**STUDENT:** \_\_\_\_\_ **Semester or summer term:** \_\_\_\_\_

One of the best ways to evaluate our students' progress in youth ministry is to observe how well they are achieving goals and objectives set at the onset of the new year. For this first evaluation, therefore, would you please meet with your student and together **compile a list of objectives**? These objectives should pertain to both **learning objectives** (what they hope to learn) and **ministry objectives** (what they hope to accomplish).

Then, indicate these in the space below. This is most important, as we will be referring to them in subsequent evaluations to determine how well progress is being made.

Be sure to *make the objectives attainable* for the student. *Don't make them too lofty* to achieve in the internship period. Also, *be specific* in what you would like to accomplish together in the program.

Please *keep a copy of this list for yourself* and *have the student also retain a copy*. It will be helpful for you in future discussions to refer back to the goals you have set.

1. The Goals set for this student this semester/summer will be:  
**LEARNING OBJECTIVES FOR THE STUDENT:**

**MINISTRY OBJECTIVES FOR THE ORGANIZATION:**

2. Specifically, **by what means will the Placement Supervisor and the student work to meet these goals**? What sort of *training plan* do you have? *How often will you meet* with the student? Which areas of *program involvement* will enable the student to meet his/her objectives?
