

## K-W-L CHART

The K-W-L chart is designed to assist with a variety of study activities: reading, reviewing, self-testing, and study groups. Directions: in the K column, take a moment to list everything you know about the topic you are focusing on. In the W column list everything you want to know -- be specific. In the L column, list what you learn as you complete your study activity. When your study session is complete, check your L column against your W column. **Be sure to discuss with your professor or a study partner any items in your W column that were not fulfilled in your L column.**

<b>K</b> What do I already know about this topic?	<b>W</b> What do I want to know about this topic?	<b>L</b> What did you learn about this topic?
