WELCOME MESSAGE

Dear Colleagues,

It is a challenging endeavor to keep our busy work force shared on leading clinical and management practices innovation in the field of pediatric and neonates critical care continuously that we gladly welcome you to the 7th Indonesian PICU NICU Update with the theme *"Nutrition Support in Pediatric & Neonatal Critical Care"*, which will be packed with some innovative workshops in pre-settings on 21-24 April 2015 both for Physicians, and Nurses as our teamwork of the critical care for better outcome. Also in post-setting, a special animal lab of Advanced Mechanical Ventilation

The upcoming conference 7th Indonesian PICU NICU Update, which is organized by Indonesian Pediatric Critical Care Foundation - in collaboration with Pediatric Critical Care Working Group-Indonesia Pediatric Society, and with the endorsement of Pediatric Critical Care Working Group – IPS DI Yogyakarta Branch itself will be held from 25-26 April 2015 at Yogyakarta. We offers a platform where updates can be shared with numerous experts at national and international levels through exchanging ideas and knowledge sharing whereas the welfare of children of all ages is held in high regard.

7th Indonesian PICU NICU Update is your opportunity to influence your specialty and promote the art and science of paediatric and neonatal intensive care, raising awareness amongst doctors, nurses and other allied healthcare professionals in the field.

We look forward to welcoming you at our Heritage Cultural City, *The Neverending Asia...*

REGISTRATION & ACCOMMODATION:

Office Hours : 021.3149318 – 3149319
Registration Hotline : 0811.882080
Fax : 021.3153392

EXHIBITION

The 7th Indonesian PICU NICU Update will host a scientific exhibition on 25 – 26 April 2015 including the latest technology, equipment for clinical management & research and literature.

PRE SYMPOSIUM WORKSHOPS

To emphasize the importance of this essential part of its 7th Indonesian PICU-NICU Update will organize intractable two full days, which consist of scientific lectures, case studies and/or hands-on special design courses, as its pre-symposium workshop programs. The program will be held on Tuesday – Wednesday, 21 – 22 April 2015 for Nurses and Thursday – Friday, 23 – 24 April 2015 for Physicians. See detail schedule.

OFFICIAL LANGUAGE

The official languages of the 7th Indonesian PICU NICU Update is in English & Indonesian. English will be used for all printed materials, presentation along with overseas speakers and discussions. Simultaneous translation will not be provided.

POST SYMPOSIUM WORKSHOP

The extended of Advanced Mechanical Ventilation in Animal Lab by Prof. Peter C. Rismenberger will be offered to the current registrants of Integrated Mechanical Ventilatory Support in Critically ill Neonates and Pediatric Workshop for limited seats.

DISCLAIMER

Every attempt will be made to present the program as printed. However, Organizers and its agent reserve the right to alter or cancel, without prior notice, any of the arrangements, timetables, plans or other items relating directly or indirectly to the Scientific Meeting, for any cause beyond its reasonable control. In the event of cancellation of the Scientific Meeting, all pre-paid fees will be refunded in full. The Organizers and its agent are not liable for any loss or inconvenience caused as a result of such alteration and cancellation.

PRE-SYMPOSIUM WORKSHOPS

Pre Symposium Workshops, conducted by experts of Pediatric and Neonates will update participants on the current state-of-art on developing participants' skill and technique in management of Pediatric & Neonates critically ill patients.

The Pre-Symposium Workshop participant is compulsory to be a registrant of 7th Indonesian PICU NICU Update. No registration will be processed without both link-registrations therefore.

Certificate with PPNI Accreditation (for Nurse) and IDI & CPD IDAI Accreditations (for Doctors) will be issued for all registrants.

Each workshop participants is limited to 60 upon payment made. In the case that payment made after full seats, the registration made will be returned its payer bank account

SEPSIS MANAGEMENT IN PEDIATRICS WORKSHOP
(For Physicians Only)

LEARNING OBJECTIVES

To enhance the knowledge and practical guidelines in the management of sepsis in children, included the understanding sepsis pathophysiology in children, the International standard for pediatrics sepsis & Surviving Sepsis Campaign as well as the Early Goals Directed Therapy for pediatric sepsis implementations. After completing the workshop, registrants are expected to understand the difference between hemodynamics in children and adult, and the capability to manage hemodynamic in pediatric sepsis, to choose appropriate early antibiotics in pediatric sepsis, diagnosis and manage the coagulation in children with sepsis and giving the protective ventilation strategy in children with sepsis. Registrants are also expected to be able to give the nutritional and metabolic support in children with sepsis, sedation and analgesia in children with sepsis, assess the severity and mortality prediction in septic children and use the computerize system to do the register upon pediatric sepsis management guidelines

OPTIMIZING NUTRITIONAL SUPPORT IN PEDIATRIC ICU (For Physicians Only)

LEARNING OBJECTIVES

Nutrition Therapy is the most important role in pediatric critically ill management.

Within the Pediatric ICU complexity, the complete understanding in both conceptual and applications to manage the nutrition therapy in better outcome. After completing this workshop, participants are expected to understand and be able to optimize the nutrition therapy in every aspects and stages for pediatric critically ill patients.

This year program, the Optimizing Nutritional Support in Pediatric ICU Workshop presents Vincent G. M. Geukers, MD, PhD from Department of Pediatric Intensive Care Academic Medical Center, Amsterdam Netherlands as the International Guest Lecturer.

ADVANCES MODES OF MECHANICAL VENTILATION IN CHILDREN (For Physicians Only)

COMPULSORY REQUIREMENT

The participant of the Advances Modes of Mechanical Ventilation in Children must have been passed the Basic Mechanical Ventilation in Pediatric Workshop during 2011-2014. The names upon date base 2011-2014 will be verified accordingly.

Participants, whose are interested in joining this Advances Modes of Mechanical Ventilation in Children Workshop may participate the Basic Mechanical Ventilation in Pediatric Workshop previously in PICNIC ACADEMI Regular Course program running. Please visit <http://picunicu.org/basic-mechanical-ventilation-in-pediatric-workshop/> for the running schedule.

LEARNING OBJECTIVE

This workshop is specially prepared for the practitioners of pediatric intensive care unit, who has the sufficient knowledge about the basic mechanical ventilation. This workshop will extend in advances understanding and learning about ventilator settings and modes to optimize the difficult cases in critically ill children.

INTEGRATED MECHANICAL VENTILATORY SUPPORT FOR NEONATE AND PEDIATRIC CRITICALLY ILL

(For Registrants of Advances Modes of Mechanical Ventilation in Children & Comprehensive Approaches Management Care in Neonatal Critical Care

LEARNING OBJECTIVE

The special design of Advances Mechanical Ventilation Workshop integrated for Neonatal and Pediatric Critical Care, conducted by Peter C. Rimensberger, Clinical Director, MD, Professor, -whose is the President of European Society of Pediatric and Neonatal Critical Care. Professor Rimensberger is also the Director of the Pediatric and Neonatal ICU at the University Hospital of Geneva, in Switzerland. His research interests include clinical physiology with particular emphasis on mechanical ventilation in acute lung disease in infants and children. He has published over 70 scientific papers, which largely focus on different aspects of mechanical ventilation, including lung recruitment and protective strategies, treatment strategies for pulmonary hypertension, and other aspects of pediatric and neonatal intensive care.

ABOUT YOGYAKARTA AND ROYAL AMBARRUKMO

Yogyakarta is a place where tradition and modern dynamics are going on together continuously. In this city, there is a palace which has hundreds of loyal servants to run the tradition, but there is also University of Gadjah Mada that is one of the leading universities in South East Asia. Some of its residents live in a strong agrarian culture. In the other side, there are also students who live with pop life-style. Traditional markets and handicraft centers are numerous in the city where some of them located by the malls which are no less hectic.

The list of things you can experience in Jogja may seem overwhelming, ranging from natural splendors, art and tradition and heritages to culinary adventure. This is why Jogja is the second most visited destination in Indonesia, next to Bali.

A unique combination of ancient temples, history, traditions, culture and natural forces make Yogyakarta a very worthwhile place to visit and enjoy the best charm of this place.

Jogjakarta's geographical condition also supports the variety of existing tourism objects. Friendly climate ensures that you can plan your trips more intensely. The beautiful landscape along the way makes your travel to each destination worthwhile. Try to make sure that you visit Borobudur, Prambanan Temple and silver handicraft in Kotagede. You can also try Selarong Cave, Pandansimo Beach, Gajah Mountain, or Vredenburg Fort. To understand the history of the sultanate, try visiting the Kraton of Yogyakarta and Tamansari.

A visit to Jogja is never complete without experiencing Malioboro street. Rows of shops and outlets sell many kinds of souvenirs you can bring back home. If you want to test your negotiation skills you can try The Haggling Game with the street vendors. All's fair in love and shopping.

Yogyakarta (or Jogjakarta) has been known as The Neverending Asia. Many say that a single visit to Jogja is never enough...

The venue hotel, Royal Ambarrukmo is centrally located, within walking distance of the historic and cultural districts with the city & largest shopping mall right on the doorstep, and is less than 10 minutes .from Adisucipto International Airport
With its ballroom capacity of 1000 participants. *It fits our target to have approximately 1000 participants for the upcoming 7th Indonesian PICU NICU Update*
