

# OSU/OVMA Summer Seminar June 6 & 7, 2008

## Small Animal & Food Animal Sessions

OSU Campus  
Center for Veterinary Health Sciences  
McElroy Hall  
North McFarland & Farm Road  
Stillwater, OK

## Small Animal Sessions

### Friday, June 6, 2008 - morning lectures - Small Animal Dermatology - Craig Griffin

**Otitis - the basics and what is needed for success** - Otitis externa with emphasis on the basics of the anatomy and physiology as they relate to problem ear cases. How to determine the most effective approach and multiple treatment tips will be discussed.

**Approach to dogs with Pruritis** - Emphasis on how to reach a diagnosis of allergy. The role of infections, cytology and trial therapies will be presented.

### Friday, June 6, 2008 - afternoon lectures

**Management of allergic dermatitis** - Discussion on the approach to pruritic dogs emphasizing the role of diet trials along with long term treatment for atopic dermatitis - **Craig Griffin**

**Ocular emergency cases** - Acute glaucoma, blunt trauma, perforating trauma & acute blindness - aspects of history and signalment in the diagnosis and approach to treatment - **Margie Gilmour**

**Feline ophthalmology cases** - Work through case presentations specific to cats to include history, clinical findings, diagnostic tests and treatment - **Margie Gilmour**

## WET LAB - Friday afternoon - Small Animal Video-Otoscopy

**3:00-5:00 pm - Jennifer Peters (maximum 12 participants)** - Techniques for otoscopy, recognition of normal and abnormal structures of canine external ear canal, use of video otoscope; utilize video of otoscopic exams illustrating various disease conditions, normal anatomy; hands-on use of otoscope learning how to manipulate videoscope and get diagnostic images of external ear canal on anesthetized canine patient.

\*\*\*\*\*

### Saturday, June 7, 2008 - morning lectures

**Small animal radiographic interpretation abdomen (GIT)** - Simple tricks of the trade to get more from your radiographic examination of patients with GI disease - **Robert Pechman**

**Using pulmonary patterns as an aide in differentiating acute from chronic lung disease** - **Robert Bahr**

**Principles and physics of digital radiology** - Basics of digital radiology - what does my practice need and how do I find it? - **Jason Arble**

### Saturday, June 7, 2008 - afternoon lectures

**Updates in canine parvovirus** - Latest information on parvo virus strains and its relations to vaccination, clinical disease and treatment - **Jennifer Peters**

**Urinary tract pitfalls and pointers** - Case presentations to enhance efficiency, personal satisfaction with case management, and service for clients and patients - **Mary Bowles**

**Type 1 canine intervertebral disc disease and laser disk ablation** - Diagnosis, treatment and prognosis - **Zach Ricker**

## WET LAB - Saturday afternoon - Small Animal Radiology

**1:15-5:15 pm (maximum 30 participants)** - Participants will be divided into three groups and each group will rotate through each of the following stations: **Interactive film reading case sessions-abdomen (GIT)** - Work through actual cases of abdominal and GI diseases - **Bob Pechman**; **Interactive film reading case session thorax (lung)** - expand and exemplify on the material presented in lecture; format will be interactive problem-based cases, ask questions & offer solutions - **Robert Bahr**; **Hands on digital radiographic techniques** - this group is further divided into small groups personalized instruction - how to get what you want to see - **Jason Arble**

## Food Animal Sessions

### Friday, June 6, 2008 - morning lectures - Small Ruminant Sessions

**Small ruminant (sheep, goats, llamas and alpacas)** - Techniques to control parasites including the Famacha techniques for small ruminants - **Tom Thedford**

**South American camelid** - topics concerning health problems and general management of both llamas and alpacas - **Tom Thedford**

**Common health conditions seen in goats** - Discussion of the common diseases and conditions seen in goats. Some of these diseases have no vaccines or the vaccines have severe limitations. Veterinarians have to be aware of the limitations and formulate a plan to control these conditions - **Lionel Dawson**

### Friday, June 7, 2008 - afternoon lectures

**Interactive discussion of current topics in beef cattle medicine** - In small group settings, practitioners will work through cases involving current topics in beef cattle medicine. Following each case discussion, a short presentation will be given covering the topic to highlight key points of each case. Participants are welcome to bring any problem cases they would like to share in the interactive session - **John Gilliam, Cathy Lamm, Suzanne Genova**

## Registration---OVMA/OSU Summer Seminar

Name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

**Maximum: 100 attendees - Lectures**

**12 attendees - Small Animal video-otoscopy wet lab (Friday)**

**30 attendees - Small Animal radiology wet lab (Saturday)**

	<u># Attendees</u>	<u>Amount</u>
<b>Two day (15 hours VCE) Seminar Lectures</b>	_____	240.00
<b>Single day (7.5 hours VCE) Seminar Lecture only</b>	_____	200.00
<input type="checkbox"/> Friday <input type="checkbox"/> Saturday		
<b>Wet Labs (must have attended morning lecture)</b>		
Friday lab - SA Video-otoscopy (two hour lab)	_____	40.00
Saturday - SA Radiology (four hour lab)	_____	60.00
Late Fee - postmarked after May 21	_____	50.00
<b>Total</b>	<b>\$_____</b>	

I will be attending:    ☐ Food Animal    ☐ Small Animal    ☐ both

I will be staying for complimentary lunch on: Friday    ☐ yes    ☐ no  
Saturday    ☐ yes    ☐ no

Registration: on-line at [www.okvma.org](http://www.okvma.org) or FAX (405) 744-6265 or mail (see below)

Checks (payable to OSU) or credit card    VISA    Master Card (circle one)

Card No. \_\_\_\_\_ Expiration Date \_\_\_\_\_  
(please print)

Name on Card (please print) \_\_\_\_\_

Signature \_\_\_\_\_

## Speaker Profiles

Jason Arble, DVM, MS - Diplomate, American College of Veterinary Radiology, Assistant Professor, Radiology, Department of Veterinary Clinical Sciences, Oklahoma State University (OSU).

Bob Bahr, DVM - Diplomate, American College of Veterinary Radiology, Associate Professor, Radiology, Department of Veterinary Clinical Sciences, OSU.

Mary Bowles, DVM - Diplomate, American College of Veterinary Internal Medicine, Assistant Professor, Small Animal Internal Medicine, Department of Veterinary Clinical Sciences, OSU.

Margie Gilmour, DVM - Diplomate, American College of Veterinary Ophthalmologists, Associate Professor, Department of Veterinary Clinical Sciences, OSU.

Lionel Dawson, BVSc, MS - Diplomate, American College of Theriogenology, Associate Professor, Food Animal, Department of Veterinary Clinical Sciences, OSU.

Suzanne Genova, DVM - Intern, Food Animal, Department of Veterinary Clinical Sciences, OSU.

John Gilliam, DVM - Diplomate, American College of Veterinary Internal Medicine and American Bovine Veterinary Practitioners, Lecturer, Food Animal Medicine & Surgery, Department of Veterinary Clinical Sciences, OSU.

Craig Griffin, DVM - Diplomate, American College of Veterinary Dermatology; Private practice practitioner in southern California; founder of animal dermatology clinics dealing with dermatology, allergy and otology exclusively.

Cathy Lamm, DVM - Clinical Instructor, Oklahoma Animal Disease Diagnostic Laboratory, OSU.

Bob Pechman, DVM - Diplomate, American College of Veterinary Radiology, Visiting Professor, Radiology, Department of Veterinary Clinical Sciences, OSU.

Jennifer Peters, DVM - Diplomate, American College of Veterinary Practitioners in canine and feline medicine; Clinical Assistant Professor, Small Animal Community Practice, Department of Veterinary Clinical Sciences, OSU.

Zach Ricker, DVM - Surgery Resident, Department of Veterinary Clinical Sciences, OSU.

Tom Thedford, DVM - Emeritus faculty, small ruminant medicine & surgery; instructor for a course on goats, sheep and llamas at OSU College of Veterinary Medicine.
