U.S. PRODUCERS' QUESTIONNAIRE

GLYCINE FROM CHINA

This questionnaire must be received by the Commission by no later than April 27, 2011

See page 4 of the Instruction Booklet for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its review of the antidumping duty order concerning glycine from China (Inv. No. 731-TA-718 (Third Review)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, searching existing data sources, gathering the data needed, and completing and reviewing the questionnaire. Send comments regarding the accuracy of this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Office of Investigations, U.S. International Trade Commission, 500 E Street, SW, Washington, DC 20436.

PART III.—<u>FINANCIAL INFORMATION</u>

Address questions on this part of the questionnaire to Charles Yost (202-205-3432, Charles.Yost@usitc.gov).

III-1.	Please identify the individual to be contacted regarding the confidential information requested in part III?
	Name and title:
	Please indicate the manner by which Commission staff may contact the individual responsible for part III with questions regarding the submitted confidential information.
	E-mail: Telephone: ()
	Fax: ()
III-2.	General guidance:Financial data are requested on a product-line basis; the product is glycine, as defined in the instruction booklet. Inputs your firm receives from affiliates to produce glycine should be stated at cost (i.e., intra-firm profits eliminated, see question III-7) while transfers of glycine to related affiliates should be stated at fair market value. Please report all sales on an f.o.b. basis. Total sales in this section should equal total shipments plus exports in Part II, page 8 (trade data) of this questionnaire. PLEASE REPORT ALL FINANCIAL DATA ON A CALENDAR YEAR BASIS.
III-3.	Accounting systemBriefly describe your financial accounting system.
	 a) When does your fiscal year end (month and day)? b) Describe the lowest level of operations (e.g., plant, division, company-wide) for which financial statements are prepared that include subject merchandise: C) Does your firm prepare profit/loss statements for the subject merchandise: Yes No d) How often did your firm (or parent company) prepare financial statements (including annual reports, 10Ks)? Please check relevant items below. Audited, unaudited, annual reports, 10Ks, 10 Qs, Monthly, quarterly, semi-annually, annually
	e) Accounting basis: GAAP, cash, tax, or other comprehensive (specify)
profit-d	The Commission may request that your company submit copies of its financial statements, including internal and-loss statements for the division or product group that includes glycine, as well as those statements and neets used to compile data for your firm's questionnaire response.
III-4.	<u>Cost accounting system.</u> Briefly describe your cost accounting system (<i>e.g.</i> , standard cost, job order cost, <i>etc.</i>).

PART III.—FINANCIAL INFORMATION--Continued

III-10. Operations on glycine.—Report the revenue and related cost information requested below on the glycine operations of your U.S. establishment(s). Do not report resales of purchased glycine.

Note that internal consumption and transfers to related firms must be valued at fair market value and purchases from related firms must be at cost. Provide data on a calendar year basis for the six most recently completed years in chronological order from left to right. If your firm was involved in tolling operations (either as the toller or as the tollee) please contact Charles Yost (202-205-3432, Charles.Yost@usitc.gov) before completing this section of the questionnaire.

Quantity (in 1,000 pounds) and value (in \$1,000)

PRICE DATA

This section requests quarterly quantity and value data, f.o.b. your U.S. point of shipment, for your commercial shipments to unrelated U.S. customers since 2005 of the following products produced by your firm.

- <u>Product 1.-- Pharmaceutical-grade</u> glycine A white, odorless, crystalline powder with a sweet taste, having an assay (glycine content) of 98.5 percent to 101.5 percent (dry basis), and with no more than 70 ppm chloride, no more than 65 ppm sulfate, and no more than 10 ppm heavy metals.
- **Product 2.-- USP-grade** glycine A white, odorless, crystalline powder with a sweet taste, having an assay (glycine content) of 98.5 percent to 101.5 percent (dry basis), and with no more than 70 ppm chloride, no more than 65 ppm sulfate, no more than 20 ppm heavy metals, and not otherwise qualifying as pharmaceutical-grade glycine.
- **Product 3.--Technical-grade** glycine A white, off-white, or slightly yellow crystalline powder, having an assay (glycine content) of 98.5 percent to 101.5 percent (dry basis), with no more than 200 ppm sulfates, and not otherwise qualifying as USP-grade glycine.

Note.—The pricing product data should reflect the end use for which the glycine in question is sold. The purity requirements listed for each pricing product reflect minimum purity requirements for end users in those markets. Any glycine that could be sold into a higher purity end use but is not should be recorded as a sale to the market into which it is sold. For example, if a producer produces glycine meeting the specifications for use in deodorant applications (USP grade) but sells that product for metal complexing (technical grade), that sale should be recorded as a technical grade sale.

Please note that total dollar values should be f.o.b., U.S. point of shipment and should not include U.S.-inland transportation costs. Total dollar values should reflect the *final net* amount paid to you (i.e., should be net of all deductions for discounts or rebates). See instruction booklet.

PART IV.--PRICING AND MARKET FACTORS--Continued
