Anchorage, Alaska 99501-3569
Main: 907.269.8150
TDD: 907.465.5437
Fax: 907.269.8147

Call for materials: Alaska-manufactured building products

Producers of Alaska-manufactured building materials are invited to submit their products to the State of Alaska Department of Commerce, Community, and Economic Development – Division of Economic Development (DED) for inclusion in a promotional campaign. The campaign will feature building materials manufactured in Alaska in an effort to connect locally-made products and producers to Alaskan designers and builders.

Producers have two opportunities to participate:

- 1) Provide DED a sample building product for the DED booth; and/or
- 2) Provide DED product information to be included in the online directory.

Businesses must have the required business license(s) with the State of Alaska and produce a product manufactured in Alaska. A product is considered "Alaska-manufactured" if more than 51 percent of it was manufactured in-state. Examples of Alaskan-manufactured building material include cabinets, flooring, countertops, lumber made from Alaskan timber, windows, insulation, doors, and hardware crafted in Alaska.

Sample Building Product

Representatives from DED will be staffing and promoting materials displayed in an Alaska-made product booth at the 2013 Anchorage Home, Garden & Remodeling Show March 8 – 10 at the Sullivan Area.

If you would like your building product displayed at the DED booth, contact Gretchen Fauske at Gretchen.Fauske@alaska.gov or 907-269-8406 by **February 13, 2013**.

Online Directory

Businesses submitting their Alaska-made building product(s) for the directory will be asked for the following information:

- Business name and Alaska business license number
- Business profile (tell us about your business in 250 words or less)
 - Example: Yellow Cedar Roofing was founded in 2012 and calls Ketchikan home. Yellow Cedar Roofing produces cedar shingles & shakes made from Alaska Yellow cedar that will meet and exceed your home roofing needs. With their high levels of natural oils these shingles are highly resistant to weather and rot. Yellow cedar shingles are moderate in strength, have a great aroma and are very appealing to the eye. Great for your roof or exterior walls, these shingles & shakes will weather to a natural silver gray.
- Product list (please include a list of all the Alaska-manufactured products your business can provide)
- Product photos (250 dpi high resolution, jpeg file, labeled with company and product name)
- Company's physical address (or latitude/longitude)
- Contact information (phone number, email, website, mailing address)
- Company logo (250 dpi high resolution, jpeg file, print quality)

Please use the included form for submitting your business information.

Business profiles, product lists, and high resolution images of your product(s) must be submitted to Cassie Pinkel by **February 15, 2013** at cassie.pinkel@alaska.gov to be included in this online resource.
