b. As a result of the final order, Respondent's license to practice pharmacy was suspended and he was required to enter into a written contract with Physician's Recovery Network (PRN) to obtain drug treatment.

7 to February 15, 1997, while Respondent was employed by Medical Center Pharmacy in Pensacola, Florida, Respondent illegally procured two Demerol prescriptions using fraudulent authorizations while the pharmacy supervisor was on vacation. Respondent further filled a prescription for a child with the incorrect antibiotic, was late to work and late returning from lunch, appeared ill, and failed to report for work on one occasion. Respondent's employment was terminated. As a result of the board's investigation into the matter, Respondent was deemed unfit to practice pharmacy by reason of an abnormal physical or mental condition.

SECOND CAUSE FOR DENIAL OF APPLICATION

(Federal Criminal Conviction on January 9, 1998, for Medicare Fraud)

- Respondent's application is subject to denial under sections 480(a)(1), 480(a)(3), and 4301(l) of the Code in that Respondent was convicted of an offense that is substantially related to the qualifications, duties, and functions of a pharmacist. The circumstances are as follows:
- a. On or about October 21, 1997, in a criminal proceeding entitled *United States v. Stephen Mason Otis*, United States District Court, Northern District of Florida (Pensacola) in case number 97-cr-00105-RV-1, Respondent was convicted on his plea of guilty to violating 18 U.S.C. § 287 (making false, fictitious, or fraudulent claims against the United States), a felony.
- b. As a result of the conviction, on or about January 9, 1998, Respondent was sentenced to one month in federal prison, three years supervised release (with conditions as to home detention, electronic monitoring, substance abuse treatment, and mental health counseling), and \$2,000 in fines. On or about November 29, 2000, the federal court found that Respondent violated the terms of his supervised release (see paragraph 13), and re-sentenced Respondent to seven months in federal prison with no supervised release to follow.

The facts that lead to the conviction were that Respondent C. knowingly made and presented Medicare claims to the United States Department of Health and Human Services (requests for payment for lymphedema pumps), knowing that the claims were false, fictitious and fraudulent in that the Medical Necessity Forms, the Physician's Prescription Forms, and Patient Agreement Information Forms for each claim had either been forged by Respondent or obtained by deceit.

THIRD CAUSE FOR DENIAL OF APPLICATION

(Criminal Conviction on November 29, 2000, for Possession of Controlled Substances & Larceny/Petty Theft on June 19, 2000)

- Respondent's application is subject to denial under sections 480(a)(1), 13. 480(a)(3), and 4301(l) of the Code in that Respondent was convicted of an offense that is substantially related to the qualifications, duties, and functions of a pharmacist. The circumstances are as follows:
- On or about November 20, 2000, in a criminal proceeding entitled a. People v. Stephen Mason Otis, Okaloosa County Circuit Court (Florida), case number 2000CF001053, Respondent was convicted of possessing a Schedule I controlled substance, possessing a controlled substance without a prescription, and larceny/petty theft.
- b. As a result of the state conviction, the terms of Respondent's federal supervised release program were violated (as set forth in paragraph 12(b)). Respondent's sentence was deferred and he was referred to drug court concurrent with his November 29, 2000, re-sentence to seven months in federal prison.
- The facts that lead to the conviction were that on or about June 19, 2000, while employed by the Fort Walton Beach (Florida) Medical Center pharmacy, Respondent was contacted by the Okaloosa County Sheriff's Office as a result of a complaint filed by the head pharmacist who suspected that Respondent was stealing drugs from the pharmacy's drug vault. Sheriff's deputies discovered in Respondent's lab coat tablets containing Hydrocodone bitartate and acetaminophen, a Schedule III drug subject to the Federal Controlled Substances

Act. A consent search of Respondent's automobile was performed and deputies found additional Hydrocodone tablets, as well as one vial of morphine and a syringe. An inventory of the vault revealed missing vials of Hydromorphone, morphine, Demerol, and Fentanyl, all controlled substances. An inventory entry for morphine on the Pharmacy Narcotic Record form showed evidence of tampering (use of white-out). Respondent admitted to the head pharmacist that he was on a substance abuse program, that he still had a drug problem, and that he had been taking drugs from the vault for his own use. Respondent's arms showed evidence of recent intravenous drug use.

FOURTH CAUSE FOR DENIAL OF APPLICATION
