SLC:

First World Problem: There are so many schools and so many classes to choose from! It's so confusing - how will I ever figure out what to take?

Did You Know: In the community of Makeni in Sierra Leone, schools were destroyed and closed during civil war. Now that the war is over, students don't fit into the facilities they have. However, construction started last year to help keep up with the rising enrollment of students, and now one is complete! Whereas in this school, many students of different grades were crammed into a single room, leaving no room for the teacher to move about and help students, now students can go to this school and have room to learn! 13 year old Sia Koroma says, "Education is important to me. I know with a good education it is possible to have anything I wish for in life."

What You Can Do: Appreciate all of your choices and take the time to learn which classes are best for you, for your future, and for your society - and then work hard to achieve your goals!

Attention all Grads!

Grad 2014 sweaters will be sold in the rotunda at lunch **TODAY, 2nd, and 3rd.** The 3rd will be the last day to order sweaters. There will be 4 choices available. So come by and pick up your comfy reminder of the grade 12 year!!
