READ: This report is being sent to you late. There have been things come up that required immediate attention. We cannot go into detail about these problems but they include organization, printing plans for the future, training of help and preparing Critique of Objectivism and the new Blueprint for Victory. These two publications have been offered for 60¢ each or 3 for \$1.50 for the Critique and \$3.00 each for Blueprint for Victory. We increased the number to be printed and are therefore able to lower the price on these books. Current prices are: Critique of Objectivism-- 35 cents each or 4 copies for \$1.00. Blueprint for Victory is \$2.00 per copy, 3 copies for \$5.00; seven copies for \$10.00; 15 copies for \$20.00; 50 copies for \$65.00; 100 copies for \$125.00. Adjustment will be made to those persons who have ordered at the former price given. Plans are being made to publish On Target again. Much intelligence has been gathered and even though this will be prepared in mimeo form, we are sure it will be worth it and fill a great need to the members and subscribers.

Robert DePugh has written a prologue and epilogue to the Blueprint for Victory. Another printing of this book will be available soon containing these new additions. Since there is already a waiting list for this book, we suggest that you send in a request now to reserve a copy. It may never be printed again. In the epilogue Mr. DePugh gives 8 vital issues which should be brought before the public and acted on if this nation is to survive. Single copies \$2.00; 3 copies for \$5.00; 7 copies for \$10.00; 15 copies for \$20.00; 50 copies for \$65.00; 100 copies for \$125.00.

STRATEGY AND OBJECTIVES OF RESISTANCE WARFARE BY Robert B. DePugh is now available and ready for mailing. This is a seven page mimeographed article on different forms of resistance warfare but with emphasis on insurrection. This is detailed and complete, going into different aspects of the insurgents position and also how the government would act. This is considered required reading for every Minutemen. Following is a quote from this work:

"Under these conditions, a patriotic resistance movement in a country such as the United States would be difficult to destroy by anything short of total police-state tactics. The longer it is allowed to continue the more difficult it would be to stop. To use totalitarian tactics against the resistance would cost the government too high a price in loss of popular support."

We urge you to read this, study it, and compare with the responsibilities we face. Price is \$2.00. It is ready for mailing.

CRITIQUE OF OBJECTIVISM By Robert B. DePugh is available in printed pamphlet form. This is a well written criticism of Ayn Rand's works. Mr. DePugh's evaluation is interesting and should be considered by aware members. We often wonder why our fellow men are so complacent. Such works as this critique offer an answer and, in knowing this, we can further our work in enlisting the aid and support of these people not yet fighting for freedom in an active constructive manner. Price for this booklet is 35¢ each or 4 copies for \$1.00.

JUNE, 1970

Robert B. DePugh is now in Albuquerque, New Mexico and has until July to file pre-trial motions. After that, trial date will be set and trial held in Los Cruces, New Mexico.

All charges have been dropped in Missouri and he is appealing the one conviction for bond jumping there. It is very probable that the case of "conspiracy to rob banks" in Seattle, Washington, will be dropped.

Even though it may seem that things are improving for Mr. DePugh, the worst of the fight is yet to come. He filed a motion to have bond reduced in New Mexico and his request was denied. Bond is still \$50,000 cash. This is a lot of money. Bond may have been kept this high to make sure he did not get out on bond. As you can see, it would be to Mr. DePugh's definite advantage to be free on bond for even just a few months, to be able to make contacts in regard to his forthcoming trial, make counsel with knowledgeable advisors, be able to travel, research various law libraries, etc. Since he is acting pro se, this is a necessity in preparing for his defense.

Let everyone make a special effort to help Bob in his worst time of need. He needs your support. Your efforts at this time could make a big difference in how things go for him.

A. Spread the word how he has valiantly stood for the constitutional rights of all Americans through his own court cases. Spread this word by writing to your local newspaper, participate in call-in programs on radio, etc. Write letters of inquiry to your congressmen and senators. Points to bring out are: Why such excessive bond? Why the delay in bringing this man to trial in Washington? Why are there no news releases? Why isn't he permitted to make a public statement? Is this man to vanish into obscurity?

B. Stand up for the organization. The fact that the government is still contacting members, spreading malicious gossip about the Minuteman leader after he has been in jail for almost a year means only one thing. They are intent on ruining his public image as a great American patriot and also intent on completely smashing the organization that gives such hope to freedom loving Americans, which gives direction to those seeking an affirmative approach to the problems of Communist infiltration and subversion which is crumbling our nation.

C. Contribute to the defense fund. Remember, nothing is impossible. Let us not fall victim to the idea that our opposition is so powerful that there is no use to continue in our endeavor. Great changes have been brought about by a determined and dedicated minority.

Groups are being contacted by individuals who are willing to hold training exercises. These individuals have a good line, pose as experts, (and they are) in field training, drills, use of weapons, different types of combat and have available picture slides and the latest government training manuals. DO NOT MAKE USE OF THIS APPARENT OPPORTUNITY! These individuals are infiltrators and association with them will only lead to exposure, break up of local groups, charges and imprisonment.

All members are warned not to participate in any field training maneuvers not conducted or authorized by National Headquarters. If members desire such training, it is advisable that local groups have their own exercises. National Headquarters has many numbers of manuals which can be followed for training in and out of the field. Working networks may have started members in specialty fields of their own particular interest, who could give informative lectures on these subjects; if not, now is the time to assign such tasks to members, go over things in general and get programs started.
