

**Help “Anchor” the Last Leg of CDM’s Pool Renovation!
Where Newport Beach Learns Vital Water Safety Skills, Trains, Competes, and Plays**

The first three phases of the updating and upgrading of Marian Bergeson Aquatics Center, valued at over \$1.3 million provided by the Newport Mesa Unified School District, the City of Newport Beach, and the community completed to date include:

- Replastered pool and refurbished deck and drainage systems
- Shade structures over bleachers
- New state-of-the-art scoreboard and wireless event management system
- New pool & deck lighting
- Renovated existing building, including team room, offices, work stations/meet management area, & equipment storage rooms
- Renovated snack bar
- Murals depicting CDM Aquatics “honor wall” & aquatics teams’ logos

Newport Beach’s athletes, students, children, and recreational users need a safe and secure place to change, shower and store their gear. Having a safe and secure facility is long overdue. Phase 4, consisting of a new 3000 square foot restroom/locker/shower building, will exceed \$1,000,000 to design and build. Funds have been committed by the Newport Mesa Unified School District, and a funding request is pending before the Newport Beach City Council. CCAFF’s goal is to raise the remaining funds from the community by ~~June 30~~ **August 31 2011**. **Your generous, tax-deductible contribution will help complete the project.**

Final phase donors have a limited opportunity to purchase a handcrafted glass fish tile in the “Sea King’s school of fish”, engraved with the name of their athletes, family, or business entity, and installed on the wall of the new facility. *Larger donations are also welcome!*

_____ BUSINESS ENTITY FISH tile(s) at \$1500 per business entity _____
