Worldwide Military Banking Program, Effective August 11, 2014

The section of the Schedule titled "Wells Fargo Worldwide Military Banking Program" is deleted and replaced with the following:

Wells Fargo Worldwide Military Banking Program

Program description

Provides financial services to customers actively serving or retired from the military or veterans receiving compensation for service related disability from the VA – military customers.

Accounts and services

Military customers are eligible for the Wells Fargo At Work Package, including the Wells Fargo At WorkSM Checking account (or any other accounts and services offered by Wells Fargo) by meeting the requirements of the Worldwide Military Banking Program. To receive these benefits and others designated under the Worldwide Military Banking Program, the customer must have a military non-civilian direct deposit¹ applied to his/her account monthly.

Other benefits

No Wells Fargo access fees for four ATM cash withdrawal transactions (U.S. and international) per statement cycle at ATMs outside of the Wells Fargo ATM network.²

Eligibility

- You must be actively serving in the U.S. military, retired or a disabled veteran and
- You must receive a qualifying non-civilian direct deposit¹ from DOD/DFAS (Department of Defense/Defense Finance and Accounting Service) or VA/VBA (Department of Veterans Affairs/Veterans Benefits Administration) or U.S. Department of the Treasury into your checking account

monthly in order to be eligible to receive benefits of the Worldwide Military Banking Program. You will not be eligible for Worldwide Military Banking benefits **until** the non-civilian direct deposit has been deposited into your checking account. You will receive your program benefits 45 days after your non-civilian direct deposit is deposited into your account.

- If your status changes, and a non-civilian direct deposit is no longer deposited each statement cycle into your checking account, you will no longer be eligible for the Worldwide Military Banking Program and your checking account will no longer have benefits under this program. In that event, the Bank's standard terms and fees set forth in the Consumer Account Fee and Information Schedule applicable to your checking account shall apply.

Opening deposit

Military customers require a \$25 opening deposit with a qualifying non-civilian direct deposit.

¹ A qualifying non-civilian direct deposit is a direct deposit of your salary or pension, electronically deposited into your account by DOD/DFAS or VA/VBA or U.S. Department of the Treasury. Transfers from one account to another, or deposits made at a banking location or ATM do not qualify as a direct deposit.

IMPORTANT: Unless you have at least \$10,000 in qualifying relationship balances in accounts linked to your PMA Package on the last day of the third monthly statement cycle after your PMA Package was opened, the Bank will terminate your PMA Package, delink all accounts from the relationship and convert your PMA Premier Checking account to the Wells Fargo ValueSM Checking account, a non-interest earning account with lower monthly service fee waiver requirements (See the section titled "Wells Fargo Value Checking Account" in this Schedule for complete details about this account). If the PMA Package relationship is terminated, the bonus interest rate on all eligible savings accounts, and discounts or fee waivers on other products and services will discontinue and revert to the Bank's current applicable rate or fee.

If there is a conflict between the Addenda and the Agreement, these Addenda will control. Except as expressly amended by these Addenda, the Agreement remains in full force and effect.

Daily Limits, Effective October 29, 2014

In the section of the Agreement titled "ATM transactions and point-of-sale purchases" under sub-section "Daily limits" the following two bullets are added:

- *Card* transactions are subject to a daily limit for ATM withdrawals and cash-like withdrawals (such as cash advances and money transfers), and a daily limit for purchases.
- Your actual daily limits for debit card transactions may vary depending on our experience with you. In certain circumstances, we may authorize debit card transactions that will cause you to exceed your daily purchase limit. Your daily limits are subject to periodic review and are subject to change based on account history, activity, and other factors.

Important changes to deposits, available balances, and debit card overdraft services, Effective September 17, 2014

In the section of the Agreement titled "Deposits to your account" the sub-section "When deposits are credited to your account" is deleted and replaced with the following:

When deposits are credited to your account

All over-the-counter deposits or ATM deposits to your account which are received before the Bank's established cutoff time on any *business day* will be credited (and will be considered deposited) to your account as of the close of business that day, and will be reflected in that day's ledger balance for your account. All other deposits will be processed in accordance with the written agreements governing such deposits or, if there is no written agreement, banking practice. All check deposits received after the Bank's established cutoff time on a *business day* or at any time on a day which is not a *business day* will be credited (and will be considered deposited) to your account at the end of the next *business day*. Certain "pending" deposits, specifically a cash deposit or a transfer from another account, that are made **after** the displayed cutoff time (where the deposit was made) will be included in our nightly processing to pay your transactions if they are made **before** we start our nightly process. These "pending" deposits will be credited (posted) to your account at our next nightly batch process and will reflect that date in your transaction record.

In the section of the Agreement titled "Withdrawals from your account" under sub-section "Determining your account's available balance" the first two paragraphs are modified as follows:

Your *available balance* is the most current record we have about the funds that are available for withdrawal from your account. In determining whether you have sufficient funds to cover a transaction in our nightly processing, we will consider all transactions that have posted to your account, any holds that may be in place on deposits you have made, and pending transactions (such as pending debit card purchases or ATM withdrawals) that the Bank has authorized but that have not yet posted to your account.

Please note it is still possible for you to overdraw your account even though the *available balance* appears to show there are sufficient funds to cover a transaction that you want to make. The *available balance* does not reflect all your outstanding checks, automatic bill payments (such as ACH and recurring debit card transactions) that you have authorized, or other transactions that have not been paid from your account. For example, when you write a check, the payee may not present the check to us for payment on the same day, so the outstanding check will not be reflected in your *available balance* since it has not yet been received by the Bank.

The Bank will include check and ACH transactions that are received by the Bank during the day as "pending" transactions that reduce your intra-day available balance. If you do not have sufficient funds in your account when these transactions are processed for payment from your account, these transactions may be paid into overdraft or returned unpaid.

In the section of the Agreement titled "Overdrafts; security interest; the Bank's right to setoff" under sub-section "Overdrafts and Non-Sufficient Funds/NSF" the first bullet under "Important details" is modified as follows:

- There is **no fee** if your account is overdrawn **during the day** and you make a sufficient deposit or transfer before the posted "cutoff" time on the same *business day*. Deposits are subject to our funds availability policy. Certain "pending" deposits, specifically a cash deposit or a transfer from another account, that are made after the displayed cutoff time (where the deposit was made) will be included if they are made before we start our nightly process.

The Bank's right to require notice, Effective September 1, 2014

In the section of the Agreement titled "Withdrawals from your account" sub-section "The Bank's right to require notice" is deleted and replaced with the following:

The Bank's right to require notice

If your account is a savings account, then in accordance with Regulation D, the Bank reserves the right to require seven days written notice before you withdraw money from your account.

Order of posting changes, Effective August 11, 2014

In the section of the Agreement titled “Withdrawals from your account” under sub-section “Order of posting; categories of items” the last bullet is modified as follows:

- Checks and automatic payments (also known as ACH) will be sorted by date and time received by the Bank. If the date and time are the same, these transactions will be sorted by lowest to highest dollar amount. The time recorded as received by the Bank may reflect a time zone of an operations center that is in a different time zone than your account.

In the section of the Agreement titled “Withdrawals from your account” the sub-section “Relation between posting order and overdrafts/returned items” is deleted and replaced with the following:

Relation between posting order and overdrafts/returned items

On any given *business day*, if we receive more than one *item* for payment and if we determine there are sufficient funds to pay one or more but not all of the *items*, then the number of *items* paid and the *overdraft* and returned *item* fees assessed could be affected by the order that we choose to post those *items*.

Important Changes, Effective May 1, 2014

In the section of the Agreement titled “Interest-earning accounts” the sub-section “Savings account transaction limits” is deleted and replaced with the following:

Regulation D savings account transaction limit and other limited activity

Regulation D and the Bank limit certain types of withdrawals and transfers from savings or money market accounts to a combined total of six (6) per monthly statement period (exceptions to the statement period may apply).

Limited by Regulation D:

- Transfers by phone using our automated banking service or speaking with a banker on the phone
- Transfer or payments through online, mobile, and text banking (including bill pay)
- Transfers to a checking account for *overdraft* protection coverage
- Pre-authorized transfers and withdrawals (including recurring and one time)
- Payments to third parties such as checks, drafts, or similar transactions (counted when they are posted to your account and not when they are written)
- Debit or ATM card purchases that post to the savings account

Limited by the Bank:

- Transfers and payments to Wells Fargo credit cards, lines of credit, and loans
- Wires whether made in person, on the telephone, or online

Not limited:

Except wire transfers as described above, there is no limit on withdrawals or transfers made in person at an ATM or Wells Fargo banking location or on any types of deposits.

An excess activity fee (see the *Consumer Account Fee and Information Schedule*) is assessed for transactions exceeding the limit stated above. If the limit is exceeded on more than an occasional basis, the Bank may be required to convert the savings account to a checking account, which would discontinue any overdraft protection it might be providing to another account, or close the account.

If the withdrawal and transfer limit is reached, we may decline withdrawals and transfers for the remainder of the monthly statement period to help you avoid a fee and account conversion or closure.

In the section of the Agreement titled “Other electronic fund transfer services” under sub-section “Electronic payments” the section “Limitations” is deleted and replaced with the following:

Limitations

There are no limitations on the amount or frequency of debits that you may make from your checking account. If, however, you make payments from your savings account, any limitation on withdrawals applicable to savings accounts will apply. See the section entitled “Regulation D savings account transaction limit and other limited activity” in the “Interest-earning accounts” section within the *Consumer Account Agreement*.

In the section of the Agreement titled “Other electronic fund transfer services” under sub-section “Preauthorized transfers” the section “Limitations” is deleted and replaced with the following:

Limitations

The Bank provides you with separate notice of any limit on the amount you may transfer at any single time or on any given day, or of any limit on the number of transfers you can make from your checking account. When you complete the package requirements with three or more qualifying linked accounts or *services* (see "Other Wells Fargo Checking Packages[®]-Requirements") and the Wells Fargo College Checking account has one of the following⁴:

- Maintain \$500 minimum daily balance
- Maintain a qualifying direct deposit⁵ of \$25 or more⁶
- Available until September 15, 2014 - A linked Wells Fargo Credit Card(s)⁷ with 2 or more qualified purchase transactions

³ If the Wells Fargo College Checking account is delinked from the PMA Package, or Wells Fargo Campus ATM Card, or Wells Fargo Campus Debit Card, it will be subject to the monthly *service* fee unless the account meets the other waiver requirements.

⁴ The monthly *service* fee is waived for the first three statement cycles to allow you to meet your account requirements. After three statement cycles, the monthly *service* fee is waived if the requirements are met.

⁵ A qualifying direct deposit is a direct deposit of your salary, pension, Social Security or other regular monthly income of \$25 or more per deposit, electronically deposited to your Wells Fargo College Checking account by your employer or an outside agency. Transfers from one account to another, or deposits made at a banking location or ATM, do not qualify as a direct deposit.

⁶ If at any time the direct deposit discontinues, we will look back 65 days to see if you met the direct deposit requirements before a monthly *service* fee is charged.

⁷ For the linked credit card option, the Bank uses qualified purchases listed in the "Purchases, Balance Transfers and Other Charges" section on your credit card billing statement. Transactions such as balance transfers, cash advances, fees, credits, and adjustments are not qualifying purchases. The Bank will use your most recent credit card billing statement issued during the current monthly Wells Fargo College Checking account statement cycle. If your credit card billing statement is issued on the same day as your Wells Fargo College Checking account statement cycle, the qualified credit card purchases will be applied to your next month's Wells Fargo College Checking account statement cycle (if it is your most recent credit card billing statement). The status of your credit card(s) needs to be open, active, in good standing and linked to this Wells Fargo College Checking account at the time the checking account statement cycles, otherwise, the account may be subject to the monthly *service* fee. We reserve the right to determine in our sole discretion whether a particular credit card transaction is a qualified purchase.

Suplementos al Contrato de Cuenta al Consumidor

Estos Suplementos modifican el *Contrato de Cuenta al Consumidor* ("Contrato"). Todos los términos definidos en el Contrato tendrán el mismo significado cuando se usen en este Suplemento. Si existe un conflicto entre el Suplemento y el Contrato, este Suplemento prevalecerá. Excepto por las modificaciones expresamente dispuestas en el presente Suplemento, el Contrato continuará en pleno vigor y vigencia.

Límites diarios, Vigente a partir del 29 de octubre de 2014

En la sección del Contrato titulada "Transacciones en cajeros automáticos ATM y compras en el lugar de venta" bajo la sub-sección "Límites diarios" se agregan los próximos dos puntos:

- Las transacciones con *tarjeta* están sujetas a un límite diario para retiros en cajeros automáticos ATM y retiros equivalentes a efectivo (como los adelantos en efectivo y las transferencias de dinero), y un límite diario para las compras.
- Sus límites diarios reales para las transacciones con tarjeta de débito podrían variar en función de nuestra experiencia con usted. En ciertas circunstancias, es posible que autoricemos transacciones con tarjeta de débito que provocarán que usted exceda su límite de compra diaria. Sus límites diarios están sujetos a revisión periódica y están sujetos a cambios basados en el historial y actividad de la cuenta y otros factores.

Cambios importantes en los depósitos, al saldo disponible, y al servicio para sobregiros de tarjeta de débito, Vigente a partir del 17 de septiembre de 2014

En la sección del Contrato titulada "Depósitos en su cuenta" se suprime la sub-sección "Cuándo se acreditan los depósitos a su cuenta" y se reemplaza con lo siguiente:

Cuándo se acreditan los depósitos a su cuenta

Todos los depósitos presentados en el mostrador o en los cajeros automáticos ATM que se reciban antes de la hora de corte establecida por el Banco en cualquier *día laborable* se acreditarán (y se considerarán depositados) en su cuenta al cierre de las operaciones de ese día, y se reflejarán en el libro mayor de dicho día para su cuenta. Los demás depósitos se procesarán en conformidad con los contratos escritos que rigen tales depósitos o, en caso de no contar con uno, según la práctica bancaria. Todos los depósitos de cheques recibidos después de la hora de corte establecida por el Banco en un día laborable o en cualquier momento de un *día no laborable* se acreditarán (y se considerarán depositados) en su cuenta al final del *día laborable* siguiente. Determinados depósitos "pendientes," específicamente un depósito en efectivo o una transferencia desde otra cuenta, que se realizan **después** de la hora de corte establecida (en el lugar en que el depósito fue realizado) se incluirán en nuestro procesamiento nocturno para fines de pagar sus transacciones si se realizan **antes** del comienzo de nuestro proceso nocturno. Estos depósitos "pendientes" serán acreditados (asentados) a su cuenta en nuestro siguiente procesamiento de lotes nocturno y reflejarán esa fecha en su registro de la transacción.

En la sección del Contrato titulada "Retiros de su cuenta" en la sub-sección "Determinación del *saldo disponible* de su cuenta" los primeros dos párrafos se modifica de la siguiente manera:

Su *saldo disponible* es el registro más actualizado que tenemos sobre los fondos que están disponibles para retiro de su cuenta. Para determinar si usted tiene fondos suficientes para cubrir una transacción en nuestro procesamiento nocturno, tendremos en cuenta todas las transacciones que se hayan asentado en su cuenta, todas las retenciones que puedan haberse implementado sobre depósitos que usted haya hecho, y las transacciones pendientes (como compras con tarjeta de débito o retiros de cajeros automáticos ATM pendientes) que el Banco haya autorizado, pero que todavía no hayan sido asentadas en su cuenta.

Por favor tenga en cuenta que aún es posible que incurra en un *sobregiro* en su cuenta incluso si el *saldo disponible* aparentemente muestra que existen fondos suficientes para cubrir una transacción que desea efectuar. El *saldo disponible* no refleja todos sus cheques pendientes de pago, pagos de cuentas automáticos (como las transacciones de la Cámara de Compensación Automatizada ["ACH" por sus siglas en inglés] y de tarjeta de débito recurrentes) que usted haya autorizado, ni otras transacciones que no hayan sido pagadas desde su cuenta. Por ejemplo, cuando usted libra un cheque, es posible que el beneficiario no nos presente el cheque para el pago ese mismo día, y por eso el cheque pendiente no se reflejará en su *saldo disponible* ya que aún no ha sido recibido por el Banco.

El banco incluirá los cheques y las transacciones por medio de la ACH que son recibidos por el Banco durante el día como transacciones "pendientes" que reducen su *saldo disponible* del día actual. Si usted no tiene fondos suficientes en su cuenta cuando estas transacciones sean procesadas para el pago de su cuenta, estas transacciones pueden ser pagadas en concepto de sobregiro o devueltas sin pagar.

En la sección del Contrato titulada "*Sobregiros; Interés de garantía; Derecho de compensación del Banco*" en la sub-sección "*Sobregiros y Fondos insuficientes/NSF*" el primer punto bajo "Detalles importantes" se modifica de la siguiente manera:

- No se aplica **ningún cargo** si su cuenta incurre en estado de *sobregiro* durante el día y usted realiza un depósito o transferencia suficiente en el mismo *día laborable* antes de la hora de corte establecida. Los depósitos están sujetos a nuestra política sobre disponibilidad de fondos. Determinados depósitos "pendientes," específicamente un depósito en efectivo o una transferencia desde otra cuenta, que se realizan después de la hora de corte establecida (en el lugar en que el depósito fue realizado) se incluirán si se hacen antes de empezar nuestro procesamiento nocturno.

El derecho del Banco de exigir notificación, Vigente a partir del 1 de septiembre de 2014

En la sección del Contrato titulada "Retiros de su cuenta" se suprime la sub-sección "El derecho del Banco de exigir notificación" y se reemplaza con lo siguiente:

El derecho del Banco de exigir notificación

Si su cuenta es una cuenta de ahorros, en conformidad con el Reglamento D, el Banco se reserva el derecho de exigirle una notificación escrita con siete días de antelación antes de que usted retire dinero de su cuenta.

Cambios a la orden de asiento, Vigente a partir del 11 de agosto de 2014

En la sección del Contrato titulada “Retiros de su cuenta” en la sub-sección “Orden de asiento; Categorías de *partidas*” se modifica el último punto de la siguiente manera:

- Cheques y pagos automáticos (también conocido como ACH, por sus siglas en inglés) se ordenarán de acuerdo con la fecha y hora en que el Banco las recibe. Si la fecha y la hora son las mismas, estas transacciones se ordenarán en función del monto en dólares más bajo al más alto. La fecha registrada como recibida por el banco podría reflejar una zona horaria de un centro de operaciones que está en una zona horaria distinta a la de su cuenta.

En la sección del Contrato titulada “Retiros de su cuenta” se suprime la sub-sección “Relación entre el orden de asiento y los *sobregiros/las partidas devueltas*” y se reemplaza con lo siguiente:

Relación entre el orden de asiento y los *sobregiros/las partidas devueltas*

En cualquier *día laborable*, si recibimos más de una *partida* para el pago y si determinamos que existen fondos suficientes para pagar una o más pero no todas las *partidas*, entonces la cantidad de *partidas pagadas* y los cargos por *sobregiro* y por *partidas devueltas* impuestos podrían verse afectados por el orden en el que elijamos asentar dichas *partidas*.

Cambios importantes, Vigente a partir del 1 de mayo de 2014

En la sección del Contrato titulada “Cuentas que devengan intereses” se suprime la sub-sección “Limitaciones sobre las transacciones en la cuenta de ahorros” y se reemplaza con lo siguiente:

Limitación sobre las transacciones en la cuenta de ahorros en virtud del Reglamento D y otras actividades limitadas

El Reglamento D y el Banco limitan ciertos tipos de retiros y transferencias desde una cuenta de ahorros o cuenta del mercado monetario a un total combinado de seis (6) por período de estado de cuenta mensual (podrían aplicarse excepciones al período de estado de cuenta):

Limitado por el Reglamento D:

- Transferencias por teléfono utilizando nuestro servicio bancario automatizado o hablando con un representante bancario por teléfono
- Transferencias o pagos mediante operaciones bancarias por Internet, servicios bancarios móviles y servicios bancarios por texto (incluyendo pago de cuentas)
- Transferencias a una cuenta de cheques para cobertura de protección contra *sobregiros*
- Transferencias y retiros preautorizados (incluyendo transferencias y retiros recurrentes y de única vez)
- Pagos a terceros tales como cheques, giros o transacciones similares (contados cuando se asientan a su cuenta y no cuando están girados)
- Compras realizadas con tarjeta de débito o tarjeta ATM que se asientan a la cuenta de ahorros

Limitado por el Banco:

- Transferencias y pagos a las tarjetas de crédito, líneas de crédito y préstamos de Wells Fargo
- Giros electrónicos que sean realizados en persona, por teléfono, o por Internet

No se limitan:

Con la excepción de los giros electrónicos descritos arriba, no existe límite en retiros o transferencias realizados en persona en un ATM o una sucursal de Wells Fargo, ni en ningún tipo de depósito.

Se tasará un cargo por exceso de actividad (consulte el *Programa de Cuotas e Información de la Cuenta al Consumidor*) por transacciones que superen el límite mencionado arriba. Si se supera el límite en más de un base ocasional, es posible que el Banco sea requerido convertir la cuenta de ahorros en una cuenta de cheques, lo cual discontinuaría cualquier protección contra *sobregiros* que dicha cuenta proporcione a otra cuenta, o cerrar la cuenta.

Si se alcanza el límite de retiros y transferencias, es posible que rechacemos retiros y transferencias para el resto del período del estado de cuenta mensual para ayudarle evitar un cargo, la conversión de la cuenta, o el cierre de la misma.

En la sección del Contrato titulada “Otros *servicios* de transferencias electrónicas de fondos” bajo la sub-sección “Pagos electrónicos” se suprime la sección “Limitaciones” y se reemplaza con lo siguiente:

Limitaciones

No existen limitaciones sobre la cantidad o la frecuencia de los débitos que pueden realizarse de su cuenta de cheques. Sin embargo, si se efectúan pagos desde su cuenta de ahorros, se aplicarán las limitaciones sobre retiros aplicables a las cuentas de ahorros. Consulte la sección titulada “Limitación sobre las transacciones en la cuenta de ahorros en virtud del Reglamento D y otras actividades limitadas” en la sección “Cuentas que devengan intereses” del *Contrato de Cuenta al Consumidor*.

En la sección del Contrato titulada “Otros *servicios* de transferencias electrónicas de fondos” bajo la sub-sección “Transferencias preautorizadas” se suprime la sección “Limitaciones” y se reemplaza con lo siguiente:

Limitaciones

El Banco le suministrará una notificación por separado de todo límite sobre la suma que puede transferir de una sola vez o en una fecha determinada, o de todo límite sobre el número de transferencias que pueden realizarse desde su cuenta de cheques. El límite al número de transferencias que se pueden realizar desde su cuenta de ahorros se describe en el *Contrato de Cuenta al Consumidor* en la sección titulada “Limitación sobre las transacciones en la cuenta de ahorros en virtud del Reglamento D y otras actividades limitadas” bajo la sección “Cuentas que devengan intereses”.

En la sección del Contrato titulada “Wells Fargo Phone BankSM” se suprime la sub-sección “Limitaciones” y se reemplaza con lo siguiente:

Limitaciones

Las limitaciones sobre el número de transferencias que se pueden realizar desde sus cuentas de ahorros se describen en el *Contrato de Cuenta al Consumidor* en la sección titulada “Limitación sobre las transacciones en la cuenta de ahorros en virtud del Reglamento D y otras actividades limitadas” bajo la sección “Cuentas que devengan intereses”.

En la sección del Contrato titulada “Transacciones en cajeros automáticos ATM y compras en el lugar de venta” bajo la sub-sección “Compras en el lugar de venta” se agrega lo siguiente:

El uso de su *tarjeta* a través de un dispositivo móvil

Si usted realiza transacciones con la *tarjeta* a través de un dispositivo móvil, los términos y condiciones del Contrato se aplican con el mismo efecto y cobertura, incluyendo (i) toda limitación que el Banco imponga con respecto a la frecuencia o la cantidad en dólares de sus transacciones con la *tarjeta* y (ii) sus derechos y responsabilidades con respecto a las transacciones no autorizadas.

De acuerdo con su uso en este contrato, “dispositivo móvil” significa un teléfono inteligente, tableta o cualquier otro dispositivo de comunicación manual o portátil que le permite almacenar o presentar electrónicamente su *tarjeta* o número de *tarjeta* (“información de tarjeta electrónica”) y utilizar dicha información de tarjeta electrónica para realizar transacciones con la *tarjeta*. Las palabras “nosotros”, “nos”, “nuestro(a)”, “nuestros(as)” y “Banco” hacen referencia a Wells Fargo Bank, N.A.

- **Cómo proteger su dispositivo móvil.** Si utiliza su *tarjeta* a través de un dispositivo móvil, debe proteger el dispositivo móvil del mismo modo que lo haría con su dinero en efectivo, cheques, tarjetas de crédito y otra información valiosa. El Banco le recomienda que proteja con contraseña o bloquee su dispositivo móvil para ayudar a evitar que una persona no autorizada lo utilice. Notifíquenos de inmediato si pierde o le roban su dispositivo móvil que contiene información de tarjeta electrónica. Puede comunicarse con Wells Fargo Phone Bank al 1-800-TO-WELLS (1-800-869-3557).
- **Tarifas de compañías de servicios móviles.** Tenga en cuenta que su compañía de servicios móviles podría cobrarle tarifas por servicio de mensajería y datos, u otros cargos, cuando use su *tarjeta* a través de un dispositivo móvil.
- **El intercambio de datos y transmisión.** Transacciones con la *tarjeta* realizadas a través de un dispositivo móvil pueden involucrar la transmisión electrónica de la información de su *tarjeta* por redes inalámbricas y de computadora. Otros terceros, como comerciantes, redes de asociaciones de tarjetas, compañías de servicios móviles, operadores de billeteras móviles, fabricantes de dispositivos móviles y proveedores de aplicaciones de software, podrían utilizar y recibir información de tarjeta electrónica en relación con su transacción con la *tarjeta*. Otros terceros también podrían recibir información sobre su dispositivo móvil cuando lo utiliza para realizar una transacción con la *tarjeta*. Cuando utiliza su *tarjeta* a través de un dispositivo móvil, información sobre su dispositivo móvil podría ser transmitida al Banco.
- **Terminación del uso móvil.** El Banco podrá, en cualquier momento, restringir parcial o totalmente su capacidad para realizar transacciones con la *tarjeta* a través de un dispositivo móvil. Si desea eliminar información de tarjeta electrónica de su dispositivo móvil, comuníquese con Wells Fargo Phone Bank al 1-800-TO-WELLS (1-800-869-3557).
- **Servicio para Sobregiros de Tarjeta de Débito.** Una transacción con la *tarjeta* realizada a través de un dispositivo móvil es una transacción con tarjeta de débito realizada por única vez. En la medida en que esté utilizando su tarjeta de débito al consumidor a través de un dispositivo móvil y que haya agregado el Servicio para Sobregiros de Tarjeta de Débito a su cuenta (si reúne las condiciones para este servicio), esta elección también se aplica a transacciones realizadas a través de su dispositivo móvil. Todos los *sobregiros* resultantes están sujetos a un cargo por *sobregiro* según lo establecido en el Contrato de Cuenta al Consumidor y el Programa de Cuotas e Información de la Cuenta al Consumidor.

Consumer Account Agreement Addenda

These Addenda amend the *Consumer Account Agreement* ("Agreement"). All terms defined in the Agreement will have the same meaning when used in these Addenda. If there is a conflict between the Addenda and the Agreement, these Addenda will control. Except as expressly amended by these Addenda, the Agreement remains in full force and effect.

Daily Limits, Effective October 29, 2014

In the section of the Agreement titled "ATM transactions and point-of-sale purchases" under sub-section "Daily limits" the following two bullets are added:

- *Card* transactions are subject to a daily limit for ATM withdrawals and cash-like withdrawals (such as cash advances and money transfers), and a daily limit for purchases.
- Your actual daily limits for debit card transactions may vary depending on our experience with you. In certain circumstances, we may authorize debit card transactions that will cause you to exceed your daily purchase limit. Your daily limits are subject to periodic review and are subject to change based on account history, activity, and other factors.

Important changes to deposits, available balances, and debit card overdraft services, Effective September 17, 2014

In the section of the Agreement titled "Deposits to your account" the sub-section "When deposits are credited to your account" is deleted and replaced with the following:

When deposits are credited to your account

All over-the-counter deposits or ATM deposits to your account which are received before the Bank's established cutoff time on any *business day* will be credited (and will be considered deposited) to your account as of the close of business that day, and will be reflected in that day's ledger balance for your account. All other deposits will be processed in accordance with the written agreements governing such deposits or, if there is no written agreement, banking practice. All check deposits received after the Bank's established cutoff time on a *business day* or at any time on a day which is not a *business day* will be credited (and will be considered deposited) to your account at the end of the next *business day*. Certain "pending" deposits, specifically a cash deposit or a transfer from another account, that are made **after** the displayed cutoff time (where the deposit was made) will be included in our nightly processing to pay your transactions if they are made **before** we start our nightly process. These "pending" deposits will be credited (posted) to your account at our next nightly batch process and will reflect that date in your transaction record.

In the section of the Agreement titled "Withdrawals from your account" under sub-section "Determining your account's available balance" the first two paragraphs are modified as follows:

Your *available balance* is the most current record we have about the funds that are available for withdrawal from your account. In determining whether you have sufficient funds to cover a transaction in our nightly processing, we will consider all transactions that have posted to your account, any holds that may be in place on deposits you have made, and pending transactions (such as pending debit card purchases or ATM withdrawals) that the Bank has authorized but that have not yet posted to your account.

Please note it is still possible for you to overdraw your account even though the *available balance* appears to show there are sufficient funds to cover a transaction that you want to make. The *available balance* does not reflect all your outstanding checks, automatic bill payments (such as ACH and recurring debit card transactions) that you have authorized, or other transactions that have not been paid from your account. For example, when you write a check, the payee may not present the check to us for payment on the same day, so the outstanding check will not be reflected in your *available balance* since it has not yet been received by the Bank.

The Bank will include check and ACH transactions that are received by the Bank during the day as "pending" transactions that reduce your intra-day available balance. If you do not have sufficient funds in your account when these transactions are processed for payment from your account, these transactions may be paid into overdraft or returned unpaid.

In the section of the Agreement titled "Overdrafts; security interest; the Bank's right to setoff" under sub-section "Overdrafts and Non-Sufficient Funds/NSF" the first bullet under "Important details" is modified as follows:

- There is **no fee** if your account is overdrawn **during the day** and you make a sufficient deposit or transfer before the posted "cutoff" time on the same *business day*. Deposits are subject to our funds availability policy. Certain "pending" deposits, specifically a cash deposit or a transfer from another account, that are made after the displayed cutoff time (where the deposit was made) will be included if they are made before we start our nightly process.

The Bank's right to require notice, Effective September 1, 2014

In the section of the Agreement titled "Withdrawals from your account" sub-section "The Bank's right to require notice" is deleted and replaced with the following:

The Bank's right to require notice

If your account is a savings account, then in accordance with Regulation D, the Bank reserves the right to require seven days written notice before you withdraw money from your account.

Order of posting changes, Effective August 11, 2014

In the section of the Agreement titled “Withdrawals from your account” under sub-section “Order of posting; categories of items” the last bullet is modified as follows:

- Checks and automatic payments (also known as ACH) will be sorted by date and time received by the Bank. If the date and time are the same, these transactions will be sorted by lowest to highest dollar amount. The time recorded as received by the Bank may reflect a time zone of an operations center that is in a different time zone than your account.

In the section of the Agreement titled “Withdrawals from your account” the sub-section “Relation between posting order and overdrafts/returned items” is deleted and replaced with the following:

Relation between posting order and overdrafts/returned items

On any given *business day*, if we receive more than one *item* for payment and if we determine there are sufficient funds to pay one or more but not all of the *items*, then the number of *items* paid and the *overdraft* and returned *item* fees assessed could be affected by the order that we choose to post those *items*.

Important Changes, Effective May 1, 2014

In the section of the Agreement titled “Interest-earning accounts” the sub-section “Savings account transaction limits” is deleted and replaced with the following:

Regulation D savings account transaction limit and other limited activity

Regulation D and the Bank limit certain types of withdrawals and transfers from savings or money market accounts to a combined total of six (6) per monthly statement period (exceptions to the statement period may apply).

Limited by Regulation D:

- Transfers by phone using our automated banking service or speaking with a banker on the phone
- Transfer or payments through online, mobile, and text banking (including bill pay)
- Transfers to a checking account for *overdraft* protection coverage
- Pre-authorized transfers and withdrawals (including recurring and one time)
- Payments to third parties such as checks, drafts, or similar transactions (counted when they are posted to your account and not when they are written)
- Debit or ATM card purchases that post to the savings account

Limited by the Bank:

- Transfers and payments to Wells Fargo credit cards, lines of credit, and loans
- Wires whether made in person, on the telephone, or online

Not limited:

Except wire transfers as described above, there is no limit on withdrawals or transfers made in person at an ATM or Wells Fargo banking location or on any types of deposits.

An excess activity fee (see the *Consumer Account Fee and Information Schedule*) is assessed for transactions exceeding the limit stated above. If the limit is exceeded on more than an occasional basis, the Bank may be required to convert the savings account to a checking account, which would discontinue any overdraft protection it might be providing to another account, or close the account.

If the withdrawal and transfer limit is reached, we may decline withdrawals and transfers for the remainder of the monthly statement period to help you avoid a fee and account conversion or closure.

In the section of the Agreement titled “Other electronic fund transfer services” under sub-section “Electronic payments” the section “Limitations” is deleted and replaced with the following:

Limitations

There are no limitations on the amount or frequency of debits that you may make from your checking account. If, however, you make payments from your savings account, any limitation on withdrawals applicable to savings accounts will apply. See the section entitled “Regulation D savings account transaction limit and other limited activity” in the “Interest-earning accounts” section within the *Consumer Account Agreement*.

In the section of the Agreement titled “Other electronic fund transfer services” under sub-section “Preauthorized transfers” the section “Limitations” is deleted and replaced with the following:

Limitations

The Bank provides you with separate notice of any limit on the amount you may transfer at any single time or on any given day, or of any limit on the number of transfers you can make from your checking account. The limit on the number of transfers you can make from your savings account is described in “Regulation D savings account transaction limit and other limited activity” in the “Interest-earning accounts” section within the *Consumer Account Agreement*.

In the section of the Agreement titled “Wells Fargo Phone BankSM” the sub-section “Limitations” is deleted and replaced with the following:

Limitations

The limitations on the number of transfers you can make from your savings accounts are described in the section of the *Consumer Account Agreement* entitled “Regulation D savings account transaction limit and other limited activity” in the “Interest-earning accounts” section.

Using your *card* through a mobile device, Effective April 7, 2014

In the section of the Agreement titled “ATM transactions and point-of-sale purchases” under sub-section “Point-of-sale purchases” the following is added:

Using your *card* through a mobile device

If you make *card* transactions through a mobile device, the terms of the Agreement apply with the same effect and coverage, including (i) any limitations the Bank places on the frequency or dollar amount of your *card* transactions and (ii) your rights and responsibilities for unauthorized transactions.

As used in this Agreement, “mobile device” means a smartphone, tablet, or any other hand held or wearable communication device that allows you to electronically store or electronically present your *card* or *card* number (“electronic card information”) and use that electronic card information to make *card* transactions. The words “we,” “us,” “our,” and “Bank” refer to Wells Fargo Bank, N.A.

- **Securing your mobile device.** If you use your *card* through a mobile device, you should secure the mobile device the same as you would your cash, checks, credit cards, and other valuable information. The Bank encourages you to password protect or lock your mobile device to help prevent an unauthorized person from using it. Please notify us promptly if your mobile device containing electronic card information is lost or stolen. You may contact the Wells Fargo Phone Bank at 1-800-TO-WELLS (1-800-869-3557).
- **Mobile carrier fees.** Please note that your mobile carrier may charge you message and data rates, or other fees, when you use your *card* through a mobile device.
- **Data sharing and transmission.** *Card* transactions made through a mobile device may involve the electronic transmission of your *card* information across wireless and computer networks. Third parties, such as merchants, card association networks, mobile carriers, mobile wallet operators, mobile device manufacturers, and software application providers may use and receive electronic card information in connection with your *card* transaction. Third parties may also receive information about your mobile device when you use it to make a *card* transaction. When you use your *card* through a mobile device, information about your mobile device may be transmitted to us.
- **Termination of mobile use.** The Bank may, at any time, partially or fully restrict your ability to make *card* transactions through a mobile device. If you want to remove electronic card information from your mobile device, please contact the Wells Fargo Phone Bank at 1-800-TO-WELLS (1-800-869-3557).
- **Debit Card Overdraft Service.** A *card* transaction made through a mobile device is a one-time debit card transaction. To the extent that you are using your consumer debit card through a mobile device and have added Debit Card *Overdraft* Service to your account (if eligible for this service), this election also applies to transactions made through your mobile device.
