**Legal Citation:** M.L. 2009, Chp.143, Sec. 2, Subd. 4a

**Appropriation Language:**

\$590,000 is from the trust fund to the commissioner of natural resources to acquire in-holdings for state parks. Land acquired with this appropriation must be sufficiently improved to meet at least minimum management standards as determined by the commissioner of natural resources. A list of proposed acquisitions must be provided as part of the required work program.

**II. PROJECT SUMMARY AND RESULTS:** Trust Fund funding will allow for the:

- Acquisition of approximately 87 acres in the Cuyuna Country State Recreation Area. This proposed acquisition is completely surrounded by park-managed land and includes a key access point into the recreation area. This parcel also has over one mile of water frontage on three lakes within the recreation area
- Acquisition of a 17-acre parcel in Whitewater State Park. DNR proposes to acquire a parcel that straddles the Whitewater River and lies adjacent to the

park visitor center. Our current trail system lies close to the boundary and could be extended for additional river resource interpretation. The parcel also will provide a natural buffer between our visitor center and private development.

All acquisitions are from willing sellers, within the statutory boundaries of state parks. Other critical parcels may be pursued as determined by the Commissioner.
