Some of the items on the below checklist may not be applicable to the type of work being proposed. Drawings which do not contain the necessary items will be considered incomplete, and will require revisions before the application can be considered complete. If you have any questions regarding what would be applicable to your proposal, please review the [EPC Applicant's Handbook](#) and/or contact EPC staff prior to submittal.

### I. Plan View/Top View

- \_\_\_ Show the existing shoreline, name of water body, approximate wetland boundary, and property lines with dimensions noted and/or scale provided. Show the location and dimensions of existing structures that may be applicable to the project (i.e., existing dock, boat ramp, rip-rap, seawall, etc.). Include a north arrow.
- \_\_\_ Show approximate mean high water lines (High Guidance Level) and low water lines (Low Guidance Level) if activity is in tidal areas. Show approximate ordinary high and low water levels if the proposed activity is in non-tidal areas (ponds, lakes, etc.)
- \_\_\_ Show water depths to the bottom substrate taken at approximate mean low or ordinary low water levels in the vicinity of the proposed structure.
- \_\_\_ Show principal dimensions of proposed structure or work to be performed (including boardwalks, paths, vegetation removal, etc.) in relation to property boundaries. Indicate materials proposed for construction activities.

### II. Cross-Sectional/Profile View

- \_\_\_ Show the approximate mean or ordinary high and low water levels in relation to the shoreline and the proposed structure.
- \_\_\_ Show the existing and proposed depths at the waterward end of the proposed work; or if excavation is proposed, show the requested grade.
- \_\_\_ Show dimensions of proposed structure and identify any structures to be erected upon it (i.e., roof, railings, etc.).
- \_\_\_ If fill is proposed, indicate type of fill proposed, show dimensions and volumes of material, and identify any structures to be constructed, and their relationship to the delineated wetland line.
