Mr.Sunil Athalye
ADOT Bridge Management Leader
Arizona DOT
205 South 17 Avenue
Phoenix, AZ 85007

May 12, 2010

Regarding: Scour Plans of Action

Dear Mr.Athalye:

This letter is to notify you that your agency may be subject to federal sanctions for failure to complete Plans of Action (POAs) for scour critical bridges under your agency's jurisdiction.

The POAs are intended to identify actions to reduce the potential danger to the traveling public during a significant hydraulic event.

The California Department of Transportation (Caltrans) in July 2009 sent a list of scour critical bridges to your agency that needed to have POAs completed and submitted to the District Local Assistance Engineer (DLAE) by October 1, 2009.

In a letter (see attached) dated February 10, 2010, Federal Highway Administration (FHWA) informed Caltrans that some agencies still need to submit POAs to the DLAEs and failure to complete these POAs could result in sanctions, including withholding of federal bridge funds. To ensure compliance with this requirement, FHWA initiated monthly reporting of POA completion progress beginning April 1, 2010. The list of scour critical bridges within your jurisdiction requiring POAs is enclosed.

To avoid potential withholding of federal funds by FHWA, you must submit POAs for your scour critical bridges to your District Local Assistance Engineer (DLAE) by July 1, 2010. To assist you in this effort, please refer to the Caltrans Structure Maintenance and Investigations web site located at: (<http://www.dot.ca.gov/hq/structur/strmaint/scour.htm>). This website provides FHWA requirements, POA templates, sample POAs, POA form field definitions, a Question & Answer section, and links to other POA reference material.

Federal Highway Bridge Program funds are available for reimbursement of the cost to develop the POAs. Please submit a request for authorization (E-76) for PE funds to your DLAE. Do not initiate any reimbursable work until the E-76 has been approved.

Mr. Frank Fowler
Dept of Public Works & Planning
County of Fresno
2220 Tulare Street, 6th Floor
Fresno, CA 93721

May 12, 2010

Regarding: Scour Plans of Action

Dear Mr. Fowler:

This letter is to notify you that your agency may be subject to federal sanctions for failure to complete Plans of Action (POAs) for scour critical bridges under your agency's jurisdiction.

The POAs are intended to identify actions to reduce the potential danger to the traveling public during a significant hydraulic event.

The California Department of Transportation (Caltrans) in July 2009 sent a list of scour critical bridges to your agency that needed to have POAs completed and submitted to the District Local Assistance Engineer (DLAE) by October 1, 2009.

In a letter (see attached) dated February 10, 2010, Federal Highway Administration (FHWA) informed Caltrans that some agencies still need to submit POAs to the DLAEs and failure to complete these POAs could result in sanctions, including withholding of federal bridge funds. To ensure compliance with this requirement, FHWA initiated monthly reporting of POA completion progress beginning April 1, 2010. The list of scour critical bridges within your jurisdiction requiring POAs is enclosed.

To avoid potential withholding of federal funds by FHWA, you must submit POAs for your scour critical bridges to your District Local Assistance Engineer (DLAE) by July 1, 2010. To assist you in this effort, please refer to the Caltrans Structure Maintenance and Investigations web site located at: (<http://www.dot.ca.gov/hq/structur/strmaint/scour.htm>). This website provides FHWA requirements, POA templates, sample POAs, POA form field definitions, a Question & Answer section, and links to other POA reference material.

Federal Highway Bridge Program funds are available for reimbursement of the cost to develop the POAs. Please submit a request for authorization (E-76) for PE funds to your DLAE. Do not initiate any reimbursable work until the E-76 has been approved.

Regarding: Scour Plans of Action

Dear Mr. Beals:

This letter is to notify you that your agency may be subject to federal sanctions for failure to complete Plans of Action (POAs) for scour critical bridges under your agency's jurisdiction.

The POAs are intended to identify actions to reduce the potential danger to the traveling public during a significant hydraulic event.

The California Department of Transportation (Caltrans) in July 2009 sent a list of scour critical bridges to your agency that needed to have POAs completed and submitted to the District Local Assistance Engineer (DLAE) by October 1, 2009.

In a letter (see attached) dated February 10, 2010, Federal Highway Administration (FHWA) informed Caltrans that some agencies still need to submit POAs to the DLAEs and failure to complete these POAs could result in sanctions, including withholding of federal bridge funds. To ensure compliance with this requirement, FHWA initiated monthly reporting of POA completion progress beginning April 1, 2010. The list of scour critical bridges within your jurisdiction requiring POAs is enclosed.

To avoid potential withholding of federal funds by FHWA, you must submit POAs for your scour critical bridges to your District Local Assistance Engineer (DLAE) by July 1, 2010. To assist you in this effort, please refer to the Caltrans Structure Maintenance and Investigations web site located at: (<http://www.dot.ca.gov/hq/structur/strmaint/scour.htm>). This website provides FHWA requirements, POA templates, sample POAs, POA form field definitions, a Question & Answer section, and links to other POA reference material.

Federal Highway Bridge Program funds are available for reimbursement of the cost to develop the POAs. Please submit a request for authorization (E-76) for PE funds to your DLAE. Do not initiate any reimbursable work until the E-76 has been approved.

Mr. Warren Westrup
Director
Yolo County Parks and Resources Management
120 West Main Street, Suite C
Woodland, CA 95695

May 12, 2010

Regarding: Scour Plans of Action

Dear Mr. Westrup:

This letter is to notify you that your agency may be subject to federal sanctions for failure to complete Plans of Action (POAs) for scour critical bridges under your agency's jurisdiction.

The POAs are intended to identify actions to reduce the potential danger to the traveling public during a significant hydraulic event.

The California Department of Transportation (Caltrans) in July 2009 sent a list of scour critical bridges to your agency that needed to have POAs completed and submitted to the District Local Assistance Engineer (DLAE) by October 1, 2009.

In a letter (see attached) dated February 10, 2010, Federal Highway Administration (FHWA) informed Caltrans that some agencies still need to submit POAs to the DLAEs and failure to complete these POAs could result in sanctions, including withholding of federal bridge funds. To ensure compliance with this requirement, FHWA initiated monthly reporting of POA completion progress beginning April 1, 2010. The list of scour critical bridges within your jurisdiction requiring POAs is enclosed.

To avoid potential withholding of federal funds by FHWA, you must submit POAs for your scour critical bridges to your District Local Assistance Engineer (DLAE) by July 1, 2010. To assist you in this effort, please refer to the Caltrans Structure Maintenance and Investigations web site located at: (<http://www.dot.ca.gov/hq/structur/strmaint/scour.htm>). This website provides FHWA requirements, POA templates, sample POAs, POA form field definitions, a Question & Answer section, and links to other POA reference material.

Federal Highway Bridge Program funds are available for reimbursement of the cost to develop the POAs. Please submit a request for authorization (E-76) for PE funds to your DLAE. Do not initiate any reimbursable work until the E-76 has been approved.
