

**EMT-B PRACTICAL EXAMINATION
WITNESSED CARDIAC ARREST MANAGEMENT/AED**

Date: _____ **Course:** _____ **Location:** _____

Candidate # _____ **Name:** _____

Candidate # _____ **Name:** _____

<i>Coordinator Use Only</i>		
	Pass	Fail
# _____	<input type="checkbox"/>	<input type="checkbox"/>
# _____	<input type="checkbox"/>	<input type="checkbox"/>
Signature: _____		
Scenario #: _____		
TL #: _____		
Start time: _____.		
Finish time: _____.		

	Points Awarded (one point per line)
ASSESSMENT & TREATMENT	
Takes or verbalizes body substance isolation precautions/scene safety <i>(S.A.)</i>	
Verbalizes general impression of patient	
Determines responsiveness/level of consciousness	
Opens airway using appropriate method based on scenario <i>(S.A. if airway not opened or if delayed)</i>	
Assesses breathing	
Verbalizes and/or inserts an airway adjunct	
Gives 2 breaths (ensures noticeable chest rise)	
Assesses pulse <i>(S.A. if pulse not assessed prior to beginning CPR)</i>	
Readies AED <i>(S.A. if inappropriate or dangerous technique; S.A. for delayed use of AED with witnessed arrest)</i>	
Clears patient for rhythm analysis	
Initiates one shock if indicated <i>(NOTE: Interruptions in CPR should be minimized and CPR should continue while AED is prepared to shock)</i> <i>(S.A. if inappropriate or dangerous technique)</i>	
EVALUATOR CALL FOR SWITCH HERE	
Initiates 5 cycles of CPR beginning with chest compressions (ensures adequate depth w/full chest recoil) <i>(S.A. if improper CPR technique including compression depth, rate and/or ratio)</i>	
Clears patient for rhythm analysis	
Initiates one shock if indicated <i>(S.A. if inappropriate or dangerous technique)</i> <i>(NOTE: Interruptions in CPR should be minimized)</i>	
Resumes 5 cycles of CPR beginning with chest compressions	
Clears patient for rhythm analysis	
Initiates one shock if indicated <i>(S.A. if inappropriate or dangerous technique)</i> <i>(NOTE: Interruptions in CPR should be minimized)</i>	
TRANSPORTATION	
Verbalizes transportation of patient and attempt rendezvous with ALS	
<i>Total possible points: 18; 13 are required to pass</i> TOTAL:	

Significant Actions (S.A.): *(NOTE: The rationale for checking any significant action must be documented on this form)*

___ Did not take or verbalize body substance isolation precautions

___ Did not open airway or delayed the opening of the airway

___ Did not assess the pulse prior to beginning CPR

___ Inappropriate or dangerous technique with AED
