

**Palliative Care Best Practice Model Global Rating Form
Module 4: Integration**

Circle which video you are rating: Video 7 Video 8

Instructions: Print out a hard copy of this form and please review paying close attention to assessments you are asked to Rate and make. Then observe the videos: Mrs. Rowen Integrarion 1 and Mrs. Rowen Integrarion 2 below and rate each video based on the five point likert scale grounded in the descriptive statements. It may require viewing each video more than once to complete the rating and comments. Once you have completed rating the video and comments you need to submit your final scoring on-line at: URL with link. After submission you will receive an email with feedback comparing your rating of the video with that of the faculty.
