AUTHORIZATION TO OBTAIN AND DISCLOSE INFORMATION

- 1. This authorization to obtain and disclose information complies with HIPAA regulations as they relate to life insurance. I (we) authorize Protective Life Insurance Company (Protective Life) and its reinsurers to obtain directly through designated third parties and use any information about or relating to me (us) that may affect my (our) insurability. Protective Life and its reinsurers may obtain and use health and medical information to include all dates of service, including but not limited to information about chart notes, EKG's, drug use, alcohol use, nicotine use, physical and mental diseases and illness, and psychiatric disorders. Protective Life and its reinsurers may also obtain and use non-health and non-medical information, including but not limited to financial information, credit reports, consumer reports, driving record, criminal record, and information about avocations and aviation activity. All of this information may be used to evaluate an application for insurance, a claim for insurance benefits, or both. Information relating to communicable diseases and other risk factors relating to me or to my spouse or life partner may be used to evaluate an application for insurance on either me or my spouse or life partner. The Protective Life sales agent or regional sales office representing me on my (our) application for insurance may obtain the information described in this paragraph directly from any of the persons or organizations listed in paragraph 2 in order to expedite the delivery of the information to Protective Life.
- 2. I (we) authorize the following persons and organizations to release and disclose the information described in paragraph 1 to Protective Life, directly through designated third parties or its agents acting on its behalf; (i) my (our) doctor(s); (ii) medical practitioners; (iii) pharmacists and Pharmacy Benefit Managers; (iv) medical and related facilities, including hospitals, clinics, facilities run by the Veteran's Administration, Kaiser Permanente, The Cleveland Clinic Foundation including all satellite facilities and The Mayo Clinic; (v) insurers; (vi) reinsurers; (vii) MIB, Inc. (MIB); (viii) my (our) current and previous employers; and (ix) commercial consumer reporting agencies (CRA). All of these persons and organizations other than MIB may release the information described above to a CRA acting for Protective Life. MIB may not release the information described in paragraph 1 to a CRA.
- 3. I (we) authorize Protective Life to draw and test my (our) blood, and/or oral fluids, and urine as may be necessary to obtain information to be used to underwrite my (our) application for insurance. These tests may include, but are not limited to, tests for cholesterol and related blood lipids, diabetes, liver or kidney disorders, immune disorders (other than HIV/AIDS; reference number 7 below), and the presence of drugs, nicotine, or their metabolites. This authorization does not include genetic testing. Unless otherwise required by law or regulation, Protective Life may, but is not obligated to, release any of these test results directly to me or to my spouse or life partner.
- 4. I (we) authorize Protective Life to release and disclose the information described in paragraphs 1 and 3 to its affiliates, its reinsurers, persons or organizations providing services relating to insurance underwriting for Protective Life, MIB, and as otherwise required by law. I (we) authorize Protective Life to release and disclose the information described in paragraphs 1 and 3 to other duly licensed life insurers if I (we) have applied or apply to the other insurers for insurance. I (we) authorize Protective Life Insurance Company, or its reinsurers, to make a brief report of my personal health information to MIB.
- 5. I (we) authorize Protective Life to release and disclose the information described in paragraphs 1 and 3 to the Agent and their Representative representing me to duly licensed specific life insurers for the purpose of applying for life insurance if my (our) application with Protective Life is declined or if Protective Life is unable to offer coverage at an acceptable rate.
- 6. I (we) authorize Protective Life to release and disclose the information described in paragraphs 1 and 3 to the sales agent representing me on my (our) application for insurance if it is necessary to provide an explanation of the reasons for Protective Life's decision to impose special underwriting requirements, whenever my application cannot be approved as submitted, or in connection with a claim for benefits.
- 7. **SPECIAL REQUIREMENT FOR HIV/AIDS TESTING**. If Protective Life intends to test for the presence of antibodies to the Human Immunodeficiency Virus (HIV), which is the virus that has been associated with Acquired Immune Deficiency Syndrome (AIDS), Protective Life may require me (us) to authorize that testing separately. I (we) hereby authorize Protective Life to obtain and use the results of any HIV tests that I (we) separately authorize, and if permitted by law, to disclose the results of those tests to its reinsurers and **MIB**.
- 8. This authorization shall be valid for 24 months from the Date of Authorization shown below or, in the event of a claim for benefits, for the duration of such claim.

- 9. During the evaluation of my (our) insurance application, I (we) understand that I (we) have the right to revoke the authorizations in paragraphs 1 through 7 by writing to Protective Life at P.O. Box 830619 Birmingham, AL 35283-0619. If this authorization is revoked, this would result in the file being closed and no coverage provided.
- 10. I understand I do not have to sign this authorization in order to obtain health care benefits (treatment, payment or enrollment).
- 11. I (we) understand that information about me (us) may be disclosed under this authorization to persons or organizations that are not subject to the Health Insurance Portability and Accountability Act (HIPAA) and that the information would then no longer be protected by HIPAA and any related regulations.
- 12. I acknowledge that any agreements I have made to restrict my protected health information do not apply to this authorization and I instruct any physician, health care professional, hospital, clinic, medical facility, or other health care provider to release and disclose my entire medical record without restriction. Any modifications to this authorization may preclude Protective Life's ability to process this application.
- 13.

 I (we) have been given a copy of this authorization form and Protective Life's Description of Information Practices.
 - □ I (we) would like to be interviewed if an investigative consumer report will be made. (Please check if you wish to be interviewed.)

THIS AUTHORIZATION <u>MUST</u> BE SIGNED <u>WITHOUT MODIFICATION</u> AND RETURNED WITH THE APPLICATION BEFORE PROCESSING.

IMPORTANT HEALTH INFORMATION BOOKLET with Consent Form

Q: What is an HIV Test?

A: Human Immunodeficiency Virus (HIV) is the virus that causes Acquired Immunodeficiency Syndrome (AIDS).

Laboratory tests tell whether you have been infected with HIV. A test is not considered positive unless a different, backup test is done and also reads positive. These tests are conducted on a single sample of your blood or on an oral sample from your mouth or on a urine sample. Test results may, on rare occasions, be inconclusive, and this possibility should be discussed with your health professional.

Q: Will the HIV test tell me if I have AIDS?

A: No. A <u>positive test</u> means you have become infected with the virus. While some people infected with the virus have gone on to develop AIDS, others have not yet developed AIDS. Healthy lifestyle and behavior changes, improved diet, and, most importantly, early medical treatment may help you delay, or avoid, the development of AIDS.

Q: How long after exposure does it take to tell if I am infected?

A: Most people will test positive within three months after exposure. The average time is less than one month. However, a few people have taken up to six months or even one year to test positive.

Q: How does a person become infected with HIV?

A: The virus is most commonly spread through sexual contact (vaginal, anal, or oral sex) and by sharing needles or works to shoot injectable drugs. An infected mother may infect her baby during pregnancy, at the time of birth, or while breast feeding. Very rarely, contact with blood through open cuts or wounds, or splashes to the eyes, may also spread the virus. You cannot get infected with the virus by donating or giving blood, or through casual contact.

Q: Do I have to have this test?

A: Generally, getting tested is your decision. In Michigan, testing is required if you are a potential organ, semen, tissue, or blood donor; a military recruit; an immigrant; or if you have been charged and bound over, or convicted of certain crimes in a court of law. In addition, some health care facilities may have an admission requirement that you consent to be tested if a health care worker is accidentally exposed to your blood during your stay in their facility.

An insurance company has the right to request that you take an HIV test if you apply for new health or life insurance. If you refuse or if you test positive, as with any other potentially serious health condition, you will probably be turned down for this new insurance.

U-595 7/04 Page 1 of 6 (8/12)

Q: Who should consider having the HIV test?

- A: The Michigan Department of Community Health recommends that HIV testing be considered by anyone who meets any of the following:
 - People who have had a sexually transmitted disease (venereal disease).
 - People who have shared needles or who have a history of drug abuse.
 - Men who have had sex with other men.
 - Men or women who have had unprotected sex with anyone whose HIV status is unknown. (Unprotected sex means there has been an exchange of semen or vaginal secretions between the partners.)
 - People who have had more than one sex partner.
 - People who have had sex with prostitutes (male or female).
 - People who received blood products or blood transfusions between 1978 and 1985.
 - People who exchange sex for drugs or money.
 - People who are infected with tuberculosis.
 - People who have had exposure to the blood of someone who may be infected.
 - People who have had sex with any person from the above list, particularly with injecting drug users.
 - Women who are pregnant or who are considering pregnancy.
 - Women who are diagnosed with invasive cervical cancer.

Q: Where can I have the test done without my name being used?

A: All local health departments and other testing centers designated by the Michigan Department of Community Health will provide the option to you to be tested with your name (confidential testing) or without your name (anonymous testing). Any person giving you this test is required by law to keep your test results confidential, with a few exceptions specified by law. If you request testing without your name, these facilities have trained counselors who will counsel you on an anonymous basis.

If anonymous testing is done and you have a positive test, you need to know that health care and treatment are not provided on an anonymous basis.

Q: Who will know the results of my tests?

A: Any person giving you this test is required by law to keep your test results confidential. Even the courts must follow specific rules before they can require disclosure through a court order. A subpoena is not sufficient to require disclosure; you will be asked to sign a separate release form. If this information needs to be released beyond the requirements of the law, you will be asked to sign a separate release form.

In Michigan, positive test results are reportable to the state and local health departments. The health department will maintain your confidentiality and use this information to understand the extent of infection in Michigan's communities. This information may also be used by your health provider or local health department as needed to properly diagnose and care for you and protect your health, to assist you in notifying your sexual or needle sharing partners, and to prevent spread of the virus. The test results, if positive, will also be given to a potential spouse if you are planning to get married. If you are a health care worker, you should be aware of state guidelines regarding infected health care workers.

If you are tested in a physician's private practice office, or in the office of a physician affiliated with or under contract with a Health Maintenance Organization, you may request that your name, address, and phone number not be included in the HIV-positive report to your local health department. It is against the law in Michigan for local health departments to keep lists of names of infected people.

Michigan law now requires that, if you are infected, your physician or the local health officer must warn (notify) all of your known sexual or needle-sharing partners of the fact that they have been exposed. In doing this, they are required to keep your identity confidential.

U-595 7/04 Page 2 of 6 (8/12)

Q: Are there any risks involved in having the test done?

A: There are three ways you can be tested for HIV. They are by drawing a sample of blood, taking an oral sample from your mouth, or testing your urine. There are virtually no medical risks in drawing a small sample of blood. Only sterile needles and syringes are used for this purpose. Once the needle or syringe is used, it is safely thrown away, or properly sterilized. If an oral sample from the mouth is used for the test, a specially-treated pad is placed between the lower cheek and gum and held for two minutes. This causes no risk or pain. The urine test requires only a urine sample.

Before you are tested, you should carefully think about to whom you would tell the results, and what emotional support systems are available to you. The Michigan Civil Rights Commission has ruled that AIDS, HIV infection, and the suspicion of AIDS or HIV infection are considered handicapping conditions. Therefore, people are not to be discriminated against, and have all the rights of a handicapped person as defined under the Michigan Persons with Disabilities Civil Rights Act, P.A. 220 of 1976 (formerly, Michigan Handicappers' Civil Rights Act). Federal laws make similar rulings through the federal Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 strictly forbids discrimination against persons with HIV or AIDS.

Q: What will happen to the consent form after I sign it?

A: If you decide to be tested, you will be asked to sign a consent form. If you test anonymously, you can sign using a number or a fake name. Procedures for filing the consent form will vary from facility to facility. Please ask your health professional if you would like to know what their confidentiality procedure is.

Q: Can I change my mind after I sign the consent form?

A: Yes, you can change your mind at any time before the laboratory performs the test. If you change your mind, you will have to provide a written request to the person or organization providing you with this information booklet.

Q: How will this test help me?

A: If you are tested, you most likely will be required to appear in person to get your test results. Whether your results are positive or negative, your overall health may be helped from discussions with your health professional.

If you test negative, the test indicates either that you are not infected, or possibly, that you were infected very recently (within the past 3-6 months). You can learn through counseling how to protect yourself from infection in the future. If you have recently practiced risky behavior, you may want to be retested.

If you test positive, the test indicates that you have been infected with HIV. You can still take action to benefit your health and **reduce the chance of infecting others**. This includes maintaining a good state of physical and mental health. By doing so, you may delay the development of AIDS. It is suggested that you:

- Seek medical treatment immediately. Many drugs are now available for treatment of persons infected with HIV even if symptoms
 are not present. Early treatment is usually beneficial to many people with HIV.
- Receive all recommended vaccines. Discuss with your physician which vaccines are recommended and which should be avoided.
- Maintain good nutrition, exercise and get adequate rest.
- Receive emotional support and work on managing stress.
- Eliminate recreational drugs, or at least reduce alcohol and smoking.
- Stop injecting drugs. If you continue to inject, stop sharing equipment, and use a new syringe and needle each time. At the very least, you should learn to clean your needles or works with full-strength bleach and water.
- Don't have vaginal, anal, oral or other sexual contact that exposes others to your semen, vaginal secretions or blood. Avoid
 exposing others and getting sexually-transmitted diseases (through abstinence or by always using latex or polyurethane
 condoms or barriers).

U-595 7/04 Page 3 of 6 (8/12)

- Inform all known sexual or needle-sharing partners, including any new partners, about your infection.
- Do not donate blood or organs (change designation on driver's license).
- Seek counseling regarding becoming pregnant or fathering a child.
- If you are pregnant and planning to continue that pregnancy, discuss with your physician treatments that may protect your baby.

Q: Whom should I tell if I am HIV-positive?

A: If you test positive, you need to know that this infection is not passed to another person through casual contact. Michigan law requires that you must notify any new sexual partner prior to having sex with them. Past sexual and needle-sharing partners are to be notified so that they can also be counseled and offered testing. If requested, your local health department will provide you assistance in notifying partners.

Inform all health care providers, both medical and dental, who are providing you treatment, about your HIV infection. This will help them care for you.

The law prohibits health care providers from refusing to treat you based upon your HIV infection.

New guidelines indicate that HIV-infected pregnant women should undergo treatment for HIV disease. This treatment may reduce the risk of transmission to the newborn by 60-70%.

Finally, be careful about discussing your HIV status with others. Some people may not understand the nature of the infection or how it is actually spread. This may lead to misunderstanding and create problems for you with friends, co-workers, or others.

Q: What if I have more questions?

A: Please ask the health professional who gave you this booklet. Your health professional will have the answers to your questions or will get the answers for you.

You should feel free to call the statewide AIDS information hotline (1-800-872-AIDS; Spanish 1-800-862-SIDA; TDD 1-800-332-0849) or your local health department at any time, if you have questions or need help.

DESCRIPTION OF INFORMATION PRACTICES

(Including MIB, Inc. Notice and Fair Credit Reporting Act Notice)

In considering your application for insurance, information from various sources must be considered. These include the results of your physical examination, if required, and any reports Protective Life may receive from doctors and hospitals who have attended you.

Information regarding your insurability will be treated as confidential. Protective Life, or its reinsurers, may, however, make a brief report of any personal health information thereon to the MIB, Inc., (MIB), formerly known as Medical Information Bureau, a not-for-profit membership organization of insurance companies, which operates an information exchange on behalf of its members. If you apply to another MIB member company for life or health insurance coverage, or a claim for benefits is submitted to such a company, MIB, upon request, will supply such company with the information about you in its file.

Upon receipt of a request from you, MIB will arrange disclosure of any information in your file. Please contact MIB at 866-692-6901. If you question the accuracy of the information in MIB's file, you may contact MIB and seek a correction in accordance with the procedures set forth in the Federal Fair Credit Reporting Act. The address of MIB's information office is 50 Braintree Hill Park, Suite 400, Braintree, Massachusetts 02184-8734.

Protective Life, or its reinsurers, may also release information from its file to other insurance companies to whom you may apply for life or health insurance, or to whom a claim for benefits may be submitted. Information for consumers about MIB may be obtained on its website at www.mib.com.

Furthermore, as part of our procedures for processing your insurance application, an investigative consumer report may be prepared by one or more of the commercial agencies offering this service whereby information is obtained through personal interviews with your neighbors, friends, or others with whom you are acquainted. This inquiry includes information as to your character, general reputation, personal characteristics and mode of living except as may be related directly or indirectly to your sexual orientation. You have the right to be personally interviewed if we order an investigative consumer report. You also have the right to receive a copy of the report, and by making a written request to Protective Life within a reasonable period of time to receive additional detailed information about the nature and scope of this investigation.

As a general practice, we will not disclose personal or privileged information about you to anyone else without your consent, unless a legitimate business need exists or disclosure is required or permitted by law. You are entitled, upon request, to receive a more detailed statement of our information practices. You also have the right to access the personal information about you that we have in our records. You may see a copy of the information, or we will send it to you, whichever you prefer. You also have the right to request correction of personal information we may have about you which you think is wrong. To exercise these rights, please write to us at the address appearing at the end of this notice.

Ask our agent for assistance, or call or write us at Protective Life Insurance Company, Attention: New Business, P.O. Box 830619, Birmingham, Alabama 35283-0619. Telephone: 800-366-9378

THIS NOTICE MUST BE GIVEN TO THE PROPOSED INSURED

Producer Compensation Disclosure

Agents/Producers receive compensation from an insurer or third party, which may differ depending upon the product or insurer. Additional compensation may be received by the Agent/Producer based on other factors including premium volume placed with the company and loss or claim experience.
