## VIA HAND DELIVERY \& ELECTRONIC MAIL

Luly E. Massaro, Commission Clerk
Rhode Island Public Utilities Commission
89 Jefferson Boulevard
Warwick, RI 02888

## RE: Docket 4065 - National Grid Request for Change of Electric Distribution Rates Response to Data Requests

Dear Ms. Massaro:

Enclosed please find ten (10) copies of National Grid's ${ }^{1}$ responses to data requests issued by the Commission and the Division in the above-referenced proceeding. Attached is a listing of the data requests issued to date and designating the responses included in this filing in bold.

Thank you for your attention to this transmittal. If you have any questions, please feel free to contact me at (401) 784-7667.

Very truly yours,

Thomas R. Teehan

## VIA HAND DELIVERY \& ELECTRONIC MAIL

Luly E. Massaro, Commission Clerk
Rhode Island Public Utilities Commission
89 Jefferson Boulevard
Warwick, RI 02888

## RE: Docket 4065 - National Grid Request for Change of Electric Distribution Rates Motion for Protective Treatment

Dear Ms. Massaro:
Enclosed please find an original and nine (9) copies of National Grid's ${ }^{1}$ Motion for Protective Treatment concerning the Company's response to the Commission's second set of data requests being filed under separate cover in the above-captioned proceeding. Specifically, the Company is requesting confidential treatment of Attachments COMM 2-27-1 and COMM 2-27-2, as permitted by Commission Rule 1.2(g) and R.I.G.L. § 38-2-2(4)(i)(B).

Thank you for your attention to this transmittal. If you have any questions, please feel free to contact me at (401) 784-7667.

Very truly yours,

Thomas R. Teehan

Docket No. 4065

## MOTION OF NATIONAL GRID

 FOR PROTECTIVE TREATMENT OF CONFIDENTIAL INFORMATIONNow comes The Narragansett Electric Company d/b/a National Grid ("National Grid" or the "Company") and hereby requests that the Rhode Island Public Utilities Commission (the "Commission) grant protection from public disclosure of certain confidential, competitively sensitive and proprietary information submitted in this proceeding, as permitted by Commission Rule 1.2(g) and by R.I.G.L. § 38-2-2(4)(i)(B).

## I. BACKGROUND

On September 30, 2009, the Company filed responses to data requests issued by the Commission and the Rhode Island Division of Public Utilities and Carriers in the above-referenced proceeding concerning the Company's application for a change in base rates. In those data requests, the Commission requested confidential information on hourly rates charged to National Grid for legal matters it has conducted as a response to Data Request COMM-2-27 (Supp.). For the reasons stated below, the Company requests that the hourly rates for legal counsel be protected from public disclosure.

## II. LEGAL STANDARD

The Commission's Rule $1.2(\mathrm{~g})$ provides that access to public records shall be granted in accordance with the Access to Public Records Act ("APRA"), R.I.G.L. §38-2-1, et seq. Under APRA, all documents and materials submitted in connection with the transaction of official business by an agency is deemed to be a "public record," unless the information contained in such documents and materials falls within one of the exceptions specifically identified in R.I.G.L. §38-2-2(4). Therefore, to the extent that information provided to the Commission falls within one of the designated exceptions to the public records law, the Commission has the authority under the terms of APRA to deem such information to be confidential and to protect that information from public disclosure.

In that regard, R.I.G.L. §38-2-2(4)(i)(B) provides that the following records shall not be deemed public:

Trade secrets and commercial or financial information obtained from a person, firm, or corporation which is of a privileged or confidential nature.

The Rhode Island Supreme Court has held that the determination as to whether this exemption applies requires the application of a two-pronged test set forth in Providence Journal Company v. Convention Center Authority, 774 A.2d 40 (R.I.2001). The first prong of the test assesses whether the information was provided voluntarily to the governmental agency. Providence Journal, 774 A.2d at 47. If the answer to the first question is affirmative, then the question becomes whether the information is "of a kind that would customarily not be released to the public by the person from whom it was obtained." Id.

In addition, the Court has held that the agencies making determinations as to the disclosure of information under APRA may apply the balancing test established by the Court in Providence Journal v. Kane, 577 A.2d 661 (R.I.1990). Under this balancing test, the Commission may protect information from public disclosure if the benefit of such protection outweighs the public interest inherent in disclosure of information pending before regulatory agencies.

## III. BASIS FOR CONFIDENTIALITY

National Grid seeks protection from public disclosure for the confidential and proprietary pricing information set forth in the Company's response to Data Request COMM-2-27 (Supp.). Information relating to the competitive rates charged to National Grid for outside services is not provided to the public because of the damage that would be caused to the negotiating positions of both the Company and its vendors. The Company is requesting that the confidential price data be protected from public disclosure because of the critical importance of maintaining bargaining leverage and protecting access to outside services who may be sensitive about the disclosure of their billing rates to the public realm.

Should this information be made available to the public, the Company's consultants would be placed in a competitive disadvantage vis-à-vis their respective competitors because the competitors would have information by which to base any future bids for providing services to the Company or other clients of the legal service provider. Moreover, disclosure of such information may place the Company's legal consultants at a competitive disadvantage with respect to their existing and potential clients with respect to negotiating fees for services. This result would disadvantage the Company to the
extent that the Company's consultants determine in the future not to bid on the Company's requests for services because of the potential competitive disadvantages that may arise should they do so.

Consistent with the standard for confidentiality established under Rhode Island law, the confidential price terms are information "of a kind that would customarily not be released to the public by the person from whom it was obtained." The Company is under no obligation in any other forum to disclose the information and, as is customary in relation to competitive rates for outside service providers, the Company would not ordinarily release the information in a public forum because of the detrimental impact that such a release would have on the interests of the Company (and its customers) in protecting the Company's ability to negotiate with vendors on a going forward basis. Accordingly, in this case, the need to ensure that the confidential and proprietary customer data are protected outweighs the general public interest inherent in disclosure of information pending before regulatory agencies.

## V. CONCLUSION

The confidential price terms contained in the Company's response to Data Request COMM 2-27 (Supp.) should be protected from the public record, because release of this information would be detrimental to the public interest. Accordingly, the Company requests that the Commission protect the confidential information submitted in response to Data Request COMM 2-27 (Supp.).

WHEREFORE, the Company respectfully requests that the Commission grant its Motion for Protective Treatment as stated herein.

Respectfully submitted,

## NATIONAL GRID

By its attorneys,

Thomas R. Teehan, Esq.

Dated: September 30, 2009

## Commission Data Request 2-27 (Supplemental)

## Request:

Please specify the type of legal work performed by each of the law firms identified in Commission 1-93, the number of hours billed, the hourly rate and what services and/or products were paid for.

Response:
Please see Attachments COMM 2-27-1 and COMM 2-27-2 for the requested information in the years 2006 and 2007, respectively.

The hourly rate information is confidential. Therefore, the Company is providing redacted attachments for the public record. A Motion for Protective Treatment will be filed separately with the Commission in relation to the attachments.

## Commission Data Request 4-1

## Request:

Please explain in detail the various pension programs offered to employees including but not limited to type of program, years of service required, employee contribution and matching contribution, if any.

## Response:

Attached are valuation reports on the Company's non-qualified (Attachment COMM 4-1-1) and qualified (Attachment COMM 4-1-2) pension plans. The detailed description of the plans is on pages $41-44$ of the qualified plan report and pages $6-10$ of the nonqualified plan report. None of the pension plans provide for either employee or matching contributions.

## Plan Provisions

## Executive Supplemental Retirement Plan (ESRP)

Effective Date

Eligibility

Benefit Commencement

Normal Retirement Benefit Amount

August 1, 1978.
Executive officers, other participants in the Incentive Plan and other employees selected by the Compensation Committee of the Board of Directors of National Grid USA Companies.

Benefits shall commence on the date in which the participant or spouse first receives benefits under Final Average Pay Plan I.

As of any date, $1 / 12$ th times:

- $1.5 \%$ of Final Average Earnings (FAE) times service up to 10 years; plus
- $1.3 \%$ of FAE times service between 10 and 20 years; plus
- $1.25 \%$ of FAE times service between 20 and 30 years; plus
- $0.6 \%$ of FAE times service in excess of 30 years; plus
- $0.70 \%$ of FAE in excess of covered compensation times service up to 35 years; minus
- Benefit payable from Final Average Pay Plan I; minus
- Any benefit payable on a straight life annuity basis which was accrued, under a plan maintained by an employer other than the National Grid USA Companies, for service granted pursuant to the additional service provision.
- If participant prior to January 1, 1996, unreduced benefits equal to the normal retirement benefit.
- If participation begins after December 31, 1995, reduced benefits using the FAP I early reduction factors.

# Executive Supplemental Retirement Plan (continued) 

## Preretirement Spouse's <br> Benefit

Eligibility

Benefit

The spouse of a participant vested under Final Average Pay Plan I who has not had a termination of employment is entitled to a preretirement spouse benefit if the participant dies before benefit payments commence.

If death occurs on or after earliest retirement age, an annual benefit equal to $100 \%$ ( $50 \%$ if terminated) of the benefit the participant would have received had he retired on the day preceding his death having elected a $100 \%$ ( $50 \%$ if terminated) joint and survivor annuity.

If death occurs prior to earliest retirement age, an annual benefit equal to $50 \%$ of the benefit the participant would have received had he terminated his employment on the day preceding his death, survived to earliest retirement age, and elected a $50 \%$ joint and survivor annuity. The benefit is payable at the date the employee would have attained age 55 .

A participant's benefit shall be $100 \%$ vested after 5 years of pension service. A participant will forfeit his benefit if before the earlier of age 65 or 5 years following termination of employment he, without prior consent of the Compensation Committee, enters into or in any manner takes part in any business which is in competition with National Grid USA Companies or any of its subsidiaries.

## Plan Provisions (continued)

## Executive Supplemental Retirement Plan (continued)

## Definitions

| Pension Service | Pension service as provided by Final Average Pay Pension <br> Plan I. |
| :--- | :--- |
| Pensionable Pay | Total compensation received or deferred including incentive <br> compensation and incentive share awards. |
| Final Average Earnings | The average of the highest 5 consecutive calendar years of <br> pensionable pay during the 10 -year period ending on the earlier <br> of the participant's termination date or retirement date. |
| Covered Compensation | The 35-year average of social security wage bases ending in the <br> year the participant reaches social security retirement age. |

## Retirement Supplement Plan (RSP)

Effective Date
Eligibility

Plan Type

November 1, 1979. Latest amendment effective April 1, 1991.
Any of those officers of the National Grid USA Companies who participated in the plan as of February 1, 1991 or are designated as participants in the plan by the Compensation Committee of the Board of Directors of the National Grid USA Companies.

The Retirement Supplement Plan provides automatic indexing of benefits from the qualified pension plan and the Executive Supplemental Retirement Plan. For retired members, each year's adjustment equals Moody's Corporate Bond rate for the prior year less 200 basis points, but never more than the percentage increase in the Consumer Price Index for the prior year and never less than zero.

## Plan Provisions (continued)

## Other Nonqualified Benefit Agreements

Effective Date
Eligibility
Plan Type

Vesting

Effective date specified in participant's individual contract.
Employees selected by National Grid USA Companies.
Individual service agreements providing at age 62 a benefit which when combined with the benefit from the National Grid USA Companies' Final Average Pay Pension Plan I equals the benefit the participant would have received from the qualified plan had the participant earned 30 (or such other number of years contained in the agreement) years of service. Such benefit will be reduced by any vested benefit received from a previous employer.

Such benefit will be vested after 5 years of continuing service with National Grid USA Companies.

## $=\quad$ Plan Provisions

Effective Date
Eligibility
December 30, 1943.
Upon date of hire.

## Normal Retirement

Eligibility
Later of (1) or (2):
(1) Age 65.
(2) 5 years of service.

Benefit

For nonunion employees hired prior to July 15, 2002:

- $1.50 \%$ of Final Average Compensation (FAC) times service up to 10 years; plus
- $1.30 \%$ of FAC times service between 10 and 20 years; plus
- $1.25 \%$ of FAC times service between 20 and 30 years; plus
- $0.60 \%$ of FAC times service in excess of 30 years; plus
- $0.53 \%$ of FAC in excess of Covered Compensation times service up to 35 years.

Certain minimum accrued benefits may apply.
For nonunion employees hired after July 14, 2002:
An account is established for each participant with pay credits and interest credits allocated to the accounts each month.

Pay Credit (as a percent of compensation)

| Years of Service | $\underline{\text { Percentage }}$ |
| :--- | :--- |
| 0 but less than 5 $4.0 \%$ <br> 5 but less than 10 $5.0 \%$ <br> 10 but less than 15 $6.0 \%$ <br> 15 but less than 20 $7.0 \%$ <br> 20 or more $8.0 \%$$\$=$20 |  |

## For union employees:

- $1.90 \%$ of FAC times service up to 30 years; plus $1.00 \%$ of FAC times service in excess of 30 years; minus
$1.333 \%$ of Social Security Amount times service (maximum 46.66\%).

## For ProvEnergy Union employees:

Equal to (i) for Local 12431-01 and the greater of (ii) and (iii) for Local 12431-02
i) $1.6 \%$ of average monthly compensation per year of service
ii) $1.5 \%$ of average monthly compensation per year of service
iii) $2.0 \%$ of average monthly compensation per year of service less $1^{2} / 3 \%$ of expected monthly social security benefit per year of service not in excess of 30 years, plus $1.5 \%$ of average monthly compensation per year of service in excess of 30 years

## For Valley Resources Union employees:

$1.75 \%$ of average monthly compensation per year of service up to 20 years plus $1.5 \%$ of average monthly compensation per year of service in excess of 20 years (but not more than 20 years) minus $1 \%$ of expected monthly social security benefit per year of service up to 40 years

## Early Retirement Eligibility

Benefit
Age 55 and 5 years of service (or age 61, if union).

| Age at <br> Retirement | Tables <br> I | Table <br> II |
| :--- | ---: | ---: |
| 55 |  |  |
| 56 | 0.65 | 0.42 |
| 57 | 0.70 | 0.46 |
| 58 | 0.75 | 0.50 |
| 59 | 0.80 | 0.54 |
| 60 | 0.85 | 0.60 |
| 61 | 0.90 | 0.64 |
| 62 | 0.96 | 0.96 |
| 63 | 1.00 | 1.00 |
| 64 | 1.00 | 1.00 |
| 65 | 1.00 | 1.00 |
|  | 1.00 |  |

Table I: Participants with age and service of at least 85 at termination;
Table II: Participants with age plus service less than 85 at termination.

## Vested Retirement

Eligibility
Benefit
$100 \%$ vested after 5 years of service.
Accrued normal retirement benefit payable at normal retirement date or, as early as age 55 . The early retirement reduction factors apply.

## Preretirement Spouse's Benefit

Eligibility

Benefit

Spouses of active participants who die after becoming vested and spouses of vested terminated participants who die before benefits commence.

If death occurs on or after earliest retirement age, an annual benefit equal to $100 \%$ ( $50 \%$ if terminated) of the benefit the participant would have received had he retired on the day preceding his death having elected a $100 \%$ ( $50 \%$ if terminated) joint and survivor annuity.

If death occurs prior to earliest retirement age, an annual benefit equal to $50 \%$ of the benefit the participant would have received had he terminated his employment on the day preceding his death, survived to earliest retirement age, and elected a $50 \%$ joint and survivor annuity. The benefit is payable at the date the employee would have attained age 55 .

Life annuity, if single. $50 \%$ joint and survivor annuity, if married.

## - Plan Provisions (continued)

## Definitions

| Covered Compensation | 35-year average of the taxable wage bases under the <br> Social Security Act ending in the year that the participant <br> attains social security retirement age. |
| :--- | :--- |
| Social Security Amount | The estimated age 65 Primary Old Age Insurance Amount <br> under the Act in effect on the date of termination, <br> assuming no future earnings after termination. |
| Compensation | Total earnings include regular pay, Goals cash bonus, <br> incentive compensation, annual bonuses, and salary <br> reduction contributions to the Thrift Plans, the Dependent <br> Care Assistance Plan, and any Section 125 plan. Overtime <br> pay and premium pay are excluded for union employees. <br> For purposes of determining the Pay Credit within the <br> cash balance account, base pay is used. |
| Final Average Compensation | The annual average of the 60 highest consecutive months <br> out of the 120 months preceding termination. |

## Commission Data Request 4-2

## Request:

Please list all of the reconciling/adjustment mechanisms and the calculation of such proposed by National Grid in this matter.

Response:
The five reconciling/adjustment mechanisms proposed by National Grid and the formulas for the calculation of their respective adjustment factors are set forth in the table below:

| Adjustment Mechanism | Schedule | RIPUC <br> Pending <br> Tariff No. | Book 7 <br> Page No. |
| :---: | :---: | :---: | :---: |
| Standard Offer <br> Adjustment Provision | NG-RLO-6 | 2014 | 3 |
| Distribution Adjustment <br> Provision | $\mathrm{n} / \mathrm{a}$ | 2015 | 5 |
| Pension/OPEB <br> Adjustment Provision | NG-RLO-5 | 2016 | 7 |
| Revenue Decoupling <br> Mechanism Provision | NG-RLO-7 | 2017 | 8 |
| Inspection and <br> Maintenance Cost <br> Adjustment Provision | $\mathrm{n} / \mathrm{a}$ | 2018 | 11 |

The specific computations are as follows:

1. Standard Offer Adjustment Provision
a. Standard Offer Service Supply Reconciliation:

Please see response to Commission Data Request 4-3 for Standard Offer Service Supply Reconciliation formula.

## Commission Data Request 4-2 (cont.)

b. Standard Offer Service Administrative Cost Reconciliation - The following calculation is performed for each of two customer groups- small and large.

SOSAC $=(\mathrm{WCI}+$ RES + GIS $+\mathrm{ED}+\mathrm{ADM}+\mathrm{UNC}+($ SOAFR x i) $) \div \mathrm{kWh}$
Where:
SOSAC $=$ the Standard Offer Service administrative cost adjustment factor for the rate year for each customer group;
$\mathrm{WCI}=\quad$ the cost of working capital related to the provision of standard offer for the current year at the pre-tax WACC approved in this proceeding;

RES $=\quad$ the estimated administrative costs to be incurred during the current year for complying with the Renewable Energy Standards;

GIS $=\quad$ the estimated costs to be incurred during the current year associated with NEPOOL's Generation Information System attributable to standard offer service load;
$\mathrm{ED}=\quad$ the estimated costs to be incurred during the current year for creating the environmental disclosure label;
$\mathrm{ADM}=\quad$ the estimated costs associated with procurement of standard offer service during the current year including requests for bids, contract negotiations, and execution and contract administration and the estimated costs of notifying standard offer service customers of the rates for standard offer and the associated costs of updating the Company's billing system;
$\mathrm{UNC}=$ the uncollectible accounts expense associated with the amounts billed by the Company for standard offer service for the current year, computed on the same basis as in this proceeding, calculated separately for the small and large customer groups;

Prepared by or under the supervision of: Howard S. Gorman

## Commission Data Request 4-2 (cont.)

SOAFR $=$ for each customer group, the over or under collection of prior period Standard Offer Service Administrative Costs, computed by comparing the actual amounts incurred by the Company in the prior year for each item listed above and the amount billed to and collected from customers pursuant to the Standard Offer Service Administrative Costs provision in the prior year;
$i=\quad$ interest at the rate of customer deposits; and
$\mathrm{kWh}=\quad$ annual forecasted kWh deliveries during the recovery period for the customer group.

## 2. Distribution Adjustment Provision:

DAF $=(\mathrm{A}+\mathrm{B}+\mathrm{PPRA}) \div \mathrm{kWh}$
Where:
DAF $=\quad$ Distribution Adjustment Factor for the current year;
$\mathrm{A}=\quad$ Increase/decrease in annual costs, revenue or revenue requirement in excess of \$500,000 attributable to:

1) legislative or regulatory changes;
2) externally-imposed accounting rules; or
3) delivery bad debt determined as the actual delivery net write-offs during the prior calendar year exceeding \$5,020,477 (or such amount as approved in Docket No. 4065);
$B=\quad$ Regulatory cost reallocations resulting from the reassignment of costs and/or revenues now allocated to generation (e.g., stranded costs), transmission, or distribution functions to or away from the distribution function by the Commission, the Federal Energy Regulatory Commission, the New England Power Pool, the Independent System Operator - New England, or any other official agency having authority over such matters;

PPRA $=\quad$ over or under collection of any amounts to be recovered or refunded during the prior calendar; and
$\mathrm{kWh}=\quad$ Forecasted Retail Delivery kWh for the rate year.

Prepared by or under the supervision of: Howard S. Gorman

## Commission Data Request 4-2 (cont.)

## 3. Pension/OPEB Adjustment Provision:

POAF $=(($ POC - THR $)+$ PPRA $) \div \mathrm{kWh}$
Where:
POCAF $=\quad$ Pension/OPEB Cost Adjustment Factor for the rate year;
POC $=$ the Company's expense recorded on the Company's books of account pursuant to SFAS 87 and SFAS 106 associated with Pension and other postretirement employee benefits ("OPEB") for the twelve months ended September 30th.

THR $=\quad$ annual threshold of $\$ 14,243,640$ (base amount as established in Docket No. 4065);

PPRA $=\quad$ over or under collection of any amounts to be recovered during the prior year ended September $30^{\text {th }}$
$\mathrm{kWh}=\quad$ forecasted kWh during the rate year

## 4. Revenue Decoupling Mechanism Provision

The RDR Plan Adjustment Factor will be calculated as follows:
$\operatorname{RDRPAF}_{Y}=$ RDRPRR $_{Y}+$ RDRPRA $_{Y}$
Where
RDRPAF $_{Y}=$ the RDR Plan Adjustment Factor;
$\operatorname{RDRPRR}_{\mathrm{Y}}=$ the RDR Plan Revenue Reconciliation Adjustment (defined below);

RDRPRA $_{Y}=$ the RDR Plan Revenue Adjustment (defined below); and
$Y=\quad$ current year
The RDR Plan Revenue Reconciliation Adjustment will be calculated as follows:
RDRPRRA $_{Y}=\left(\operatorname{REV}-\operatorname{ATR}_{\mathrm{Y}}\right) \div \mathrm{kWh}$
Prepared by or under the supervision of: Howard S. Gorman

## Commission Data Request 4-2 (cont.)

Where:
RDRPRRA $_{Y}=$ the RDR Plan Revenue Reconciliation Adjustment;
$\mathrm{REV}=\quad$ Actual billed revenue for each rate class during the reconciliation period;
$\operatorname{ATR}_{y}=\quad$ Annual Target Revenue for each rate class, calculated as:

$$
\mathrm{ATR}_{\mathrm{Y}}=\mathrm{RCRR}+\mathrm{RDRPRR}_{Y-1}+\mathrm{NIA}_{Y}+\mathrm{CumCapEx}_{Y}
$$

Where:
$\operatorname{RCRR}=\quad$ the rate class revenue requirements approved by the Commission in Docket No. 4065;
$\operatorname{RDRPRR}_{\mathrm{Y}-1}=$ the RDR Plan Revenue Reconciliation from the prior year;
NIA $_{Y}=\quad$ the net inflation adjustment (defined below); and
CumCapEx $_{Y}=$ the cumulative net capital expenditure adjustment (defined below)
$\mathrm{kWh}=\quad$ forecasted total company kilowatt-hour deliveries for the year during which the RDRPRRA will be in effect

The RDR Plan Revenue Adjustment shall consist of four components as defined below. The RDR Plan Revenue Adjustment will be calculated separately for each rate class as follows:

RDRPRA $_{Y}=\left(\right.$ RCRR + NIA $_{Y}+$ CapEx $_{Y}+$ CumCapEx $\left._{Y}\right) \div \mathrm{kWh}$
Where:
RDRPRA $_{Y}=$ the RDR Plan Revenue Adjustment;
RCRR $=$ the rate class revenue requirements approved by the Department in Docket No. 4065;

NIA $_{Y}=\quad$ the net inflation adjustment (defined below);

Prepared by or under the supervision of: Howard S. Gorman

## Commission Data Request 4-2 (cont.)

$\mathrm{CapEx}_{\mathrm{Y}}=$ the net capital expenditure adjustment (defined below);
CumCapEx $_{Y}=$ the cumulative net capital expenditure adjustment (defined below); and
$\mathrm{kWh}=\quad$ forecasted kilowatt-hour deliveries by rate class for the year during which the RDRPRA will be in effect

The Net Inflation Adjustment is calculated as follows:
NIA $_{Y}=$ NOESI $_{Y-1} x\left(\left(\left(\mathrm{GDP}^{-P I_{Y}}-\right.\right.\right.$ GDP-Pi $\left._{Y-1}\right) /$ GDP-PI $\left.\left._{Y-1}\right)-\mathrm{PO}\right)$
Where:

NIA $_{Y}=\quad$ the net inflation adjustment;
NOESI $_{Y-1}=$ the net operating expense subject to inflation as calculated in the prior year's NIA;
$\mathrm{GDP}_{\mathrm{PI}}^{\mathrm{Y}} \mathrm{=}$ the four quarter average gross domestic product price index for the current year ending June; and

GDP- $\mathrm{PI}_{\mathrm{Y}-1}=$ the four quarter average gross domestic product price index for the prior year ending June
$\mathrm{PO}=\quad$ Productivity Offset which shall be equal to $0.5 \%$
The NetCapEx adjustment is calculated as follows:
NetCapEx $_{Y}=\left(\left\{\left[\left(\right.\right.\right.\right.$ NetCapEx $_{Y-1}+$ NetCapEx $\left.\left._{Y-2}\right) / 2 \times 75 \%\right]+$ CWIP1 - CWIP2 DepEx - BkDep - DIT \}/2) * WACC + BkDep

Where:
$\operatorname{Net~}^{\text {CapEx }}{ }_{Y}=$ the current year net capital expenditure adjustment;
Net CapEx $_{Y-1}=$ the prior year actual net capital expenditure; and
Net $\mathrm{CapEx}_{\mathrm{Y}-2}=$ actual net capital expenditure for the year that is two years prior to the current year

Prepared by or under the supervision of: Howard S. Gorman

## Commission Data Request 4-2 (cont.)

CWIP1 $=\quad$ the end of year construction work in progress balance
CWIP2 $=$ the beginning of year construction work in progress balance
DepEx $=\quad$ Depreciation Expense from Docket No. 4065
BkDep $=$ Net Depreciable Plant times composite depreciable rate from Docket No. 4065;

DIT $=\quad[$ Tax Depreciation less BkDep] times effective income tax rate
WACC $=\quad$ Weighted Average Cost of Capital from Docket No. 4065
The total NetCapEx adjustment is allocated among rate classes based on a rate base allocator as determined in its distribution rate case in Docket No. 4065.

The Cumulative Net Capital Expenditure Adjustment is calculated as follows:
CumNetCapEx ${ }_{Y}=\left(\mathrm{ARB}_{\mathrm{Y}} *\right.$ WACC $)+$ BkDep
Where:

| $\mathrm{ARB}_{\mathrm{Y}}=\quad$ | $\left.\begin{array}{l}\text { average Rate Base }=(\text { prior year Rate Base }+ \text { current year Rate } \\ \text { Base } / 2\end{array}\right)$ |
| :--- | :--- |
| Rate Base $=$ | CDA $-\mathrm{ABD}-$ DITRes + DITRev |

Where:
CDA $=\quad$ Plant Additions $-($ Rate Year 2010 Depreciation Expense from Docket No. 4065)
$\mathrm{ABD}=\quad$ Accumulated Book Depreciation, computed on Net Depreciable Additions

DITRes $=$ Deferred Income Tax Reserve, computed on Net Depreciable Additions

DITRev $=\quad$ Deferred Income Tax Reversal on 2008 Assets

Prepared by or under the supervision of: Howard S. Gorman

## Commission Data Request 4-2 (cont.)

WACC $=\quad$ Weighted Average Cost of Capital from Docket No. 4065
BkDep $=\quad$ Cumulative Net Depreciable Additions times composite rate from Docket No. 4065
5. Inspection \& Maintenance Cost Adjustment Provision
$\mathrm{I} \& \mathrm{MCF}=((\mathrm{I} \& \mathrm{MC}-\mathrm{THR})+\mathrm{PPRA}) \div \mathrm{kWh}$
Where:
$\mathrm{I} \& \mathrm{MCF}=$ Inspection and Maintenance Cost Adjustment Factor for the rate year;
$\mathrm{I} \& \mathrm{MC}=$ actual inspection and maintenance costs for the prior calendar year as approved by the Department for recovery in the current year;

THR $=\quad$ annual threshold of $\$ 4,146,635$ (base amount approved in Docket No. 4065);

PPRA $=$ over or under collection of any amounts to be recovered or refunded during the prior calendar; and
$\mathrm{KWH}=\quad$ forecasted kWh for the rate year.

## Commission Data Request 4-5

## Request:

Does National Grid employ any Consumer Advocates (as proposed in RI) in any of its US service territories? If so, identify where, how many, job duties and salary.

## Response:

National Grid employs thirteen (13) Consumer Advocates. Nine (9) Consumer Advocates are in various locations throughout upstate New York, 2 Consumer Advocates are located in Brooklyn and two (2) Consumer Advocates are located in Long Island.

The job duties of the Consumer Advocates in all the Company's territories are the same as those outlined in Commission Data Request 1-103:

- Respond to low-income and other customers who have demonstrated an inability to pay through agency referral, crisis management and early intervention
- Establish and maintain good working relationships with customers, human services employees and other external customers
- Serve as a liaison to address, respond and resolve escalated cases for all external customers
- Meet quarterly with community agencies to ensure our services and programs are communicated
- Assist in the development of new programs
- Assess customer circumstance for qualifications of existing Company programs
- Outreach and Education - Internal and External
- Consumer Contact including home visits when appropriate
- Research and develop sources of assistance funds for customers
- Represent the company at all appropriate community programs to educate and assist customers on available programs and services
- Serve as member of board or participate in community organizations
- Liaison with Contact Centers and Collections on a monthly basis
- Training
- Agencies-on site training for low income agencies, counties or associations
- Internal training- sensitivity and program training
- Periodic reviews of relevant Company practices to ensure compliance with policy and continued better interest of relevant customers
- Perform trouble shooting and/or root cause analysis of referrals

Prepared by or under the supervision of: Rudolph L. Wynter, Jr.

## Commission Data Request 4-5 (cont.)

The following are the salaries for the 13 Consumer Advocates:

|  |  |
| :--- | ---: |
| Consumer Advocate <br> Location |  |
| Upstate New York | $\$ 69,239$ |
| Upstate New York | $\$ 68,311$ |
| Upstate New York | $\$ 65,000$ |
| Upstate New York | $\$ 61,800$ |
| Upstate New York | $\$ 56,000$ |
| Upstate New York | $\$ 68,508$ |
| Upstate New York | $\$ 61,800$ |
| Upstate New York | $\$ 67,443$ |
| Upstate New York | $\$ 66,937$ |
| Downstate-Brooklyn | $\$ 48,100$ |
| Downstate-Brooklyn | $\$ 52,000$ |
| Long Island | $\$ 54,500$ |
| Long Island | $\$ 70,700$ |

Prepared by or under the supervision of: Rudolph L. Wynter, Jr.

## Commission Data Request 4-6

## Request:

With regard to the response to COMM 1-104, why is no portion of the cost associated with Consumer Advocate positions being allocated to gas operations?

## Response:

As noted in the responses to COMM 1-104 and DIV 10-29, because essentially all of Rhode Island's gas customers are also electric customers of the Company, the Company is proposing to allocate 100 percent of the costs associated with the Consumer Advocates to electric operations and to recover those costs through electric distribution rates for ease of administration. The Company would be agreeable to an allocation of these costs to electric and gas operations and to record actual Consumer Advocacy costs based on underlying cost causation to the electric and gas lines of business as incurred. If an allocation is preferable, the Company suggests using the number of electric and gas customers as an appropriate allocation in this proceeding.

## Commission Data Request 4-7

## Request:

With regard to the response to COMM 2-43, please provide a breakdown of the $\$ 70,101,543$ of Service Company allocated costs identified as "Other O\&M Expenses".

Response:
In reviewing the Attachment to the response to Commission Data Request 2-43, the Company discovered that it had incorrectly calculated by the known and measurable adjustment associated with the elimination of Other Operation and Maintenance Expenses billed to New England Power Company related to the Integrated Facilities Agreement. This resulted in a shift in approximately $\$ 1.6$ million in costs from those charged to the Company by the National Grid Service Companies to those charged by the Company and Other Affiliates. Please see Attachment COMM 4-7-1 for a revised Attachment COMM 2-43.

Please see Attachment COMM 4-7-2 for detail of the revised "Other O\&M Expenses" charged to the Company by the National Grid Service Companies by originating company and FERC account.

The Narragansett Electric Company

## The Narragansett Electric Company, d/b/a National Grid <br> Pro-Forma Income Statement

## Revenue Requirement For The Twelve Months Ended December 31, 2010

Line
$\qquad$
Description

Operating Expenses:
Purchased Power
Transmission O\&M - Wheeling Costs - NEP
Transmission O\&M - Integrated Facilities Agreement
Energy Efficiency O\&M
Other Operation \& Maintenance Expenses
Uncollectible Expense
Commodity Cost Tracker
Donations
Pension and OPEB cost Recovery (R.I.P.U.C. Dkt No. 3617)
Environmental Response Fund
Merger Related Cost to Achieve
Depreciation
Municipal Tax
Payroll Tax
Other Taxes
Remove Commodity Cost Tracker
Gross Receipts Tax (GRT)
Amortization of Investment Tax Credit
Amortization of Loss on Reacquired Debt
Interest on Customer Deposits
Estimated NGRID/KeySpan Transaction Synergies
Company Share of Net Synergies
Federal \& Deferred Income Tax

Total Operating Expenses

1/ Detail by Originating Companies not defined

The Narragansett Electric Company

## Commission Data Request 4-8

## Request:

With regard to the responses to COMM 2-51 \& DIV 8-25, on one worksheet, please provide for each of the last four years:
a) The fees paid to outside collection agents.
b) The amount of money collected from customers by outside collection agents.
c) The net amount remitted to the Company by the outside collection agents.

Response:
Please see the Attachment COMM 4-8 for the requested information along with the footnotes beneath the tables included therein.

## Commission Data Request 5-1

## Request:

With regard to the response to COMM 2-52, please explain what is meant by the term "collection tier"?

Response:
The "collection tier" is simply the level within the collection treatment path that accounts reach, referring to the primary, secondary, tertiary and trigger stages of collection. This was noted in the collection timeline laid out in the Company's response to DIV 8-6 and more easily illustrated by the chart in the supplemental attachment to DIV 8-23. Attachment DIV 8-23 is re-submitted here for ease of reference.

## Legacy National Grid

Collection Agency Timeline

Day

## Commission Data Request 5-2

## Request:

Over the past 3 years, has the company received any complaints relating to the conduct / activities of its outside collection agents? If so, how many, when did they occur, what actions did the company take as a result of the complaints, how were the complaints resolved?

Response:
The Company has no record of receiving complaints from Narragansett Electric customers during the past three years relative to the conduct or activities of its outside collection agencies.

## Commission Data Request 5-3

Request:
Has the company terminated its relationship with any outside collection agent as the result of customer complaints, violations of the fair debt collections practices act, etc.? If yes, please explain.

Response:
No, the Company has not terminated its relationship with any outside collection agent for those reasons.

## Commission Data Request 5-4

Request:
Please itemize the $\$ 1,926,502$ of outside collection activities presented in the response to COMM 2-55.

Response:
Please see Attachment COMM 5-4 for the requested information.

## Commission Data Request 5-7

Request:
Response to DIV 10-13, Attachment DIV 10-13-2, Page 12 of 30. Please explain what is meant by "Contradictory Staff Positions" in relation to Rhode Island's Regulatory Framework?

## Response:

The phrase is in reference to the roles and goals of the Division and the Commission, particularly in the areas of terminations of special needs customers, residential deposits, and deferred payment agreements.

These roles and goals, which at times appear to be in conflict, provide a necessary and meaningful balance of varying priorities and aid the Company in formulating its collection strategies. Furthermore, as noted in its direct testimony, the Company recognizes ". . . there is an inherent conflict between the ratemaking policies that require the Company to work to mitigate the level of uncollectible accounts and public policies imposing restrictions on the billing and collection process to protect the health and safety of customers. The Company is extremely sensitive to the fact that electric service is a public necessity and that public-interest considerations must be taken into account in relation to service initiation, shut-off, and restoration requirements. The health and safety of customers is of paramount importance to the Company, and the Company is committed to cooperating with the Commission in addressing these issues." See, Direct Testimony of Rudolph L. Wynter, Jr., page 5 of 23, lines 12-19.

## Commission Data Request 6-1

Request:
Please provide actual calculations for each of the reconciling mechanisms proposed.

## Response:

National Grid is proposing the following five reconciling mechanisms:

1. Standard Offer Adjustment Provision
2. Distribution Adjustment Provision
3. Pension/OPEB Adjustment Provision
4. Revenue Decoupling Mechanism Provision
5. Inspection and Maintenance Cost Adjustment Provision

Please refer to the response to Commission Data Request 4-2 for the detailed calculations underlying the reconciling mechanisms. In addition, please refer to the response to Division Data Request 6-19(f) for illustrative calculations of the Pension/OPEB Adjustment Provision, the Revenue Decoupling Mechanism Provision, and the Inspection and Maintenance Cost Adjustment Provision.

## Division Data Request 24-1

## Request:

## DIV 5-A Historical Charge Off Data

1. For 2007-2009 YTD data submitted, please provide the following additional information on non-residential accounts:
a. Was there an active security deposit on the account at the time of final bill?
i. If yes, what was the amount of the deposit held?
ii. Was the deposit applied to the final bill balance prior to write off?

## Response:

1(a)(i). Please see the updated spreadsheet presented as Attachment DIV-24-1 for 2008-2009 YTD in column 'V'. There were only 406 accounts that had a deposit applied to the balance prior to write off in 2008 and 2009. Prior to the Customer Service System (CSS) conversion, CIS did not have a field that identified the deposits together with a date field.

1(a)(ii). Yes, in CSS the deposit is always applied to the final bill balance prior to write-off.

## Division Data Request 24-2

## Request:

## DIV 5-A Historical Charge Off Data

2. For 2007-2009 YTD data, please provide the following data on both residential and non-residential accounts:
a. Was there an active payment plan on the account at the time the account became inactive?
b. If yes, what was the total remaining balance due of the plan for each account at the time the account became inactive?
i. For the accounts with payment plans, what was the level of the step plan for each account at the time the account became inactive (i.e., N01, N03, N04, P01, P1B ...)?

Response:
2(a). Please see Attachment DIV 24-1 in columns W and X.
2(b). Please see Attachment DIV 24-1 in column W.
2(b)(i). Please see Attachment DIV 24-1 in column X .
It was not possible to determine payment plan status prior to the Customer Service System conversion.

## Division Data Request 24-7

## Request:

## DIV 8-16 Deposits

1. For 2007-2009 YTD, please provide a monthly summary of security deposits held on non-residential accounts, including:
a. The total number of accounts with security deposits
b. The total dollar balance of security deposits held

Response:
Please refer to Attachment DIV 24-7 for a monthly summary of security deposits held on non-residential accounts.

Prepared by or under the supervision of: Rudolph L. Wynter, Jr.

(1) Cash deposits only
(2) Data is as of month-end
(3) The Company has specifically been tracking detailed deposit information beginning Mar 2009. These are the non-res accounts with an existing deposit balance @ mo-end.
(3a) Estimated Jan'08 thru Feb' 09 accounts using the avg \% of Mar'09 thru Jul'09 accounts vs. the System accounts.
(4) System generated accounts include those that received a complete refund or may have had the deposit applied against AR balances by mo-end.
(5) System generated non-res deposit balances @ mo-end
(6) For the months prior to January 2008 (before CSS conversion), the deposit data is not readily available.

Responses to Division Twenty-Sixth Set of Data Requests
Issued August 27, 2009

Division Data Request 26-1

## Request:

Please indicate why certain data provided in Div 8-20 is missing or does not match the monthly termination data contained the Electric Termination Report (Docket 1725). Div 8-20 in Excel format is attached for reference. The Excel spreadsheet illustrates the data variation between the two reports (i.e., see red font).

Response:
The response to DIV 8-20 was prepared using the information set forth in the Company's response to COMM 1-108. The data set forth in COMM 1-108 differs to some extent from the data provided in the Electric Termination Report (Docket 1725) because the answer to COMM 1-108 was derived from several internal reports rather than simply taking the information provided the Electric Termination Report (Docket 1725). This was necessary because the response to DIV 8-20 required dollar amounts as well as customer counts, while only customer counts are reported in the Electric Termination Report. As a result, the Company had to access different data sources to compile the information provided in DIV 8-20. Please see Attachment DIV 26-1 for additional information.

## Division Data Request 26-2

## Request:

With regard to Electric Termination Report (Docket 1725), please explain what "Special Agreements" are and how they differ from Payment Plans. Electric Termination Report (Docket 1725) in PDF format is attached for reference.

Response:
As of the August 2009 Electric Termination Report (Docket 1725), "Special Agreements" are now being referred to as "Flexible Payment Plans". Under either description, these are payment plans that extend beyond the minimum guidelines set forth by the Commission. For instance, agreements offered to customers on a P01 step plan with installments in excess of 12 would be classified as "Flexible" (or "Special" under the former terminology).

## Certificate of Service

I hereby certify that a copy of the cover letter and/or any materials accompanying this certificate were electronically submitted, hand delivered and mailed to the individuals listed below.

[^0]:    ${ }^{1}$ The Narragansett Electric Company d/b/a National Grid ("Company").

[^1]:    ${ }^{1}$ The Narragansett Electric Company d/b/a National Grid ("Company").

[^2]:    1) Table 1 is a copy of the response to COMM 2 -51. This is a query of the General Ledger filtered for charges to specific work orders and projects. This data is based on a revenue month-end and not a calendar month-end.
    (2) Table 2 is data from production reports of the various collection agencies. This includes some proceeds sent directly to National Grid from the customer for which a collection commission was generated. This data is based on a calendar month-end.
    (3) Table 3 is the net amount remitted to National Grid from the collection agencies. This comes from production reports of the various collection agencies and is based on a calendar month-end. This is net of all commissions, misc collection costs, and
    any proceeds directly sent to National Grid from the customer (see footnote 2 ).
    any proceeds directly sent to National Grid from the customer (see footnote 2).
    (4) Because of timing differences related to the month-end, direct journal entries charg
    to the first table from the data in Tables $2 \& 3$.
