## Planning • GIS • Water Resources

123 - 5<sup>th</sup> Ave. N. Suite 130 - Okanogan, WA 98840  
(509) 422-7160 • FAX: (509) 422-7349 • TTY/Voice Use 800-833-6388  
email: [planning@co.okanogan.wa.us](mailto:planning@co.okanogan.wa.us)

## CONDITIONAL USE PERMIT (CUP) APPLICATION PROCEDURE

### What is in this packet:

- Application procedure
- Site Plan Requirements form
- Site Plan Example
- Site Analysis form
- Land Use application
- Statement of Adjacent Landowners
- SEPA Environmental Checklist

### WHAT TO SUBMIT:

- Completed "Permit Application" form
- Fee - \$700.00
- Site Plan
- List of Adjacent Landowners within 300 feet of boundaries (obtain from Assessor's Office)
- Detailed description of proposed project
- SEPA Checklist

### PROCESS:

1. Planning staff reviews application for completeness.
2. When planning staff determines that application is complete, the application is accepted (vested) and sent to departments/agencies for comment.
3. The CUP is placed on the Board of Adjustment agenda for its next available meeting. The Board meets on the third Tuesday of each month. Deadline for consideration by the BOA is always the last day of the month. The next BOA meeting at which an application may be considered will be **at least** 30 days from the date of application.
4. Notice of application sent to adjacent landowners.
5. Applicant is responsible for conspicuous posting of notice and completion of "Affidavit of Posting."
6. Notice of application and Board of Adjustment meeting published in Okanogan County's legal newspaper (The Omak-Okanogan Chronicle) at least 10 days prior to meeting date.
7. Planning staff prepares a report with its recommendation to approve or deny the CUP with appropriate conditions for Board of Adjustment members.
8. Public hearing with Board of Adjustment.
9. Letter sent to applicant announcing Board's decision. If decision is to approve, this letter also states any conditions the Board has deemed appropriate.
10. Appeal of Board's decision is to Superior Court of Okanogan County. (Optional)

# SITE PLAN REQUIREMENTS

(in accordance with O.C.C. 14.12.160)

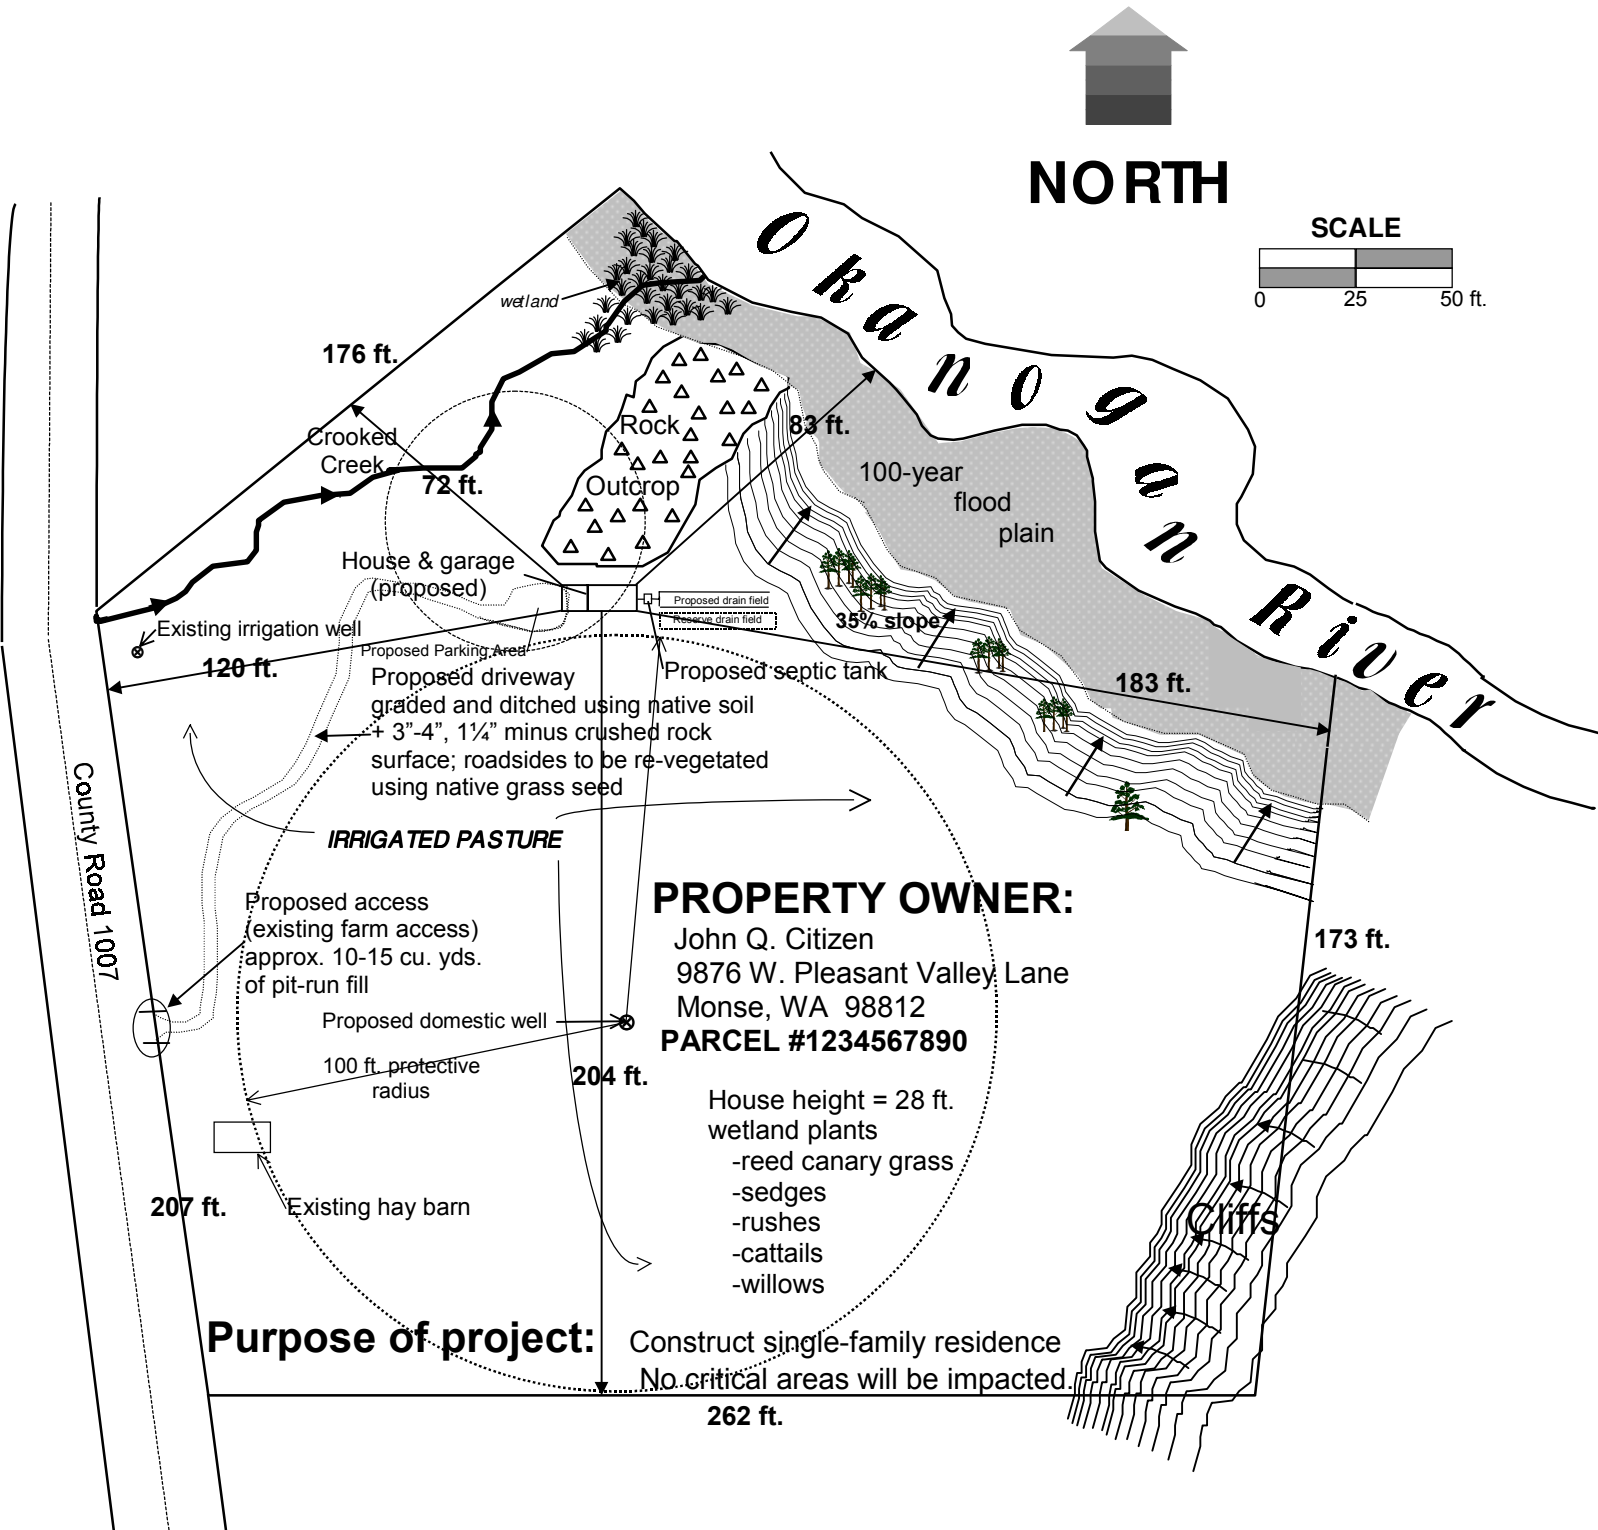

A Site Plan, drawn to scale, showing critical areas must be submitted with each application for development approval. For parcels greater than five (5) acres, the site plan may be limited to the area within 330 feet of proposed structures (adjacent properties need not be mapped). The site plan may be combined with or accompany site plan requirements for other County approvals, and, unless the Administrator waives one or more of the following information requirements, site plans shall include the following:

✓ *Check when completed*

- 1. An aerial photograph at a scale no smaller than 1" = 400' showing the entire parcel of land owned by the applicant (obtain from the Assessor's office);
- 2. A site plan at 1"=50' showing existing improvements and natural features (such as rivers, cliffs, streams, ponds, etc.), including critical areas (such as specific wildlife habitat or wetland areas), within 330 feet of the proposed structures;
- 3. Boundaries and dimensions of the site(s);
- 4. The location of proposed sites and specifications for all development activities;
- 5. The purposes of the project and an explanation why the proposed activity cannot be located at another location on-site, that is not impacted by critical areas;
- 6. Location and identification of all existing and proposed roads, easements, driveways, and parking areas on or abutting the parcel;
- 7. A description of the vegetative cover around wetlands and streams, and identification of dominant species. Identification of existing vegetation in general, which would include identification of all evergreen trees greater than eight (8) inches in diameter and all deciduous trees greater than twelve (12) inches in diameter, as measured four and one half (4.5) feet above ground level, to be retained after completion of the development;
- 8. Location of existing vegetation and vegetation to be removed;
- 9. Proposed re-vegetation, including location, species and maintenance plan;
- 10. Approximate elevations of the site and adjacent lands within the critical area and its buffer;
- 11. Sketch of existing and proposed changes to topography which would include steep slopes, ravines, grading, etc.;
- 12. Open Space: Amount, location, function and maintenance plan for contiguous private wildlife open space or other open space;
- 13. Mitigation: Show the extent to which measures to lessen potential adverse impacts to critical areas are incorporated into the project design, including but not limited to enhancement of habitat, provision of replacement habitat, public education, consideration of remaining open space areas for viable functional habitat, migration corridors etc.; and,
- 14. A list of all property owners within 300' of a Category I wetland and all properties contiguous to the parcel to be developed, if a public hearing is required. If the owner of the parcel to be developed owns another parcel or parcels of real property which lies contiguous to the parcel to be developed, notice shall be given to owners of real property located within 300 feet of any portion of the boundaries of such contiguously located parcels.

# Site Plan Example

See reverse for specific requirements. All of the elements noted on the reverse side of this form must be included, unless specifically waved by the administrator.

**PROPERTY OWNER:**

John Q. Citizen  
 9876 W. Pleasant Valley Lane  
 Monse, WA 98812  
**PARCEL #1234567890**

- House height = 28 ft.  
 wetland plants  
 -reed canary grass  
 -sedges  
 -rushes  
 -cattails  
 -willows

**Purpose of project:**

Construct single-family residence  
 No critical areas will be impacted.

### SITE ANALYSIS FORM

Applicants must supply the following information to initiate a site analysis:

- ✓ A site plan map- located on the back side of this sheet;
- ✓ Landowner's signature under disclaimer at the bottom OR Landowner Consent Form must be signed
- ✓ **\$75 fee for application without site visit; \$275 fee for application requiring a site visit to parcel: (\*)**
- ✓ A physical address verified by the Office of Planning and Development.

Fee Paid \$ \_\_\_\_\_ Receipt # \_\_\_\_\_ Address Verified \_\_\_\_\_

#### REQUEST SECTION

I am requesting this analysis for:

- |  |  |
|--|--|
| <input type="checkbox"/> A Building Permit                       | <input type="checkbox"/> A Manufactured Home Permit  |
| <input type="checkbox"/> Determination of floodplain designation | <input type="checkbox"/> Review of Land Use Proposal |

Landowner Name: \_\_\_\_\_ Phone #: \_\_\_\_\_ (Home)

## *Statement of Adjacent Landowners Submitted*

As the project applicant or agent I understand that before the Okanogan County Planning Department can vest or continue to process my application as complete I must submit a complete list of all adjacent landowners within 300 feet of the exterior boundaries of the parcel of property on which the proposed project is to take place. This list shall include the name, mailing address and parcel number of the owner/taxpayer. These project applications shall include Short Subdivisions, Short Subdivision Alterations or Vacations, Open Space Timber, Open Space/Open Space, Re-Zones ( PD's & PDR's), Zoning Code Amendments, Binding Site Plans and Substantial Shoreline Development Permits.(see example A on reverse side)

Application for a Conditional Use Permit, Variance, Long Subdivision or a Long Subdivision Alteration has the same requirements as above however the complete list of adjacent landowners shall include landowners within 300 feet of any and all land owned by the project proponent that is adjacent to the project parcel. The complete list of adjacent owners of private and/or public lands will be listed as such owner/taxpayer appear on the records of the Okanogan County Assessor. For adjacent properties outside of Okanogan County, the appropriate County Assessor data shall be used. (see example B on reverse side)

As project applicant or agent I understand that any errors or omissions in the information provided by me may be cause for delays to my project. These delays may include the re-scheduling of my hearing by any Board or Body hearing such application. There may also be additional fees charged to me to cover the cost of re-advertising for notice of a public hearing to all adjacent land owners and publishing of such public hearing in local newspaper(s). Manufacturing and mailing of new posting signs and additional costs to reconvene the appropriate Board hearing the application may also be charged.

By signing below, I acknowledge that I have read and understand the above, and acknowledge the effects of incorrect or incomplete information.

# SEPA ENVIRONMENTAL CHECKLIST

## WAC 197-11-960

### ***Purpose of Checklist:***

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impact from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

### ***Instructions for applicants:***

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply". Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

### ***Use of checklist for nonproject proposals:***

Complete this checklist for nonproject proposals, even though questions may be answered "does not apply." IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (part D).

For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

### **A. BACKGROUND**

1. Name of proposed project, if applicable:
  
2. Name of applicant:
  
3. Address and phone number of applicant and contact person:

4. Date checklist prepared:
5. Agency requesting checklist:
6. Proposed timing or schedule (including phasing, if applicable):
  
7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.
  
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.
  
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.
  
10. List any government approvals or permits that will be needed for your proposal, if known.
  
11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page.
  
12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

**B. ENVIRONMENTAL ELEMENTS:**

**1. Earth**

a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous, other \_\_\_\_\_.

b. What is the steepest slope on the site (approximate percent slope)?

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

e. Describe the purpose, type and approximate quantities of any filling or grading proposed. Indicate source of fill.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

**2. Air**

a. What type of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

**3. Water**

a. Surface:

1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

6) Does the proposal involve any discharges of waste materials to surface waters? If so describe the type of waste and anticipated volume of discharge.

b. Ground:

1) Will ground water be withdrawn, or will water be discharged to ground water? Give general description, purpose, and approximate quantities if known.

2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: domestic sewage; industrial, containing the following chemicals...; agricultural: etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

c. Water runoff (including storm water)

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

2) Could waste materials enter ground or surface waters? If so, generally describe.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

#### 4. Plants

a. Check or circle types of vegetation found on the site:

deciduous tree: alder, maple, aspen, other

evergreen tree: fir, cedar, pine, other

shrubs

grass

pasture

crop or grain

wet soil plants: cattail, buttercup, bullrush, skunk cabbage,  
other \_\_\_\_\_

water plants: water lily, eelgrass, milfoil, other

other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

c. List threatened or endangered species known to be on or near the site.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

#### 5. Animals

- a. Circle any birds and animals which have been observed on or near the site or are known to be on or near the site:  
birds: hawk, heron, eagle, songbirds, other: \_\_\_\_\_  
mammals: deer, bear, elk, beaver, other: \_\_\_\_\_  
fish: bass, salmon, trout, herring, shellfish, other: \_\_\_\_\_
- b. List any threatened or endangered species known to be on or near the site.
- c. Is the site part of a migration route? If so, explain.
- d. Proposed measures to preserve or enhance wildlife, if any:

**6. Energy and Natural Resources**

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.
- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.
- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

**7. Environmental Health**

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.

- 1) Describe special emergency services that might be required.
- 2) Proposed measures to reduce or control environmental health hazards, if any:

**b. Noise**

1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

3) Proposed measure to reduce or control noise impacts, if any:

**8. Land and Shoreline Use**

a. What is the current use of the site and adjacent properties?

b. Has the site been used for agriculture? If so, describe.

c. Describe any structures on the site.

d. Will any structures be demolished? If so, what?

e. What is the current zoning classification of the site?

f. What is the current comprehensive plan designation of the site?

g. If applicable, what is the current shoreline master program designation of the site?

h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.

i. Approximately how many people would reside or work in the completed project?

j. Approximately how many people would the completed project displace?

k. Proposed measures to avoid or reduce displacement impacts, if any:

I. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

**9. Housing**

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.
- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.
- c. Proposed measures to reduce or control housing impacts, if any:

**10. Aesthetics**

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?
- b. What views in the immediate vicinity would be altered or obstructed?
- c. Proposed measures to reduce or control aesthetic impacts, if any:

**11. Light and Glare**

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?
- b. Could light or glare from the finished project be a safety hazard or interfere with views?
- c. What existing off-site sources of light or glare may affect your proposal?
- d. Proposed measures to reduce or control light and glare impacts, if any:

**12. Recreation**

- a. What designated and informal recreational opportunities are in the immediate vicinity?
- b. Would the proposed project displace any existing recreational uses? If so, describe.

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

**13. Historic and Cultural Preservation**

a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

b. Generally describe any landmarks or evidence of historic, archaeological, scientific, or cultural importance known to be on or next to the site.

c. Proposed measures to reduce or control impacts, if any:

**14. Transportation**

a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.

b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?

c. How many parking spaces would the completed project have? How many would the project eliminate?

d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

g. Proposed measures to reduce or control transportation impacts, if any:

**15. Public Services**

a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

b. Proposed measures to reduce or control direct impacts on public services, if any.

**16. Utilities**

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

**C. SIGNATURE**

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature: \_\_\_\_\_

Date Submitted: \_\_\_\_\_

**D. SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS**

(do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent of the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water: emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

Proposed measures to avoid or reduce such increases are:

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

3. How would the proposal be likely to deplete energy or natural resources?

Proposed measures to protect or conserve energy and natural resources are:

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

Proposed measures to protect such resources or to avoid or reduce impacts are:

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

Proposed measures to avoid or reduce shoreline and land use impacts are:

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Proposed measures to reduce or respond to such demand(s) are:

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.
