imported for your own use). In addition, report the average quarterly product and tails assays, the number of SWUs required/contracted to produce the imports from France. Also report the requested price data separately for multi-year-shipment contracts in sales/import agreement categories, as defined below, by the year the contracts were entered into, or, if applicable, renegotiated. Combine requested data for all contracts entered into/renegotiated in the same year and **make copies of the appropriate tables to show the requested SWU price data separately for each group of contracts**. Show where requested in the tables, the contract year of the group of contracts for which production data are reported in the table, the full period encompassed by such contracts, the total number of such contracts, and the estimated total maximum quantity covered by these contracts.

Sales/Import Agreement Categories:

- (1) Combined spot sales/imports and those contract sales/imports of the subject imported LEU where prices are based on market prices at the time of shipment and the contracts do not specify a price/cost-based floor or a price ceiling.
- (2) Contract sales/imports of the subject imported LEU where prices are based on market prices at the time of shipment and the contracts do specify a price/cost-based floor, a price ceiling, a discount from the market price, or some combination of these.
- (3) Contract sales/imports of the subject imported LEU where prices are fixed or subject to escalator clauses specified in the contract.

PRODUCT DESCRIPTION:

Low enriched uranium hexafluoride.--Uranium hexafluoride enriched in the U^{235} isotope, usually in the range of 3-5 percent enrichment, but always less than 20 percent (as defined in the instructions).

NOTE: Report in section III-A, unless otherwise indicated, the information requested for the LEU where your firm imported the LEU from France that was produced ONLY on a SWU contract basis. See part III-B for information requested for your shipments/imports of the imports of enriched uranium product (EUP) from France (EUP is LEU that is sold or purchased where the customer does not provide any natural UF_6).

PART III.—PRICING AND MARKET FACTORS

III-A.1 (a) Show in the following tabulation, by category sales/import agreements (see previous page for descriptions), the total quantity (in kgs of U as LEU) of your firm's imports of LEU from France that were shipped (book transfers or physical movement) to U.S. fabricators during January 2002-June 2007 for its U.S. customers or for its own use (check the appropriate box below).

Sold to U.S. customers.

Imported for your firm's own use.

Category 1	
Category 2	
Category 3	
Other (specify: _____)	

III-A.2. Since January 2002, has your firm imported LEU into the United States under a re-export program?

No

Yes--Please discuss by each country of origin/enrichment of the LEU 1) the products you exported that contained the LEU that you previously imported, 2) the quantity, quality, and tails assay of the imported LEU, and 3) the reason(s) why you imported the LEU instead of purchasing U.S.-produced product (including a comparison of prices). Include any other information that would be helpful in understanding your firm's re-export activities and the impact on the market for LEU.

III-A.3. Discuss how your firm determines the import purchase price for the LEU that it imports and how payment is made.

PART III.—PRICING AND MARKET FACTORS--Continued

III-A.4. Report the requested annual data for transactions where you sold your LEU imported from France to U.S. customers during January 2002-June 2007 but their payment included 1) transfers of the customers' natural UF₆ or concentrates to you as the feedstock portion of the subject imported LEU and 2) a separate payment in dollars for the enrichment portion of the subject imported LEU. Report similarly if you imported the LEU for your own use during this period but your payment consisted of a transfer of your natural UF₆ or concentrates and a separate dollar payment for the enrichment portion of the subject imported LEU.

Country of origin: France

Report for each year, total U.S. shipments of your subject imported LEU (kgs of U in the LEU) that you--					
	2002	2003	2004	2005	2006
Sold to U.S. customers					
Imported for your own use					
For the annual quantities of the subject imported LEU you reported, show the following:					
The average U ²³⁵ product assay					
The average U ²³⁵ tails assay					
The total number of SWUs required					
Also show, for the annual quantities of subject imported LEU reported, the breakdown of the total payments consisting of the following:					
Transfers of natural UF ₆ for the feedstock portion, in kgs of U in the natural UF ₆					
Separate payments in U.S. dollars for the enrichment portion					

To the extent that additional factors associated with the information reported above require comment, discuss the information below. In addition, please discuss any other types of transactions involving the subject LEU during 2002-06 that are not covered above and in the price tables that follow.

PART III.—PRICING AND MARKET FACTORS--Continued

III-A.5. PART III.—PRICING AND MARKET FACTORS--Continued

Unless otherwise requested, please answer all questions in the rest of Part III based on your firm's total U.S. imports of LEU, both enrichment and EUP, from France during January 2002-June 2007. If your response differs by import contract/agreement or type of customer, please explain in the space provided or attach a separate explanation, noting the question number. Unless otherwise specified, shipments or imports refer to book transfers and physical movements of LEU.

Indicate whether you imported LEU for resale to U.S. customers or for your own use.

- Import for resale. Import for own use.

Please note, if your firm imports LEU for resale, answer **all** of the questions in the rest of the questionnaire; if your firm imports LEU for its own use, answer only those questions marked with a ►.

III-C.1. Please discuss the following principal details of your multi-year supply contracts based on a typical long-term contract, involving, at least partially, your firm's imports of LEU from France.

- (a) What is the average duration of a contract? _____
- (b) How far in advance is a contract negotiated? _____
- (c) How frequently are contracts renegotiated? _____
- (d) Does the contract fix quantity, price, or both? _____
- (e) Does the contract have a meet-or-release provision? _____
- (f) What are the standard quantity requirements, if any? _____
- (g) What is the price premium for sub-minimum SWUs/kgs of U in LEU? _____

III-C.2. (a) Identify and explain the typical factors discussed between your firm and its U.S. customers and/or factors that you consider in arriving at a price in **multi-year contracts** for your imports of LEU from France. Include the role of published prices, and if your firm issues price lists, please include a copy of your most recent list with your submission. Also discuss the tails assay range allowed by your firm.

PART III.—PRICING AND MARKET FACTORS--Continued

(b) Please describe if your firm has had to renegotiate long-term contracts, due to meet-or-release provisions or other contract specifications, for your LEU imports from France since January 2002. Include information about the number of contracts and percent of the total that have been renegotiated, the reason(s) why they were renegotiated, and the quantities involved (in kgs of U in EUP). Please attach any relevant documentation to explain further.

III-C.3. Identify and explain the typical factors discussed between your firm and its U.S. customers and/or factors that you consider in arriving at a **SPOT** price involving, at least partially, your firm's imports of LEU from France. Include the role of published prices, and if your firm issues price lists, please include a copy of your most recent list with your submission. Also discuss the tails assay range allowed by your firm.

III-C.4. (a) What payment terms does your firm typically offer when selling U.S. customers LEU imported from France (e.g. 2/10 net 30 days, net 45 days, etc.)?

(b) How has your sales price typically been quoted since January 2002 (e.g., delivered to the fabricator, f.o.b. your enrichment facility, etc.)?

PART III.—PRICING AND MARKET FACTORS--Continued

▶ III-C.5. (a) Please discuss below the three largest multi-year sales/purchase contracts (for enrichment or EUP) that you negotiated since January 1, 2002 involving your imported LEU from France. Include as a minimum the information requested below. Report sale contract information if you sold the subject imported product to a U.S. customer and report purchase contract information if you imported the subject product for your own use. **Copy this page as needed.** In addition, please submit a copy of each contract.

Country of origin: France

Sold to U.S. customer.

Imported for own use.

If sold, the name and type (electric utility, trader, etc.) of U.S. customer:

The total contract quantity (in kgs of U contained in the LEU and in SWUs) and any quantity flexibility provided for in the contract:

The beginning and ending production dates of the full contract:

A full description of the enrichment fee/product price provisions, including any fee floors, ceilings, escalator clauses, and any meet-or-release fee provisions. In addition, identify and explain the factors considered by your firm and/or discussed with your customer in arriving at the contract's enrichment fee provisions:

Report the total quantity (in kgs of U and in SWUs) and the weighted-average price for shipments of LEU under this contract that 1) occurred during 2002-06, and 2) are expected to occur during 2007-08:

Occurred during 2002-06: _____

Expected to occur during 2007-08: _____

(b) Is this enrichment contract linked to contracts for the supply of natural uranium or for conversion? If yes, please describe those contract provisions, including the contract quantity and the weighted average price involved.

PART III.—PRICING AND MARKET FACTORS--Continued

III-C.6. Discuss in detail your firm's discount policy, including its requirements to qualify for discounts and the schedule of any volume discounts for its imports of LEU from France.

▶ III-C.7 (a) Has the use of swaps in the uranium market changed since January 2002? If there has been an increase or decrease, please describe the effect it has had, including information for executed contracts and contracts entered into for delivery in 2007-08.

(b) Has the use of loans/leases in the uranium market changed since January 2002? If there has been an increase or decrease, please describe the effect it has had, including information for executed contracts and contracts entered into for delivery in 2007-08.

III-D.1. Please indicate where your firm typically holds U.S. inventories of its imports of LEU from France (e.g., your U.S. warehouse, fabricator's location, etc.). Also explain how much of a factor your firm's inventory holding costs are in its selling prices of French LEU.

PART III.—PRICING AND MARKET FACTORS--Continued

III-D.2. (a) Please discuss the extent to which delivery lead times are important when your firm offers its spot market sales of LEU imported from France to U.S. customers. In addition, discuss whether your imports of LEU from France are generally available with either shorter or longer lead times than U.S.-produced LEU, and please take into consideration U.S. inventories of U.S.-produced and imported LEU.

(b) Please report your firm's average delivery lead time (in number of days) for U.S. spot market delivery of LEU imported from France in 2007. Have average lead times changed since January 2002? If yes, note dates of and reason(s) for any changes.

► III-D.3. Have individual U.S. producers, importers, or foreign producers/exporters influenced U.S. market prices since January 2002?

No

Yes--Please identify the producer/importer and the country of origin. Also discuss the specific time period(s) when the firm influenced the U.S. market price, whether the effect was to lower or raise the price, and why your firm feels that actions of an individual producer/importer were responsible for price fluctuations in the entire U.S. market.

PART III.—PRICING AND MARKET FACTORS--Continued

▶ III-E.1. (a) Have any changes occurred in any factors affecting supply (e.g., changes in availability or prices of raw materials; energy or labor; transportation conditions; production capacity and/or methods of production; technology; export markets; or alternative production opportunities) that affected the availability of U.S.-produced LEU in the U.S. market since January 2002?

- No Yes--Please note the time period(s) of any such changes, the factor(s) involved, and the impact such changes had on your shipment volumes and prices.

(b) Do you anticipate any changes in terms of the availability of U.S.-produced LEU in the U.S. market in the future?

- No Yes--Please identify the changes including the time period and the impact of such changes on shipment volumes and prices. Provide any underlying assumptions, along with relevant portions of business plans or other supporting documentation, that address this issue.

▶ III-E.2. Please discuss fully any changes that have occurred since January 2002 or any that you anticipate in the future in the product range or marketing of LEU in the United States. Identify the future time period and discuss the factors you believe would be responsible for such changes. Provide any underlying assumptions, along with supporting documentation, that address this issue.

▶ III-E.3. Please discuss fully whether inventories of uranium held by USEC have had any effect on current supply conditions in the U.S. market since January 2002 and/or whether any such effects are likely to occur in the future.

PART III.—PRICING AND MARKET FACTORS--Continued

▶ III-E.4. Has the availability of imported LEU changed since January 2002? Please respond separately for imports from France and imports from other countries.

- No Yes--Please note the time period(s) of any such changes, the factor(s) involved, and the impact such changes had on U.S. shipment volumes and prices.

III-E.5. (a) Describe how easily your firm can shift its sales of the product imported from France from the U.S. market to export markets. Please describe any contract or sales arrangement, container/shipping requirements, exchange rate changes, or other constraints that would limit or prevent your firm from shifting deliveries.

(b) Are your exports of LEU subject to any tariff or non-tariff barriers to trade in other countries?

- No Yes--Please list the countries and describe any such barriers and any significant changes in such barriers that have occurred since January 2002, or that are expected to occur in the future.

(c) Please compare market prices of LEU in U.S. and non-U.S. markets, if known. Provide specific information as to time periods and regions for any price comparisons.

III-E.6. Since January 2002, was your firm ever unable to provide LEU imported from France, either fully or partially, to a U.S. customer in a timely manner or at the prevailing market price?

- No Yes--For each occurrence, please identify the customer involved, the period during which you could not supply the LEU, the quantity of LEU involved, and the reason(s) for any such supply difficulty. Also include whether customers were placed on allocation.

PART III.—PRICING AND MARKET FACTORS--Continued

III-E.7. For any contractual arrangements your firm may have to import LEU from France in the future, whether pursuant to SWU or EUP contracts, please report below for 2007-08 the types and minimum and maximum quantities of the imported LEU that your firm is obligated to import and the quantities of LEU that you have already resold and to whom. Please indicate whether the buyer is/are end user(s). Please include copies of these contracts.

III-E.8. Please discuss fully, to the extent possible, any changes that you anticipate in the future of your firm's imports of LEU from France. Identify the specific future time period(s) involved and discuss the factor(s) that you believe would be responsible for any such changes. Include in your discussion how removal of the antidumping duty order covering imports of LEU from France would affect your imports of imported LEU. Provide any underlying assumptions, along with relevant portions of business plans or other supporting documentation.

▶ III-E.9. Please provide separate attachments to this questionnaire, to the extent possible, any studies, surveys, etc. that you are aware of that quantify or otherwise discuss uranium production, capacity utilization, and inventories in 1) the United States, 2) France, 3) each of the other producing countries, including Russia, and 4) the world as a whole. Of particular interest is such data on an annual basis from 2002 to the present and forecasts of these supply data.

▶ III-E.10. Please provide as separate attachments to this questionnaire the following information:

Identify and discuss any improvements or other changes in the U.S. uranium industry since January 1, 2002 and explain fully, to the extent possible, the factor(s), including the antidumping orders on France under review, that were responsible for each improvement or change.

In addition, please discuss any improvements or other changes that you anticipate in the future in the U.S. uranium industry. Identify the specific time period covered in your response and discuss in detail the factor(s) that you believe would be responsible for any such improvement or change.

In your responses, please provide underlying assumptions, along with relevant portions of business plans or other supporting documentation that address these issues.

PART III.—PRICING AND MARKET FACTORS--Continued

▶ III-F.1. (a) How has the demand within the United States for LEU changed since January 2002?

- Increased Unchanged Decreased
- Other (describe) _____

What were the principal factors affecting changes in demand?

(b) How has the demand outside the United States for LEU changed since January 2002?

- Increased Unchanged Decreased
- Other (describe) _____

What were the principal factors affecting changes in demand?

(c) Please discuss any anticipated changes in low enriched uranium demand in the United States and in the rest of the world in the future. Please identify the time period and the factor(s) you believe would be responsible for such changes. Provide any underlying assumptions that address this issue.

▶ III-F.2. Please provide separate attachments to this questionnaire, to the extent possible, any studies, surveys, etc. that you are aware of that quantify or otherwise discuss demand for low enriched uranium via enrichment or as EUP in 1) the United States, 2) France, 3) each of the other producing countries, including Russia, and 4) the world as a whole. Of particular interest is such data on an annual basis from 2002 to the present and forecasts of these demand data.

PART III.—PRICING AND MARKET FACTORS--Continued

▶ III-F.3. Please describe the end uses of LEU in the United States, and also discuss any changes in the end uses since 2002 and any changes that you expect in the future.

▶ III-F.4. Are there any products that may substitute for LEU?

No Yes--Please describe the substitute product(s) and the extent of substitutability, considering prices and end uses where substitution may occur.

(b) Have there been any changes in the number, type, or quantity/availability of products that can be substituted for low enriched uranium in the United States since January 2002?

No Yes--Please explain below.

(c) To the extent possible, describe the approximate price sensitivity of the substitute products discussed above (i.e., by what percent would the current price of low enriched uranium have to increase, all other prices remaining constant, before U.S. electric utilities would start to substitute the alternative products for low enriched uranium).

PART III.—PRICING AND MARKET FACTORS—Continued

III-G.1. Are the U.S.-produced LEU and the associated enrichment, the subject imported LEU and enrichment from France, and nonsubject imported LEU and enrichment used interchangeably (i.e., can they be physically used in the same applications)? Please indicate below, using "A" to indicate that the products from a specified country-pair are *always* interchangeable, "F" to indicate that the products are *frequently* interchangeable, "S" to indicate that the products are *sometimes* interchangeable, "N" to indicate that the products are *never* interchangeable, and "O" to indicate *no familiarity* with products from a specified country-pair.¹

¹ For any country-pair producing low enriched uranium which is *sometimes or never* interchangeable, please explain the factors that limit or preclude interchangeable use. In your response relating to "other countries," if the degree of interchangeability differs for different nonsubject countries, please note this below.

² Please note the country/countries of origin of the low enriched uranium that are included in the "other countries" category.

III-G.2. Are differences in product characteristics or sales conditions between comparable U.S.-produced LEU and the associated enrichment vis-à-vis the subject imported LEU and enrichment from France, and the nonsubject imported LEU and enrichment from other countries a significant factor in your firm's sales of U.S.-produced LEU? Please indicate below, using "A" to indicate that such differences are *always* significant, "F" to indicate that such differences are *frequently* significant, "S" to indicate that such differences are *sometimes* significant, "N" to indicate that such differences are *never* significant, and "O" to indicate *no familiarity* with products from a specified country-pair.¹
