CSF and Interim Permit						Page 1 of 8		

### VII. Animal Numbers and Animal Unit (AU) Calculation

If you have an existing facility, list the maximum number of animals held at any given time for each existing animal type in column 3 below. Next, multiply the AU Factor in column 2 by the number of animals listed in column 3 to get the Existing AU Capacity for each animal type (column 4). Add the AU capacity numbers in column 4 for a total and enter the existing total at the bottom of the chart. If a new facility is being proposed, leave columns 3 and 4 blank.

For both new and existing facilities, in column 5 list the proposed maximum number of animals that will be held at the facility at any given time during the five year duration of the permit. Next, multiply the AU Factor in column 2 by the number of animals listed in column 5 to get the Maximum AU Capacity for each animal type (column 6). Note: the number in column 5 should include existing animals plus or minus any expansion or reduction in each animal type. Add the AU capacity numbers in column 6 for the Final AU Total and enter the total at the bottom of column 6.

	1. Animal Type	2. Animal Unit Factor (see note below)	3. Existing Number of Animals (leave blank if new site)	4. Existing AU Capacity = column 2 x column 3	5. Maximum Number of Animals (for new or after expansion)	6. Maximum AU Capacity = column 2 x column 5
Α.	Dairy Cattle	<del>-</del>			' '	
	Mature cow (milked or dry) over 1,000 pounds	1.4				
	Mature cow (milked or dry) under 1,000 pounds	1.0

# VIII. Buildings, Lots, Manure Handling, Feed and Dead Animal Storage Areas

Complete the table below for your animal holding, manure storage, and feed/silage storage areas. A list of common facility types is provided to choose from, or describe it in your own terms. If you have more than six animal holding, manure storage, and feed/silage storage areas on your site, please attach a separate sheet that includes the information requested below for each additional facility. Each of the facilities listed below should correspond to those provided on the sketch required in Section XI.

A. Facility Number	<u># 1</u>	<u># 2</u>	<u># 3</u>	<u># 4</u>	<u># 5</u>	<u># 6</u>
Write "Existing", "New", or "Eliminating"						
B. Types of Animal Confinement A	Areas Write app	roximate dimen	sions in feet in	the space below	v (width x lengtl	h)
Total confinement barn						
Partial confinement barn						
Open lot with runoff controls						
Open lot without runoff controls						
Pasture access ("X" or "√" if yes)						
C. Facility Floor Type	Place "X	(" or "√" in appı	opriate box			
Slats over manure storage						
Concrete slab						
Earthen or dirt						
Other (describe)						
	Vrite approxima	te top dimensio	ns in feet in the	space below (v	vidth x length x	depth)

Turkeys under 5 lbs.						
Ducks						
Others (list types)						
1.						

# IX. Soils, Location, Surface Water, and Ground Water Features

A.	<u>Soils</u> . List the soil type or texture and depth to saturated soils at the facility as identified in the USDA Soil Survey Manual for your county or from a site-specific soil investigation. Owners submitting manure storage area plans and specifications, as required in Section XIII., item D., of this application, with a completed soils investigation should write "see enclosed" if included.			for your uired in				
	1.	Soil type(s) or texture(s):						
	2.	Depth to seasonal high water table or saturated soils:						
B.	to r Wo 500	sitive areas. The following information is needed to determine estrictions in Minn. R. chapter 7020. Questions 3 to 7 are necestrictions (EAW) requirements under Minn. R. 4410.4300, for new AU or more. Please answer if the facility (existing and propose ations:	ssary to evaluate mandatory Environmental A v facilities of 500 AU or more and existing fac	ssessme ilities expa	nt anding by			
	1.	Shoreland:						
		a. Are there any rivers or streams within 300 feet of the feed	lot?	□Yes	□No			
		b. Are there any lakes or ponds with designated shoreland w	rithin 1,000 feet of the feedlot?	□Yes	□No			
		If you answered yes to (a) or (b), list the names of these wat	er bodies and the approximate distance (in fe	et) to the	feedlot.			
		Name:						
		Name:	Approximate distance:					
	2.	A delineated flood plain?		□Yes				
	3.	A state or federally designated wild and scenic river district?		□Yes	□No			
		If yes, name:						
	4.	The Minnesota River Project Riverbend Area?	_	∐Yes	□No			
	5.	The Mississippi Headwaters Area?		□Yes	□No			
	6.	A drinking water supply management area delineated under chin the wellhead protection plan as vulnerable to contamination		∐Yes	□No			
	7.	Within 1,000 feet of a known sinkhole, cave, resurgent spring, blind valley, or dry valley?	disappearing spring, Karst window,	∐Yes	□No			
		If yes to question 7, is the facility within 300 feet of a sinkhole?		∐Yes	□No			
C.		lls. The following information is needed to determine compliance les and Minn. Rules pt. 7020.2005.	e with Minnesota Department of Health Well					
	1.	Is the facility located within 100 feet of a private well; or within a community water supply well, a well serving a public school a private school, excluding home school sites, or a licensed chaccording to Minn. R. 4720.5550, subp. 2?	as defined under Minn. Stat. §120A.05,	∐Yes	□No			
	2.	What is the shortest distance (in feet) from an animal holding a	area to a well?					
			Approximate distance:					
			Building/lot number from page 3:					
	3.	What is the shortest distance (in feet) from a manure storage a	area to a well?					
			Approximate distance:					
			Structure/area number from page 3:					
D.	Sur	face Tile Intakes.						
		Are any surface tile intakes within 1,000 feet of animal holding, manure storage areas, or any other part of the production facility?						
		Approximate distance:						
			Building/lot number from page 3:					

## X. Manure Management

A. <u>Transferred Manure</u>.

В.

The type of manure management plan required for your facility depends on whether you transfer ownership of your manure to another person. Begin with part X.A. and follow the instructions to determine if you transfer ownership and which type of manure management plan you need to complete.

1.	Answer questions 1.a. and 1.b. below to see if you (the feedlot owner/operator) transfer ownership of any of your manure.			
	a.	Is all manure from your feedlot applied onto land that is owned, leased, or rented by yourself? No $\ \square$	Yes 🗌	
		If you answer <b>"Yes"</b> then you do not transfer ownership of your manure and you can move on to Section X.B.		
		If you answer "No", go to the next question (1.b.).		
	b.	For <u>all</u> manure application sites not owned, leased or rented by the feedlot owner/operator, have you (the feedlot owner/operator) or employees working under your direction been given control of the field and nutrient planning decisions, including planning for nutrient rates, timing and methods?	Yes 🗌	No 🗌
		For fields where the answer is " <b>Yes</b> ," ownership of manure is <u>not</u> transferred and you can move on to item B (non-transferred ownership).		
		For fields where the answer is " <b>No</b> ," manure ownership is considered to be transferred and you <u>must</u> complete item 2, below.		
2.	If al	I or part of the ownership of your manure is transferred, complete items a. through c., below.		
	a.	Approximately how much of your manure (in tons or gallons) has transferred ownership?		
	b.	For all manure where ownership is transferred, complete the manure management plan requirements as described in the MPCA guidelines "Manure Management Plan Requirements when Ownership of Manure is Transferred", which can be found at the MPCA website at: <a href="http://www.pca.state.mn.us/hot/feedlot-management.html">http://www.pca.state.mn.us/hot/feedlot-management.html</a> . For an Interim Permit submit the manure management plan with this permit application. For a Construction Short Form permit, be prepared to submit the plan if requested by your County Feedlot Officer or MPCA staff person.		
	C.	Where a land application agreement(s) exists for application of transferred manure to neighborhow many acres are available under the access agreement(s)?	oring land	
		Are the signed land application agreements enclosed? (see example agreement form at the MPCA website at: <a href="https://www.pca.state.mn.us/publications/feedlots-landappagreementform.pdf">www.pca.state.mn.us/publications/feedlots-landappagreementform.pdf</a> )	Yes 🗌	No 🗌
Nor	n-traı	nsferred Manure. For all other manure (where ownership of manure is <u>not</u> transferred), comple	te items 1 and 2	2, below.
1.	List	the number of acres available for spreading non-transferred manure:		
	Acr	es owned: Acres rented/leased:		
	Oth	er acres where the feedlot owner/operator controls field and nutrient planning decisions:		
	(se	signed land application agreements enclosed for these acres? e example agreement form at the MPCA website at: w.pca.state.mn.us/publications/feedlots-landappagreementform.pdf)	Yes	No 🗌
2.	"Ma can For Cor	pare a manure management plan that includes the required items in the MPCA guidelines in the MPCA guidelines the MPCA guidelines when Ownership of Manure is Transferred", which be found at the MPCA website at: <a href="http://www.pca.state.mn.us/hot/feedlot-management.html">http://www.pca.state.mn.us/hot/feedlot-management.html</a> . an Interim Permit submit the manure management plan with this permit application. For a instruction Short Form permit, be prepared to submit the plan if requested by your County addot Officer or MPCA staff person.		

#### XI. Site Sketch.

Use this page to draw a sketch of the existing facilities and any proposed facilities. The sketch must show the location of buildings, manure storage areas, silage and feed storage areas, milking center wastewater storage or treatment areas, and runoff control structures. The sketch must also show all tile inlets, wells, rivers or lakes, sinkholes, and water courses within 1,000 feet of the facility. Show the approximate path that water running off outside lots follows. Label barns, open lots, and manure storage areas on this sketch with the same number that each structure is listed under Part VIII. on page 3 of this application (i.e., Barn #1 on the page 3 should be labeled #1 on the sketch).

### XII. Required Notifications for Permit Application Process.

The notifications under items A through C are required to be done during the permit application process. Additional notices are required to be made by the feedlot owner/operator in accordance with 1) Minn. R. 7020.2002 during removal of manure; 2) Minn. R. 7020.2100, subp. 5, for construction of a liquid manure storage system; and 3) Minn. R. 7020.2125, subp. 4.E., for construction of a permanent manure stockpile area.

A. All Facilities: Notice to County, Township, and City Authorities.

An owner of an animal feedlot or manure storage area (facility) proposing to construct a new or expand an existing facility of any animal unit (AU) capacity shall complete the information listed below and submit a copy to all local units of government that may have zoning authority over the project (e.g., if the project is located in a township, submit the form to the township <u>and</u> to the county).

Nan	ne of o	wner(s) or legal name of facility:

#### XIII. Required Enclosures (Permit applications submitted without all required enclosures are incomplete.)

- A. Site Sketch required under Section XI.
- B. <u>Aerial Photograph</u> of the land within 1,000 feet of the facility. The aerial photograph must show the location of buildings, manure storage areas, silage and feed storage areas, dead animal storage areas, milking center storage or treatment areas, and runoff control structures.
- C. <u>Manure Management Plan</u> including the information listed in Section X (interim permit applications only; submit the manure management plan with construction short form applications when requested by the County Feedlot Officer or MPCA staff person).
- D. <u>Plans and Specifications for construction</u> of any liquid manure storage area. If construction, expansion, or modification of a liquid manure storage structure is proposed as part of this permit application, plans and specifications that meet the requirements in Minn. R. 7020.2100 are to be developed and submitted with this application. If construction, expansion, or modification of a permanent manure stockpile site is proposed as part of this permit application, and the stockpile site requires a liquid manure storage area for runoff containment, the owner must include plans and specifications required in Minn. R. 7020.2100.
- E. Notifications required under Section XII.

# XIV. Applicant's Agreement and Certification

I, the undersigned applicant(s), in accordance with Minn. R. chapter 7020 for the control of pollution from animal feedlots and manure storage areas and the Code of Federal Regulations 40 § 122, hereby apply to the MPCA for a permit to construct, expand, and/or operate an animal feedlot or manure storage area under a construction short form and/or an interim permit. I certify that, in accordance with Minn. R. 7020.0505, subp. 4, item E, and 40 CFR 122.21, I will submit additional information relating to the facility design, construction, or operation as requested by the MPCA to evaluate compliance with applicable federal and state laws and rules.

I hereby certify that the design, construction, and/or operation of the facility described in this permit application will be in accordance with the plans, specifications, reports, and related communications approved by the MPCA or delegated county feedlot pollution control officer and on file in its office; and in accordance with the conditions that have been or may be imposed in the permit or any applicable regulations or standards of the MPCA. I further certify that the design, construction, and operation of the facility will be in full compliance with the MPCA feedlot rules, Minn. R. chapter 7020.

I also certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
