

Fort Lewis College Internship Packet

Thank you for choosing to sponsor a Fort Lewis College student intern. We hope that this collaboration will be not only an important learning experience for our students, but also one for your agency. At Fort Lewis College we feel that getting students experience in their field before graduation is an important part of their college career, as well as, an important part of their professional development.

A successful internship consists of several things:

- Substantive learning opportunity.
 - Students will further their academic, personal, and career goals.
- Collaborative effort between student, agency, and Fort Lewis College.
 - Creating an environment that promotes critical thinking, observation, and reflection.
- Completion of a minimum of fifty hours during the internship experience.
 - Approved hours by Fort Lewis College staff.

Employers benefit by:

- Sharing their expertise.
- Having quality candidates for temporary projects and positions.
- Recruiting new talent.
 - Internships can be a very cost effective way of searching for, testing, training, and recruiting new talent while students gain invaluable career related work experience.

At Fort Lewis College, we have adopted the National Association of Colleges and Employers' definition of an internship (whether it is a paid or unpaid experience):

1. The experience is an **extension of the classroom**: a learning experience that provides for applying the knowledge gained so far in their college career. It must not be simply to advance the operations of the employer or be the work that a regular employee would routinely perform.
2. The **skills** or knowledge learned must be **transferable** to other employment settings.
3. The experience has a **defined beginning and end**, and a job description with desired qualifications.
4. There are clearly **defined learning objectives/goals** related to the professional goals of the student's academic coursework.
5. There is **supervision by a professional** with expertise and educational and/or professional background in the field of the experience.
6. There is **routine feedback** by the experienced supervisor.
7. There are **resources, equipment, and facilities provided** by the host employer that support learning objectives/goals.
