**AUTOMATICALLY GENERATED REPORTS**  
(Reports print the day after input)

<b>REPORT NUMBER</b>	<b>REPORT NAME</b>	<b>HOW INITIATED/RECEIVED</b>	<b>INFORMATION PRESENTED</b>	<b>USE</b>
<b>1001</b>	<b>Input Transaction Listing</b>	Daily, automatically - Upon input	All batch transactions keyed (agency and DOA)	Verification that all applicable batch transactions were keyed
<b>1006 or 1010</b>	<b>Change Listing</b>	Automatically - when changes are entered to CIPPS masterfiles	Prior value and current value based on the change. Listed in employee order or type of change order (#1010)	Verify that masterfile changes were entered correctly, especially relating to salary or wage amount
<b>1009</b>	<b>Employee Diagnostic</b>	Automatically - when payroll transactions cannot process as entered	The employee number, the change or transaction that was not accepted, a brief reason for not processing	Provides an opportunity for errors to be corrected in a timely manner so transactions can be rekeyed after appropriate changes have been made
<b>1013</b>	<b>New Employees Added</b>	Addition of new employee record	Employee number and name	Notification that a new record has been added to the system so employment, salary/wage, and all other applicable information can be verified.
<b>1017</b>	<b>Updated Pending File</b>	Automatically - when batch transactions are added to the pending file from input or payroll processing	Entry date, sequence number, employee number, transaction type, and other relative information (i.e., ded. or special pay number, hours, dollars, etc.), and the action being taken with each transaction (added or deleted)	Verify that no transactions have an entry date prior to the ending date of the current pay period. If so, research is required to determine if the transaction should be deleted or if masterfile changes are required in order for the transaction to process.

**KEY REPORTS GENERATED WITH PAYROLL CERTIFICATION – LIST 1 of 2**

<b>REPORT NUMBER</b>	<b>REPORT NAME</b>	<b>INFORMATION PRESENTED</b>	<b>USE</b>
<b>U102</b>	<b>CIPPS Payroll Certification Report</b>	Hard copy of information entered online by the agency to certify the payroll for processing.	To certify the correctness of payroll transactions to be processed, including the total gross dollars to be paid, authorizing DOA to process the payroll.
<b>10 - PAY</b>	<b>Payroll &amp; Deduction Register - ACTUAL PAYROLL</b>	Gross-to-net calculation of all payroll transactions - including update of year-to-date amounts.	Verification of final payroll totals and accuracy of payroll processing.
<b>21</b>	<b>Deduction Register</b>	This report is generated for each deduction and sub-deduction number, listing each employee who had this deduction withheld and the amount of the deduction. Agency-paid deductions are also provided.	Verification that deductions were withheld/charged appropriately and those tax-sensitive deductions were set up correctly.
<b>26</b>	<b>Direct Deposit Transmission</b>	Lists each employee who has an active deduction established for direct deposit to checking or savings, and the amount of the transfer.	Verification that there are no extraordinarily large net amounts being transferred
<b>33</b>	<b>Composite Tax Report</b>	Provides the total gross amount paid, and the taxable amount and taxes withheld for each tax category (federal, state, OASDI, HI, etc.) for employee and, where applicable, employer. Reflects tax masterfile totals.	Ensure no taxes were withheld in certain categories (i.e., FUTA, DI) in which state employees do not contribute. Verify that tax-sensitive deductions and payments were taxed correctly. This function is performed automatically with the monthly 10 to 33 comparison, using year-to-date amounts
<b>59</b>	<b>Gross Pay Limit Exceeded</b>	Lists employees, if any, whose gross wages, including all types of pays, exceed the limit established at the agency level. (Default value is double base salary)	Verification that payments are correct and in accordance with available documentation.
<b>U003</b>	<b>Third-Party Check Reconciliation Register</b>	Lists each third party <b>agency</b> check, as well as the amount of the federal tax deposit being electronically transferred.	Verification of deduction totals and distribution of checks to third party recipients. Verify federal tax transfer.
<b>2007</b>	<b>Recycled Pending Transactions</b>	Lists taxes and deductions that could not be taken in this payroll. Items will recycle and be deducted in the next payroll cycle unless deleted.	Verify that these items are still due. Delete those transactions that are incorrect so they will not affect the next payroll.
<b>U075</b>	<b>Reimbursement Accounts Error Report</b>	Lists employees with errors concerning Deductions 21, 22 and 23 (Flexible Reimbursement Accounts and Fees)	Review the exception and make corrections in CIPPS as necessary.

**KEY REPORTS GENERATED WITH PAYROLL CERTIFICATION – LIST 2 of 2**

<b>REPORT NUMBER</b>	<b>REPORT NAME</b>	<b>INFORMATION PRESENTED</b>	<b>USE</b>
<b>12</b>	<b>Manual Checks Issued</b>	By Office, Employee number and name, check number, date, and amount, any manual pay set that was entered to make changes to an employee's masterfile.	To ensure that only authorized, valid changes to employee masterfile records are entered. To ensure that all payroll-related items that were handled outside of the payroll system, are recorded in the employee masterfile record.
<b>13</b>	<b>Adjustment Register</b>	By Office, Employee number and name, the amount of any refund or increase or decrease in the current amount being paid for special payments or being withheld for taxes or deductions.	To ensure that refunds or increases/decreases to current special payments, taxes, or deductions, are valid and authorized. Special attention should be paid to changes to taxes or tax-sensitive deductions and special payments.
<b>U094</b>	<b>New Hire Report</b>	All employees that have been hired within the time frame of the report. DOA automatically produces the U094.	All new hires must be reported to the VEC to ensure the employees are not under a child support withholding order. The U094 reflects the information that is automatically sent to the VEC for this purpose. A review of this report is necessary to insure that all information has been reported.
<b>U118</b>	<b>Gross Pay Differences Report</b>	By frequency paid, the pay type (regular-3 or special-9), the amount authorized for payment, the amount that actually paid, and the amount of the difference.	Ensures that any difference between the amount authorized and certified and the amount actually paid can be identified. Ensure that transactions added or deleted after certification are accounted for and approved for payment or deletion. Explanation for differences can be hand-written on this form for faxing back to DOA.

## SECTION 2

# **PAYROLL REPORTS ARRANGED BY UTILITY**

## New Hire Review Tools

- The following reports are automatically run the night a new hire is added:
  - CIPPS Reports (Reportline):
    - Report 1013 – New Employees Added
    - Report 1006/1010 – Changes made to the employee’s record with an “R” will be reported on the Change Listings, however, the initial “I” screen inserts are not reported because they are not a “change” to the record.
  - PAT (Payroll Audit Tool) Reports (Payline):
    - Employee Information One Page Printout– Shows the content of all relevant data fields on the employee’s masterfile record.
- The following reports are available only when you request an edit (PYEDT) or pay (PYCTF) for the employee’s frequency.
  - PAT (Payroll Audit Tool) Reports (Payline):
    - Rate Amount Change Compare
    - Compare your edit report to the last pay processed to view all changes to the H0BID salary/rate amounts. New Hires will show \$0.00 dollars on the previous payroll and the new amount on the new payroll.
    - Salary/Rate and Regular Pay Comparison Report
    - For Salary employees – this report compares the H0BID rate/amount to the amount of regular pay that the employee is receiving. New hires that begin mid pay period should show on this report. New hires that start on the first day of the pay period are receiving a full check and should not appear on this report. If they do appear, their pay may be incorrect.
  - CIPPS Reports (Reportline):
    - Report 10 – You should ALWAYS review a new hire on the Report 10. Incorrect dates on the masterfile can cause prorating and the employee may not receive the correct pay. For hourly employees – multiply the rate times the amount of hours to ensure that the amount of regular pay is correct.
- The following CIPPS Ad-Hoc Reports are requested on screen HSRUT:
  - Report 852 - Automatic Special Pay #14 - Incorrect Imputed Life Report) – this report will notify you if the imputed life rate on H10AS does not appear to match the rate on H0BID or it is not set up correctly.

## Salary Change Review Tools

- The following reports are automatically run the night the salary/rate amount on H0BID is changed:
  - CIPPS Reports – Reportline:
    - Report 1006/1010 – Changes made to the employee’s record with an “R” will be reported on the Change Listings, however, the initial “I” screen inserts are not reported because they are not a “change” to the record.
- The following reports are available only when you request an edit (PYEDT) or pay (PYCTF) for the employee’s frequency.
  - PAT (Payroll Audit Tool) Reports (Payline):
    - Rate Amount Change Compare
      - Compare this edit to the last final pay. Changes made to the H0BID between the two report 10 files, will be reported.
      - Salary/Rate and Regular Pay Comparison Report
      - Salaried employees who had a rate change at the top of the pay period should not show on this report.
      - Salaried employees who had a rate change mid pay period should show on this report.
  - CIPPS Reports – Reportline:
    - Report 10–
      - If the pay change was for an hourly employee – multiply the rate times the number of hours to ensure that an incorrect date of last pay change did not cause an incorrect pay amount.
      - If the pay change was for an hourly employee, make sure that the hours worked were earned after the pay increase was effective. If not, key the previous rate with the hours worked on HUA03.
      - If the employee has overtime hours paid for time worked before the effective date of the salary change – an override on HUA03 is necessary.
    - Report 59 – Gross Pay Limit Exceeded –If the employee’s pay is greater than an agency specified factor (generally two times their normal salary), they will be reported here.
- The following CIPPS Ad-Hoc Reports are requested on screen HSRUT:
  - Report 852 Automatic Special Pay #14 - Incorrect Imputed Life Report– this report will notify you if the imputed life rate on H10AS does not appear to match the rate on H0BID.

### Deduction Change Review Tools

- The following reports are automatically run the night that deductions are changed on H0ZDC:
  - CIPPS Reports – Reportline:
    - Report 1006/1010 – Changes made to the employee’s record with an “R” will be reported on the Change Listings, however, the initial “I” screen inserts are not reported because they are not a “change” to the record.
- The following reports are available only when you request an edit (PYEDT) or pay (PYCTF) for the employee’s frequency.
  - PAT (Payroll Audit Tool) Reports (Payline):
    - Deduction Change Comparison Report – Compare the Report 10 file from this edit to the last Report 10 file from final pay to view all of the deductions that have changed between the two files by employee number.
- The following CIPPS Ad-Hoc Reports are requested on screen HSRUT:
  - Report 906 Potential Cash Match Exceptions for Salaried Employees – This report will list employees with an incorrect cash match amount

### **Tax Change Review Tools**

- The following reports are available only when you request an edit (PYEDT) or pay (PYCTF) for the employee's frequency.
- PAT (Payroll Audit Tool) Reports (Payline):
  - Tax Change Comparison Report – Compare the Report 10 file from this edit to the last Report 10 file from final pay to view changes in tax amounts when the employee has had no change in gross pay. Note: changes to the amount of taxes taken can also be caused by a change in the amount of pre-tax deduction.

**NOTE: IT IS BEST TO REVIEW TAX MASTERFILE CHANGES ONLINE USING THE SOURCE DOCUMENT**

**Batch Processing Review Tools  
(HUA03, HUE01, HUC01, HUD01)**

- The following reports are automatically run the night that batch transactions are keyed:
  - CIPPS Reports – Reportline:
    - Report 1001 – Input Transaction List - Lists all transactions that were keyed into CIPPS. Transactions will be grouped by batch number. If they had no batch number (example, manual pay sets) they will appear in batch “0”. If the transaction does not pass the initial edits, some are deleted and some will be listed on the 1001 with an Error.
    - Report 1009 – Employee Diagnostics Listing– Transactions that pass the initial editing (i.e. no error on Report 1001) but were deleted due to additional edits as well as those that had an error on the 1001 will appear here with an explanation.
- The following reports are available only when you request an edit (PYEDT) or pay (PYCTF) for the employee’s frequency:
  - CIPPS Reports – Reportline:
    - Report 1005 – Company Batch Summary– Lists all of the batch numbers and the status of those batches. If a batch is listed as “Out of Balance” it will not stop the batch from processing. However, “Out of Balance” batches should be reviewed to determine the cause of the error. In most cases, a transaction may have had an error and was deleted by CIPPS (as shown on the 1001 and the 1009 Report).
    - Report 1004 – Transaction Balance Report– Lists all of the transactions accepted in the pending file by batch number.
    - Report 10 – The resulting pay and deduction amounts will be shown here.
  - PAT (Payroll Audit Tool) Reports (Payline):
    - Salary/Rate Change Comparison– Employees with a Regular Pay Override should appear as well as VSDP and WC recipients. If the entire semi-monthly salary is not accounted for on the listing – check to see if the retirement overrides processed correctly.
    - Special Pays Listing –provides a printout of all the special pays (9XX transactions keyed on HUE01 and 7XX transactions keyed on HUC01) that were paid on the Report 10 file selected.
    - Deduction Change Comparison Report – This report lists changes in deduction amounts between the two Report 10 files selected. Most HUD01 overrides will show here.
    - Summary Report 10 – Employee Totals for Wage Employees – This report will list all the rate and hours keyed for wage employees on the selected Report 10 File.

### Manual Pay sets and Deduction Refund Review Tools

- The following reports are automatically run the night that manual pay sets are keyed:
  - CIPPS Reports – Reportline:
    - Report 1001 – Input Transaction List – Lists the manual payset lines that were keyed. Some items may error on the 1001. If these items are for blank lines that were not used on the Manual Payset, it is OK.
    - Report 1009 – Employee Diagnostics Listing – Manual Pay sets that were deleted because they had an error will appear here with an explanation.
    - Report 1006/1010 – Change Listing– Successful manual pay sets update the employee’s tax accumulations on the masterfile the NIGHT that a manual payset is keyed. Changes to the masterfile are visible on this report immediately.
- The following reports are available only when you request an edit (PYEDT) or pay (PYCTF) for the employee’s frequency:
  - CIPPS Reports – Reportline:
    - Report 1004 – Transaction Balance Report– Lists manual pay sets under Batch “0”.
    - Report 10– The manual payset will be shown as a second line. If the manual payset does not appear on the Report 10 and it does not show on the Report 1009 with an error (this would have occurred the day it was keyed), then it is stuck in pending. Manual Pay sets will not process unless:
      - The employee is in Active (1) Status on HOBES.
      - The employee is receiving regular pay. If the employee is not due any regular pay, you must key a penny on HUA03 to process the manual payset.
  - PAT (Payroll Audit Tool) Reports (Payline):
    - Salary/Rate Change Comparison– Manual Pay sets will be added to employees’s regular pay and will show here as a combined total.
    - Special Pays Listing –If a special pay was changed with a manual payset, it will be listed here.
    - Deduction Change Comparison– If a deduction was refunded, it will be listed here.
