DEGREE PROGRAMS

THE COLLEGE OFFERS EIGHT MASTER'S DEGREES, TWO GRADUATE CERTIFICATE PROGRAMS AND THE CERTIFICATE OF ADVANCED STUDY.

Master of Science in Education

The Master of Science in Education degree is for teachers who wish to improve their professional competence and mastery of subject matter. Completion of a degree program may lead to professional certification in a field and level, providing the student has at least three years of full-time teaching experience and has initial certification in a teachable major.

Master of Arts in Teaching

The Master of Arts in Teaching degree is designed specifically for non-certified students who have bachelor's degrees in an academic discipline and who wish to earn a teaching certificate at the secondary level.

Master of Science for Teachers

The Master of Science for Teachers degree is designed specifically for non-certified students who have bachelor's degrees in an academic discipline and who wish to earn a teaching certificate at the elementary level.

Master of Professional Studies

The Master of Professional Studies degree is offered in humanistic/multicultural education. This program is designed for individuals who are involved in education in its broadest sense who are seeking to help others develop their intellectual capacities, expand their self-knowledge, enhance interpersonal skills, and foster humane working, learning, or living situations. Students currently enrolled include individuals in the helping professions and teachers with certification in special subjects such as family-consumer science, health, music, physical education, and technology.

Master of Arts

The Master of Arts degree may serve as a complete program in a specific discipline or as a first stage of graduate study. If a student has initial certification at the secondary level in the same discipline as the MA, application for professional certification may be made by the student via the TEACH Online application system. The College does not recommend MA candidates for certification.

Master of Science

Communication Disorders

The Master of Science in Communication Disorders programs prepare students who have strong undergraduate backgrounds in Communication Disorders for a wide range of career opportunities and for doctoral study. The programs are accredited by the American Speech-Language-Hearing Association (ASHA) and are registered as Licensure Qualifying in New York State. The concentration in Speech and Language Disabilities also leads to NYS initial teaching certificate as a Teacher of Students with Speech and Language Disabilities (TSSLD).

Computer Science

The Master of Science degree in Computer Science is designed to provide students with a strong foundation for advanced professional work or doctoral study in the computer field. Courses are offered in computer software, hardware, theory, and mathematics. This graduate-level program requires 30 credit hours selected from three course categories, allowing for both breadth and depth of study. To accommodate part-time students, most graduate courses are offered in the late afternoon or evening and meet once a week. Teaching assistantships are available on a competitive basis. The program does not require a baccalaureate degree in computer science.

Electrical Engineering

The Master of Science in Electrical Engineering offers courses in electromagnetic fields and waves, communications, electronics, computer and control systems. The program has two options: thesis and non-thesis. The thesis option requires completion of 30 credits, 24 course credits and 6 thesis credits. The non-thesis option requires completion of 30 course credits and successful passing of a comprehensive examination.

Music Therapy

The Master of Science degree in Music Therapy comprises 48 credits. It provides students with a comprehensive education in Music Therapy at the advanced level. The program meets the guidelines for the approval of academic programs in music therapy as set forth by the National Association of Schools of Music, the American Music Therapy Association, and the *Commissioner's Regulations* – Sec. 52.34 Creative Arts Therapy.

Counseling

The Master of Science degree in Mental Health Counseling comprises 60 credits. It offers students the opportunity to pursue a specialized course of study. It serves both students seeking licensure as mental health counselors and those who intend to pursue doctoral studies. Degree requirements cover a core curriculum and specialized courses. Three required fieldwork courses provide unique, varied, and intense hands-on mental health counseling training experiences under supervision of licensed professionals.

The Master of Science degree in School Counseling comprises 60 credits and leads to certification as a school counselor. The curriculum covers school counseling practice and research, in addition to necessary coursework in human growth and development, social and cultural foundations, helping relationships, group work, career and lifestyle development, appraisal, research and program development, and professional orientation. Practicum and internship experiences provide unique, varied, and intense hands-on school counseling training experiences that meet state certification requirements. The degree can be completed full time in two years, including summer classes.

Master of Business Administration

The Master of Business Administration degree prepares career-oriented individuals for a broad range of management responsibilities by offering concentrated study in business administration or public accountancy. The MBA program will enable students to take managerial and professional leadership roles in regional, national, and international enterprises.

Master of Fine Arts

The Master of Fine Arts degree comprises 60 credits specializing in ceramics, metal, painting/drawing, printmaking and sculpture (photography and graphic design). Candidates holding a master's degree in art studio or fine arts may petition the department to transfer a maximum of 30 credits toward the 60-credit MFA program.

Graduate Certificate Programs

APPLICATION INSTRUCTIONS

1. Request **ONE set of Official transcripts** from **all** post-secondary institutions, including all transfer colleges and any college where college credit was earned during High School. If you are in the process of completing a degree, please send an official transcript that shows your current progress. You will need to submit an official final transcript once your degree has been conferred. When requesting official transcripts, have them sent to your own address. If the college or university's policy does not permit official transcripts being sent to a student address, then use the [Graduate School's mailing address](#). However, clearly note in your application packet which transcript is being sent directly to the Graduate School. **Transcript(s) must be in sealed envelope(s). Opened transcripts are unacceptable.**

INTERNATIONAL APPLICANTS: You must provide a translation or evaluation of your transcript. We accept translations/evaluations by member organizations of the National Association of Credential Evaluation Services (www.naces.org). When requesting an evaluation, select course-by-course with overall GPA calculation.

2. Collect **THREE letters of recommendation** from former professors, employers, and/or colleagues who are in a position to comment on your potential for graduate study in your chosen area. Letters from former professors who taught you in advanced courses would be ideal. Using the letter of recommendation form provided in this application packet or on our website, fill out the top portion and submit the form to your recommender. Ask each recommender to seal his/her letter in a self-addressed envelope that you provide, to sign it across the seal, and to return it directly to you. **Opened letters of recommendation are unacceptable.**

3. Compose a **Graduate Admissions Essay** that clearly addresses the following:
 - What are your professional goals?
 - How have your previous experiences contributed to your decision to enter the program?
 - How will graduate study assist you in achieving your future career and educational aspirations?

Your essay should be typed, double-spaced and between 400-500 words. Since your essay provides us with a sample of your writing, it should reflect exemplary writing style, organization, and mechanics. Certain programs have specific guidelines for the admission essay; therefore, refer to your intended program of study's description in the graduate catalog or the departmental website.

4. Assemble and submit to the Graduate School **ONE complete application packet** of items which include, but are not limited to:
