Students admitted to Rose State College who are pursuing Associate in Arts or Associate in Science degrees must meet all high school curricular requirements within the first twenty-four credit hours attempted; if curricular requirements are not removed within the first twenty-four credit hours, their enrollment will be limited to deficiency removal courses only. (Zero-level courses are not counted in the twenty-four hours.) Transfer students with deficiencies must meet all their curricular requirements within the first twenty-four (24) credit hours (total coursework attempted at any institution) or their enrollment will be limited to curricular deficiency removal courses only. Probation transfer students must meet all deficiencies by the first (12) twelve credit hours.

Shown below are the ways that a student may remove a curricular deficiency and the restrictions that apply to that method.

## TRANSFERRING INTO AN ASSOCIATE IN ARTS OR ASSOCIATE IN SCIENCE PROGRAM

Students with curricular deficiencies may not transfer from an Associate in Applied Science degree program into an Associate in Arts, Associate in Science, or a Baccalaureate degree program until all of the high school deficiencies have been removed.

## PERFORMANCE PROFICIENCY IN ENGLISH, MATHEMATICS, SCIENCE, AND READING

ACT subscores of 19 in the four subject areas of English, mathematics, science, and reading are used as a "first-cut" in determining student readiness for college. If a student scores below 19 in the tested discipline area, (s)he will be required to remediate in that area, or, consistent with the institution's approved assessment policy, undergo additional testing to determine his/her level of readiness for college-level work. Following examination, students found under-prepared for college-level work will be required to successfully complete the appropriate remediation. Students who lack three (3) performance proficiencies must enroll in STSR 1102, Educational Planning.

## COMPUTER PROFICIENCY

Students majoring in transfer degree programs will be required to demonstrate computer proficiency before graduation. Demonstration of proficiency will include the following skills:

- Defining and properly using common computer terminology
- Installing, saving, and organizing information stored on a computer

## FEE REFUND/CREDIT POLICIES

STUDENTS ARE NOT OFFICIALLY WITHDRAWN UNLESS A WITHDRAWAL FORM IS PROCESSED THROUGH THE BUSINESS OFFICE

Students who enroll in classes and decide not to attend must withdraw from those classes immediately to release space for other students who are registering. The amount of refund due or credit applied to the student is determined by the following policies. These policies are applicable to tuition and other fees charged for College classes.

1. **Eligibility:** To be eligible for a refund or credit, a student must officially withdraw from classes during a refund period by submitting the appropriate form ("Drop/Add" or "Complete Withdrawal"). Neither refunds nor credits are given to students who stop attending class and do not process the appropriate forms.
2. **Regents for Higher Education Refund Policy:** The refund policy with respect to tuition and other fees collected from students at institutions shall be as follows:  
Changes in schedules during the defined add/drop period will result in full charges for courses added and full credit for courses dropped. No refunds will be made after the add/drop period for that session except as stipulated for enrollment of Title IV recipients. Deadlines for dropping and adding courses are printed in the semester schedule books in the "Calendar" section. Drops and adds are processed on the same form.

**DEBTS TO COLLEGE:** All financial obligations to the College must be paid in full before a refund is made. Refunds issued to students are reduced by any amount the student owed to the College.

## FEDERAL TITLE IV RETURN OF FUNDS POLICY

1. Federal law now specifies how a school must determine the amount of federal financial aid\* that a student earns if s/he withdraws, drops out, is dismissed, or takes a leave of absence prior to completing more than 60% of a payment period.
2. The amount of federal financial aid assistance that the student earns is determined on a pro-rata basis. Once the student has completed more than 60% of the payment period, all financial aid assistance is considered to be earned.
  - **Percent earned** = Number of calendar days completed up to the withdrawal date\*\* divided by total calendar days in the payment period—excluding any scheduled breaks that are at least 5 days long.
  - **Percent unearned** = 100% minus percent earned
3. When a student receives federal financial aid in excess of earned aid,
  - **The school returns the lesser of:**
    - Institutional charges (tuition and fees)\*\*\* multiplied by the unearned percentage, or
    - Title IV federal financial aid disbursed multiplied by the unearned percentage
  - **The student returns:**
    - Any remaining unearned aid from the funds that s/he received as financial aid disbursements
    - Any loan funds are repaid in accordance with the terms of the promissory note. That is, scheduled payments to the holder of the loan over a period of time.
    - Any grant amount the student has to return is a grant overpayment, and arrangements must be made with the school or Department of Education to return the funds.
  - **Funds must be returned in the following order:**
    - Unsubsidized Direct Stafford loans (other than PLUS loans).
    - Subsidized Direct Stafford loans.
    - Federal Perkins loans.
    - Direct PLUS loans.
    - Federal Pell Grants for which a return of funds is required.
    - Academic Competitiveness Grants for which a return of funds is required.
    - National SMART Grants for which a return of funds is required.
    - Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of funds is required.
    - Federal TEACH Grants for which a Return is required.
    - Iraq and Afghanistan Service Grant for which a return is required.

4. **The student is billed for funds the college is required to repay.** Federal law requires that the calculation assume that federal aid was used first to pay for education costs. Consequently, a student may owe a payment to the College for educational costs—even if the student received a tuition waiver or other scholarship or assistance. Accounts not paid within 90 days may be turned over to a collection agency.

\*Federal financial aid includes the federal Pell Grant, federal Supplemental Opportunity Grant (SEOG), federal Stafford Loans (subsidized and unsubsidized), federal PLUS loans for parents and Talent Incentive Program (TIP) grants.

\*\*Withdrawal date is defined as the actual date the student begins the institution's withdrawal process, the student's last date of academically related activity, or the midpoint of the payment period for a student who leaves without notifying the institution.

\*\*\*Book charges may not be included in institutional costs; however, a student remains financially responsible for any charges made by him/her in the College Bookstore.

## **OFFICE OF STUDENT FINANCIAL AID ROOM 200 - STUDENT SERVICES BUILDING (405) 733-7424**

### **FEDERAL SCHOOL CODE/APPLICATION PROCEDURES**

The Free Application for Federal Student Aid is the student's first step in the process of requesting aid. The application is available from this office. The application asks you to identify the school(s) which you wish to receive copies of your report.

The Rose State College school code is **009185**. Be sure you identify Rose State College as a choice; otherwise, we will not receive your financial aid information from the United States Department of Education. **If the Rose State College school code has not been reported, your application will have to be corrected to add Rose State College as a school on your Student Aid Report. This will delay the processing of your application.** Once you have applied, the federal processor will send you a copy of the Student Aid Report. A copy of your Student Aid Report will also be transmitted electronically to Rose State College—if you have listed us as a school choice.

### **VERIFICATION PROCEDURES**

Some students are randomly selected by the U.S. Department of Education or the College for a process called verification. If a student is selected for verification, we are required to verify the information you have reported. Such items as income tax records, copies of college enrollments, and documentation of untaxed income would normally be required.

Not all students are selected for verification. If a student, however, is selected for this process, this step must be

completed before assistance is awarded. If any of the information requires correction, the student will be informed.

### **THE AWARD PROCESS**

Once your records have been received from the U.S. Department of Education, your file will be reviewed by financial aid staff for completeness. Normally, your file will then be referred for an award. When you receive your award letter, it will summarize the amounts and types of assistance for which you are eligible. An Award Information Sheet will also be included with disbursement information.

Usually, the application and awarding process takes from 6 to 8 weeks. This time is necessary for both the federal processor and the College to review your application and certify your funds.

### **OFFICE HOURS**

The Office of Student Financial Aid is open to assist you during the following hours:

Monday/Tuesday	8:00 A.M. - 8:00 P.M.
Wednesday/Thursday	8:00 A.M. - 6:00 P.M.
Friday	8:00 A.M. - 5:00 P.M.

### **MORE INFORMATION**

For information about student financial aid and more details about program requirements, visit [www.rose.edu/financial-aid](http://www.rose.edu/financial-aid) or contact the office.

# Fast Track Program

The Fast Track program provides courses in four-week blocks for day and evening students. The opportunity to begin a class every four weeks allows students flexibility in managing work, home, and educational commitments. The four-week format also permits a student to focus on one or two subjects at a time rather than four or five subjects with conflicting deadlines. Credit earned in the Fast Track program format may be applied to any degree plan.

Students may enroll in one or both courses per block, as well as in other courses offered in the Fall semester. These

classes will fulfill General Education requirements for most degree programs. For students interested in the Associate in Arts Liberal Studies degree, completion of the degree could be accomplished in eleven months or forty actual weeks of class attendance. Of course, other options of earning credit—telecourses, interim session, other short courses, CLEP, or extracurricular testing—could be used to reduce the time required for degree completion. The Fast Track program is intended for the goal-minded, focused students eager to earn a degree quickly. Please visit with an academic advisor for more information.

## FALL 2012 FAST TRACK CLASSES

The last day of 100% refund for a fast track is the 5th day of class for each specific fast track block.

## Honors Classes

Honors classes do not require more work than traditional classes. They differ from other courses in that they are seminars rather than they provide emphasis on the following:

- Critical thinking
- A combination of theoretical bases and application of theory
- Cross-curriculum studies
- Student participation in the learning and teaching process

Class sizes are limited to a maximum of twenty students, and professors are encouraged to think of the class as a community of thinkers and problem solvers. These classes are open to all students.

# Concurrent Enrollment

Rose State College provides opportunities for high school students who would like to start their college courses while they are still in high school. High school juniors and seniors who meet policy requirements can participate in concurrent enrollment.

Through the medium of Interactive Television, Rose State College extends its distance education program to high school students. This technology allows offsite students to interact and experience the college classroom environment. Interactive Television changes the landscape of the traditional classroom environment allowing more opportunities to obtain a higher education. Interactive TV is notably appealing for athletes who are unable to leave their high school campus to attend college classes.

The following documents are required for application to Rose State College's Concurrent Enrollment Program for High School students:

1. Application for Concurrent Enrollment
2. Application for Admission
3. Official High School Transcript
4. ACT or SAT scores
5. Documentation of Student Vaccination Status
6. Concurrent Enrollment Student Contract

Please contact Jan Bugby/Terrance Grayson in the Office of Distance Education at (405) 733-7951 for enrollment assistance.

## Veterans Information

### OFFICE OF VETERANS AFFAIRS STUDENT SERVICES BUILDING, ROOM 100T

Eligible students who want to receive VA education benefits must come to the Rose State Veterans Affairs Office (Student Services Building – Room 100T) to request certification of their enrollment to the VA. Depending on the chapter, VA benefits are paid directly to the student by the VA. Not all students who receive VA benefits are military or ex-military. If you are the child, stepchild or spouse of a veteran who is either 100% totally and permanently disabled or deceased as a result of their time in the military, you too may qualify for VA benefits.

After certification, it is the student's responsibility to report to the RSC VA Office any changes such as: course drops or adds, dependents, marital status, phone numbers, mailing address and e-mail address. This may be done in person, by phone or by e-mail.

Students who qualify for veterans benefits may be eligible for extra financial benefits to pay personal tutors. Additional information is available in the Rose State VA office.

## Off-campus and Partnership Programs

### University of Oklahoma ROTC

The General Military Course (GMC) portion of the Air Force ROTC three- and four-year programs are available to Rose State students through a cooperative agreement between Rose State and the University of Oklahoma, Norman. This "cross town" agreement allows students to commute to the University of Oklahoma one or two afternoons per week to attend Air Force ROTC classes while continuing their studies at Rose State. Students who attend Air Force ROTC at the University of Oklahoma under the agreement pay only for the semester hours that they take. Some fees are waived.

Students who enter the Air Force ROTC program during the first half of the four-year program enter the General Military Course (GMC) of study on a noncompetitive basis. If they elect to go on, students compete for entry into the Professional Officer Course (POC), the second half of the four-year program, by first being selected to attend Field Training in the summer prior to the junior year. Selection to Field Training is based on a recommendation by the instructor of aerospace studies, GPA, Air Force Officer Qualifying Test score and a physical fitness test. Any questions concerning Air Force ROTC or aerospace studies course descriptions should be addressed to:
