**Disclaimer:** The recommendations contained in this form are made after consultation with the client and an investigation of the client’s circumstances and needs. Their purpose is to outline steps required to be taken for the benefit of the client, having regard for his or her disabilities. They do not purport to reflect other than limited knowledge on the part of the Occupational Therapist of structural considerations and building codes. Any queries, concerns or alterations considered necessary for compliance with current building regulations must be discussed with the Occupational Therapist before quoting for the cost of the work and before the work proceeds. The Occupational Therapist accepts no responsibility for supervision of the work or for the quality of the workmanship.
