## Total Monthly Standards for Hawaii

Effective 01/01/05

Expenses include:

- Housekeeping supplies
- Clothing and clothing services
- Personal care products and services
- Food
- Miscellaneous

To find the amount of expenses we can allow you, please read down the Total Gross Monthly Income column until you find your income, then read across to the column that matches the number of persons in your family.

When you have more than four persons in your family, you need to multiply the amount of additional persons over four by the dollar amount in the "Over Four" column; then add the answer to the dollar amount in the "Four" column. For example: when your total monthly income is between \$833 and \$1,249 and you have six persons in your family, you would multiply \$145 by the two members of your family over four to get \$290. You then would add this \$290 to the \$967 allowed to a family of four in your income bracket. As a result, your allowed expenses would equal \$1,257 (\$290 + \$967).

\* Residents of either Alaska or Hawaii should use the table that outlines the expenses allowed for their state.
