LETTER FROM THE PRESIDENT

Thank you for joining us at Autumn Brew Review, the longest running beer festival in the state of Minnesota. Autumn is my favorite season of the year. With the turning of the leaves, we see a rush of new seasonal beers. Oktoberfest is celebrated after a successful harvest season. We have a lot to be thankful for as Minnesota Craft Beer drinkers. We welcome new breweries, see many expansion projects, taproom sales on Sunday and a large increase in the popularity of Minnesota Craft Beer. I want to thank the Minnesota Craft Brewers Guild member breweries, our allied trade members, our partners and you, the educated consumer and supporter. Cheers!

TASTING BEER BASICS

AUTUMN BREW REVIEW is an opportunity to sample hundreds of craft beers from great brewers both local and not-so-local. Make the most of it by taking the time to savor the flavor. With every beer you taste follow this simple three-step process; smell, see, sample.

SMELL - Don't be shy. Stick your nose deep in the glass and take a big whiff. Breathe in the bright earth, spice and citrus of the hops. Let the cereal smells of malted grains overtake your senses. Yeast too brings smells; fruit, spice, sulfur, sour and funk.

SEE – Hold your glass up to the light. Take note of each beer's jewel-like color and pristine clarity (or the stylistic lack thereof). Brewers take great pains to raise that frothy head. Give them back a moment of your time to admire its texture, color and duration.

SAMPLE – Finally you taste the beer. The sensation is so much sweeter for having indulged the first two steps. Let the sample sit a moment on your tongue. Is it a malty beer or do the hops hold sway? Perhaps it's yeast that takes the day. And is that a subtle hint of spice that lurks in the background?

LAGUNITAS BREWING CO.

PETALUMA & CHICAGO, CA & IL | WWW.LAGUNITAS.COM

HEAD BREWER: JEREMY MARSHALL BREWERS: MARY BAUER

From points distant and beyond we all converged on Petaluma in 1993 and '94 with an unenunciated desire to be more than we were before. The core of Lagunitas came from Chicago, St Louis, Memphis, Walker Creek, and the highlands of Quincy. The Chicago contingent initiated the brewing and the gravitational effect of its suchness all the rest. We all loved the beer but the mission was larger than the ordinary joy of a hoppy-sweet quaff. It was driven unseen by an urge to communicate with people, to find our diasporidic tribe, and to connect with other souls adrift on a culture that had lost its center and spun its inhabitants to the four winds to wander lost and bereft with a longing to re-enter the light. Beer, we have learned, has always been a good lubricant for social intercourse! The Lagunitas Brewing Co. was not so much an act of ordinary foundling' as it was willed into being by the unspoken desire of supportive beer-lovers in Northern California after which they continued to nutrue their creation and urged us forward to fulfill the unifying needs of that same beer-loving diaspora from coast to coast and beyond. It is good to have friends!

IPA

Lagunitas IPA was our first seasonal way back in 1995. The recipe was formulated with malt & hops working together to balance it all out on your 'buds so you can knock back more than one without wearing yourself out.

DAYTIME

Our "Fractional IPA," boldly dosed with a glorious fortune of dry hops and a toasty malt foundation to satisfy your every need. But still lets you stay in the game to do what needs to be done.
