If an exhibitor requires a service-contracting firm other than the designated contractor to install, dismantle, or work on their booth, notification must be provided to Arata by 11 April 2014. If credentials are not on file, contractors may be prohibited from entering the show floor. **AIAA will not supply information to display houses who are “bidding” for your business. The exhibitor must make any request for information required in writing to Arata.**

An exhibitor may employ the services of an exhibitor-appointed contractor to install and dismantle the display, providing the exhibitor and the independent installation and dismantling contractor comply with the following requirements:

The exhibitor-appointed contractor must abide by all show and building rules and regulations. **IT IS THE EXHIBITOR’S RESPONSIBILITY TO MAKE SURE ARATA HAS THIS INFORMATION WHICH IS PROVIDED IN THIS EXHIBITOR MANUAL AND SENT TO THE EXHIBITOR.**

- 1) The exhibitor must notify ARATA of the intention to use an independent contractor by **11 April 2014**, furnishing the name, address, and telephone number of the firm as well as the name(s) of the onsite appointed contractor(s).
- 2) The exhibitor-appointed contract must abide by all show and building rules and regulations. **IT IS THE EXHIBITOR’S RESPONSIBILITY TO MAKE SURE THE NON OFFICIAL CONTRACTOR HAS THIS INFORMATION WHICH IS PROVIDED IN THIS EXHIBITOR MANUAL.**
- 3) The nonofficial contractor must have all licenses, permits, or bonding required by the federal, state, county or municipal governments, and the exposition hall management prior to commencing work, and shall provide Arata with evidence of compliance.
- 4) **The nonofficial contractor must have purchased, and have in effect, insurance, and have provided Arata with a copy of a valid insurance certificate within 30 days of the event. AIAA must be named as additional insured.** This insurance must be maintained in a financially sound insurance company admitted and licensed to provide insurance in the state where the exhibitor-appointed contractor is domiciled for the following coverage:
 - a. **An active worker's compensation insurance policy covering all permanent employees and all temporary labor hired to perform work on this event.**
 - b. **Comprehensive general liability insurance against claims for bodily injury or death and property damage of not less than \$1,000,000.00 each occurrence.**
 - c. **Automobile liability insurance of not less than \$500,000.00 for bodily injury and property damage, each occurrence.**
- 5) The nonofficial contractor must follow the scheduled work times or pay any additional cost incurred because of extended hours.
- 6) The nonofficial contractor must furnish Arata with a list of employees, who will be working on the exposition floor, and see that they have and wear at all times the temporary set-up and tear-down badges that will be provided by AIAA.
- 7) The nonofficial contractor must not solicit business on the show floor.
- 8) The nonofficial contractor must confine their operation to the exhibit area of their client(s). No service desk, storage areas, or other work facilities will be located elsewhere at the exhibition site.

The nonofficial contractor must coordinate activities with the official service contractor. Appeals of the decisions of the show manager will be made to AIAA, who will render the final and binding determinations.
- 11) Violation of above stated rules will lead to expulsion from the exhibit hall.

General Rules

International Traffic in Arms Regulations

AIAA exhibitors are reminded that their exhibits at the conference could be controlled by the International Traffic in Arms Regulations (ITAR). U.S. Organizations are responsible for ensuring that technical data they display via their exhibits in open forums to non-U.S. Nationals in attendance should be compliant with the ITAR export restrictions. U.S. Nationals are likewise responsible for ensuring that they do not discuss ITAR export-restricted information with non-U.S. Nationals in attendance.

Booth Staffing

Exhibitors agree to abide by the installation and dismantling times set by AIAA and to have at least one person staffing their booths during published exhibition hours. Exhibitors who vacate their booths prior to the published dismantle time without permission of the show manager may be subject to penalties applied at the discretion of AIAA. The penalties can range from loss of priority status to exclusion from any and all AIAA events.

Operating Area

AIAA reserves the right to impose limitation on noise levels and any other method of operation, which becomes objectionable. Any distribution of literature or samples shall be limited to the exhibitor's booth.

Carpet/ Floor Covering

Floor covering is required for all exhibits at all AIAA events. The Exhibit hall at the Pasadena Convention Center is not carpeted.

Children

For safety reasons, no persons under the age of 18 are allowed in the exhibit hall without parental supervision at any time.

Shoes

For your own safety, **no open toe shoes or sandals of any kind are permitted in the exhibit hall during move-in or move-out.**

Display Rules

In-line Booths

In-line booths are generally arranged in succession and exposed to an aisle on one side. In-line booths are sometimes referred to as “Linear Booths”.

Size

The standard In-line booth size in the US is 10'x10' (3.05m x 3.05m) although there are exceptions where the depth of the booth will vary and the space offered is 9'x10', 8'x10' and in some extreme cases even 5'x10'. These variations are usually as a result of trying to maximize a small space.

Rules Applying to In-line Booths

Without concern for the number of In-line Booths used (i.e. 10x20, 10x40), booth displays should be set up in such a way so as to not obstruct the sight lines of other booths. The maximum height of 8 feet is allowed in the rear ½ of the space, and a maximum height of 4 feet in the front ½ of the space to the aisle. Note: when three or more In-line booths are utilized in combination of a single space, the 4 foot height limitation only applies to that portion of the booth within 10' of an adjoining booth. In other words for any In-line booth space longer than 30', the 4 foot restriction is only applied to the 10' booth sections on the left and right extremes of the space.

Variations to In-line Booths

There are two variations to In-line booths and they are the Corner Booth and the Perimeter Booth. A Corner Booth is defined as an In-line booth that is exposed to aisles on two sides. All rules that apply to standard In-line booths apply to Corner Booths without exception. A Perimeter Booth is an In-line Booth that backs to a wall or otherwise has no other booths behind it. A Perimeter Booth may deviate from standard In-line Booth rules only to the extent that the maximum backwall height may go as high as 12'.

Hanging Signs

Hanging signs of any type are not permitted for In-line booths in any configuration.

End-cap Booths

An End-cap booth is defined as two In-line booths that are exposed to aisles on three sides.

Rules Applying to End-cap Booths

While some events do allow the use of End-cap booths, the rules that are generally applied in order to maintain sight-lines tend to be quite confusing and are extremely limiting to the point where the usable space is only 50% of the total. To eliminate the issues that come with them, End-cap booths are not permitted.

Peninsula Booths

A Peninsula Booth is composed of at least 4 contiguous booths and is exposed to aisles on three sides. There are two variations to the Peninsula Booth; a) one which backs up to In-line booths and b) one which backs up to another Peninsula Booth and are sometimes referred to as a "Split-Island Booth".

Size

Peninsula Booths are generally 20' x 20' or larger but can vary in one dimension depending on the standard booth established for the event, i.e. if the standard In-line booth is 8' x 10' then a Peninsula Booth would be 16' x 20' or larger.

Rules Applying to Peninsula Booths

In-line - When a Peninsula Booth backs to two In-line booths, backwall height is restricted to 4 feet within 5 feet of each aisle to allow for reasonable sight-lines for the adjacent In-line booths. The maximum height is 16' including signage for all other parts of the space.

Split-island – When a Peninsula Booth shares a common backwall with another Peninsula Booth, the entire cubic content of the space may be used without any backwall sight-line restrictions up to a maximum height of 16'.

Hanging Signs

Hanging signs are permitted to a maximum height of 16' (to the top of the sign) and should be set back at least 10' from adjacent booths. Those exhibitors who wish to use a hanging sign must submit a request (written request, and any applicable line drawings or renderings) to AIAA at least 30 days prior to installation. All hanging signs must be installed by the official general service contractor/ decorator or their designee (in some cases this will be the facility itself). In other words, exhibitors are prohibited from contracting to have their sign hung by any entity not designated in the service kit.

Island Booths

An Island booth is any size booth that is exposed to aisles on all sides.

Size

Island Booths are generally 20' x 20' or larger.

Rules Applying to Island Booths

The entire cubic content of the space may be used up to the maximum height of 16'.

Hanging Signs

Hanging signs are permitted to a maximum height of 16' (to the top of the sign) and should be set back at least 10' from adjacent booths. Those exhibitors who wish to use a hanging sign must submit a request (written request, and any applicable line drawings or renderings) to AIAA at least 30 days prior to installation. All hanging signs must be installed by the official general service contractor/ decorator or their designee (in some cases this will be the facility itself). In other words, exhibitors are prohibited from contracting to have their sign hung by any entity not designated in the service kit.

Other Things to Consider

More on Hanging Signs

PLEASE NOTE: Hanging points for signs may differ from actual ceiling heights and may depend on the weight of the sign. This information must be requested of the general service contractor/ decorator BEFORE asking for approval by show management. As a general rule, AIAA allows the top of the hanging sign to be no more than 16 feet from the floor when being hung over an island or peninsula booth. This is a *general rule* and varies depending on ceiling height and other factors. Please get the appropriate approvals before designing your display and hanging signs!!

Structural Integrity

Displays should be designed, constructed and erected in such a way that will withstand normal contact caused by neighboring exhibitors, hall laborers or vibration caused by equipment such as forklifts and boom lifts. Exhibit structures should also be able to tolerate wind effects that may occur in the exhibit hall when freight doors are open. Refer to local building codes that regulate temporary structures.

Multi-story Exhibits

A Multi-story Exhibit is a display where the structure is in excess of 12 feet, and includes double and triple-decker booths. Some venues require prior approval of multi-story exhibits by the facility and/or applicable local government authorities because it is deemed to be a “structure” for building purposes. A building permit based on an application and drawings prepared and submitted by a licensed architect or engineer may need to be obtained. It is the exhibitor’s responsibility to make sure that they are in compliance with local building regulations and as this can be a lengthy process to start early on to ensure that all time constraints are met.

Towers

A tower is a freestanding exhibit component. Towers taller than 8 feet should have drawings available for inspection. As with multi-story exhibits local regulations in many facilities strictly govern the use of towers. A building permit may be required.

Americans with Disabilities Act (ADA)

All exhibiting companies are required to be in compliance with the Americans with Disabilities Act (ADA). Information regarding ADA compliance is available online from the US Department of Justice at www.usdoj.gov/crt/ada/infoline.htm

Flammable and Toxic Materials

All materials used in the construction of displays should be made of fire retardant materials and be certified as flame retardant. Materials that cannot be treated to meet the requirements should not be used. A flame proofing certificate should be available for inspection. It is the exhibitor’s responsibility to dispose of any waste products they generate during the event in accordance with guidelines established by the US EPA and local authorities.

Electrical

Every exhibit facility has different electrical requirements and many require exhibitors to obtain all electrical connections (extension cords, power strips etc.) from them. In addition to reviewing the buildings requirements, it is suggested that these minimum guidelines be followed:

- All 110-volt wiring should be grounded three-wire.
- Wiring that touches the floor should be “SO” cord (minimum 14-gauge/three-wire) flat cord, which is insulated to qualify for “extra hard usage”.
- Cord wiring above floor level can be “SJ” which is rated for “hard usage”.
- Using cords normally made for use in homes are not recommended and are often prohibited. Cube taps are also not recommended and frequently not permitted.
- Power strips (multi-plug connectors) should be UL approved, with built-in over-load protectors.

Lighting

The following guidelines should be considered when determining booth lighting:

- No lighting, fixtures, lighting trusses or overhead lighting are allowed outside the boundaries of the exhibit space.
- Lighting must be directed to the inner confines of the booth space. Lighting should not project onto other exhibits or show aisles.
- Potentially harmful lighting elements, such as ultraviolet lighting or lasers, must comply with facility rules and must be approved in writing by AIAA.
- Lighting effects should be tasteful and not interfere with other exhibitors or otherwise detract from the general atmosphere of the event.

SAFETY

SAFETY IS VERY IMPORTANT FOR EVERYONE WORKING IN THE EXHIBIT HALL

Arata Expositions, Inc. is committed to safety and values it throughout our organization and demonstrates it in the work we perform. We request that you make safety a part of your activities during the show. If you see something unsafe or that presents a hazard, please bring it to the attention of an Arata Expositions employee. By reporting unsafe or hazardous conditions and by following the safety guidelines below you will be doing your part in creating a safe work environment.

SAFETY GUIDELINES:

- Only authorized personnel and employees allowed, all others prohibited.
- This is an active work zone. Please treat the show areas during move-in and move-out as an active construction zone. Appropriate attire includes footwear with hard soles that protects against potential injuries from site debris, and limits potential for slip and falls. Heels, flip flops and open toed shoes are inappropriate and violate safety standards.
- All exhibitors and attendees enter at their own risk. Do not enter the dock/yard areas.
- Never run in the exhibit hall. Please walk. Watch your step in aisles.
- Smoking is prohibited in the exhibit hall and dock areas.
- Stay clear of dock doors.
- Stay clear of heavy machinery.
- Never stand on furniture. The furniture is not designed to support your standing weight.
- Clean up or report spills.
- Keep aisles free and clear of any and all debris.
- Practice good housekeeping.
- Check electrical cords for damage. Do not overload outlets or plugs.
- Protect valuables at show site. Please keep all expensive or valuable items secured. Unattended items in booths are easy theft targets.
- Keep fire exits clear and report any fires immediately.

If you notice anything unsafe please contact an Arata employee immediately.

During move in and move out individuals under the age of 18 are prohibited from being on or around the show floor. Show sites during these times are similar to a construction zone and considered to be hazardous. OSHA regulations prohibit minors from being present in a hazardous work environment.

FILE TYPES

Digital files (logos, photos, finished layouts, etc.) should be saved or exported from your design application to PDF, EPS, or TIFF with a minimum resolution of 300dpi at 50% of the final desired production size. The higher the resolution provided, the better the results. JPEG's are less desirable, but can be accepted if the resolution is 300 dpi or higher. Placed images are to be embedded rather than linked. If files are linked, be sure to send along the linked files.

Do not submit InDesign files (.indd), Word (.doc), PowerPoint (ppt.), and GIF files, or any file formatted for or taken from a website. Web graphics are not suited for large format printing. This is a very common error and should be avoided.

FONTS

All fonts should be converted to outlines or paths. Send font files if there is an anticipation of any changes so additions can be made to the provided art.

PROOFING

A clean hardcopy proof and a PDF proof should be sent along with the print files for reference. Files provided without proofs will be printed exactly as provided. Any re-prints necessary due to proofs not being provided are done at additional cost to the client.

LABOR REGULATIONS

SPACEOPS 2014

LABOR/UNION REGULATIONS

We have provided the following information to acquaint you with specific guidelines for labor. Trade shows, conventions and special events in this vicinity are governed by local union contracts. Please review this information in order to better understand the applicable union jurisdictions. If you have any questions once you have read this, please address them directly to Arata Expositions, Inc.

GENERAL INFORMATION

All necessary union labor is available to the exhibitor on advance order by use of the forms provided in this kit. Union labor is also available at the Exhibitor Service Center during installation, show hours and dismantle.

LOCAL DECORATOR UNION

Local Unions have the jurisdiction for the erection, cleanup, dismantling, repair and building of all exhibits. These exhibits can go from floor to ceiling, and include headers; floor covering of all kinds; aisle covering; hanging of decorative material from the ceiling; painting/hanging of all types of signs; pictorial and scenic paintings; changing electric light bulbs in exhibits; repairing of all animation; hanging/mounting all electrical fixtures as long as they are part of the exhibit and not just rented for the immediate show.

Exhibitors have specified rights. For example, they are permitted to arrange their own manufactured products for display and related sales literature within their booth for as long as necessary.

One full-time employee of the exhibiting company may set their exhibit provided that this person can finish in ½ hour. They may not use power tools. After the ½ hour is up, exhibitors must use union labor. Your labor requirements can be ordered on the enclosed Order Form for Installation and Dismantling Labor.

FREIGHT HANDLING:

Arata Expositions, Inc. will be responsible for the loading and unloading of all trucks, trailers, common and contract carriers as well as the handling of empty crates and the operation of handling equipment. Union jurisdiction allows individually hand carried items only, by one person in one trip, and will not permit exhibitors use of dollies, hand trucks or pushcarts.

Our Material Handling Department is responsible for maintaining in and out traffic schedules at the show site. Even local exhibitors should clear all movements of exhibit materials through this department as we will have priority at the unloading areas at all times.

SAFETY

Standing on chairs, tables or other rental furniture is prohibited. This furniture is not engineered to support your standing weight. Arata Expositions cannot be responsible for injuries or falls caused by the improper use of this furniture. If assistance is required in the installation or dismantle of your booth, please order labor on the Display Labor Order Form and the necessary ladders and tools will be provided.

GRATUITIES

Arata Expositions requests that exhibitors do not tip our employees. Do not give coffee breaks other than mid-morning and mid-afternoon when union employees have a fifteen minute paid break. Any attempts to solicit a gratuity by an employee for any service should be reported immediately to an Arata supervisor. Employees of Arata are paid at an excellent wage scale denoting a professional status, and we feel that tipping is not necessary. This applies to all Arata employees.

SPACEOPS 2014

LIMITS OF LIABILITY

(page 1 of 2)

1. **ACCEPTANCE OF TERMS:** It is understood that acceptance of the following terms and conditions will be construed when any of the following conditions are met:
 - The Exhibit Shipping Information & Material Handling Rate Schedule is signed; or
 - Exhibitors materials are delivered to either the Arata Expositions, Inc. (hereafter referred to as "AEI") warehouse or show site for which AEI is the Official General Contractor for the event; or
 - When an order for any rental equipment and/or labor is placed by the exhibitor with AEI
2. **AEI'S RESPONSIBILITIES:** The responsibility of AEI with respect to the goods stored hereunder shall be limited to the exercise of ordinary care and diligence by its officers and employees in receiving, handling, keeping and delivering the same. For purposes of this contract, AEI means their employees, officers, directors, agents, assigns, affiliated companies, and related entities including, but not limited to, any subcontractors AEI may appoint. AEI shall not be liable for loss or damage by natural elements, fire, heat, frost, damp, dust, moths, rust, leakage, deterioration, acts of God, vandalism, theft, civil disturbance, power failure, acts of terrorism or war, labor disputes, lockouts or work stoppages of any kind nor for other causes beyond AEI's reasonable control.
3. **AEI LIABILITY:** It is understood that AEI and its subcontractors are not insurers. The exhibitor is responsible for obtaining the proper insurance to cover their property. AEI does not provide for full liability should loss or damage occur. AEI's liability shall be limited to the physical loss or damage to the specific article, which is lost or damaged. In any case, the liability of AEI is limited to \$.30 per pound per article, with a maximum of \$50.00 per item, and a maximum of \$1,000 per shipment, whichever is less, as agreed upon damages and exclusive remedy. Provisions of this paragraph shall apply if loss or damage, regardless of cause or origin, results directly or indirectly to property through performance or nonperformance of obligations imposed by the offering of services to Exhibitors, or from negligence, active or otherwise, by AEI, its subcontractors or employees. This applies while these goods are in AEI's warehouse, in vehicles for delivery or at show site. AEI shall not be liable to any extent whatsoever for any actual, potential or assumed loss of profits or revenues, or for any collateral costs, which may result from any loss or damage to an exhibitor's material which make it impossible or impractical to exhibit same.
4. **EXHIBITORS ARE URGED TO CARRY ALL-RISK INSURANCE COVERING YOUR MATERIALS AGAINST DAMAGE, LOSS AND ALL OTHER HAZARDS FROM THE TIME SHIPMENTS ARE MADE PRIOR TO THE SHOW UNTIL SHIPMENTS ARE RECEIVED BACK AFTER THE SHOW. THIS CAN GENERALLY BE DONE BY ADDING "EXPOSITION FLOATERS" TO EXISTING INSURANCE POLICIES. IT IS UNDERSTOOD THAT AEI IS NOT AN INSURER. THAT INSURANCE, IF ANY, SHALL BE OBTAINED BY THE EXHIBITOR AND THE AMOUNTS PAYABLE BY AEI HEREUNDER ARE BASED ON THE VALUE OF THE MATERIAL HANDLING SERVICES AND THE SCOPE OF AEI LIABILITY AS SET FORTH ABOVE.**
5. **PACKAGING:** AEI shall not be responsible for damage to uncrated material, material improperly packed, concealed damage, pad wrapped or shrink-wrapped materials, glass breakage, or carpet in bags or poly. Additionally, AEI shall not be responsible for crates and packaging that are unsuitable for handling, in poor condition, or have prior damage. Crates and packaging should be designed to adequately protect contents for handling by forklifts and similar means.
6. **INSURANCE CLAIMS:** The exhibitor must report the damage or loss at the AEI service desk at show site and complete our paperwork documenting the incident. Failure to complete the proper paperwork at show site will result in the claim being waived. SPACEOPS 2014

LIMITS OF LIABILITY

(page 2 of 2)

7. **INBOUND SHIPMENTS:** After the exhibit materials are placed in the booth, AEI will not be responsible for condition, count or content. Please remember that there may be a lapse of time between the delivery of shipments to the booth and the arrival of the exhibitor or exhibitor's representative. AEI will not be responsible or liable for any loss, damage, theft, or disappearance of exhibitor's materials after same have been delivered to the exhibitor's booth at show site. We suggest exhibitors arrange for security services for their booth.
8. **EQUIPMENT REQUIRING SPECIAL EQUIPMENT:** Fourteen days advance notice must be provided to AEI by the exhibitor in order to obtain special devices to properly load, place or reload equipment requiring such care. AEI will not be liable for any damage incurred during the handling of equipment requiring special devices if this advance notice has not been received by AEI.
9. **EMPTY CONTAINER LABELS:** The exhibitor is responsible for affixing EMPTY labels (available at the AEI service desk) to containers to be stored during the show. It is understood that these labels are used for empty storage only and AEI assumes no responsibility or liability for loss or damage to contents while containers are in storage or for mislabeled containers.
10. **CLASSIFYING SHIPMENTS:** AEI cannot be responsible for classifying shipments. After shipments are tendered to a carrier for shipment, AEI cannot be responsible for delivery time or damage or loss to property.
11. **OUTBOUND SHIPMENTS:** All shipments received at the close of the show are subject to a final count. We will count and ship pieces as we find the shipment when we remove them from the booth to load out. All Material Handling Agreements submitted to AEI by the exhibitor will be checked at the time of pick up from the booth. Corrections will be made where any discrepancies exist between the quantities of pieces listed by the exhibitor and the actual count of such items in the booth at the time of pick up. AEI is not responsible for shipments left in booths by exhibitors. We suggest exhibitors arrange for security services for their booth. **PLEASE NOTE:** Where an exhibitor indicates choice of carrier for pickup, it is the exhibitor's responsibility to arrange with such carrier for said pickup service. In order to expedite removal of freight from the show site, AEI shall have the authority to change designated carriers, if such carriers do not pick up on time or refuse to accept shipments. Exhibits not removed from the show on removal day and on which we have no shipping information will be returned to our warehouse at an additional charge to await disposition. AEI assumes no liability as a result of such rerouting or handling.
12. **PAYMENT OF SERVICES:** The exhibitor agrees, in the event of a dispute with AEI or its subcontractors relative to any loss or damage to any of the exhibitor's freight or equipment, that the exhibitor will not withhold payment in any amount due to AEI for freight handling services or any other services provided by AEI or its subcontractors as an offset against the amount of the alleged loss or damage. Instead, the exhibitor agrees to pay AEI prior to the close of the show for all such charges and further agrees that any claim the exhibitor may have against AEI or its subcontractors shall be pursued independently by the exhibitor as a complete, separate transaction to be resolved on its own merits.
13. **JURISDICTION:** This agreement shall be deemed to have been made in the State of Maryland, and that any and all performance thereunder, or breach thereof, shall be interpreted, governed and construed pursuant to the laws of the State of Maryland, and the parties to this agreement consent that the Circuit Court for Montgomery County, Maryland shall be the sole forum where any cause of action arising under, or in any way related to, this agreement may be instituted.
14. **MISCELLANEOUS:** Exhibitor, as a material part of the consideration to AEI for material handling services, waives and releases all claims against AEI, its employees, agents, officers and directors, with respect to all matters for which AEI has disclaimed liability, pursuant to the provisions of this contract. The exhibitor acknowledges that he or she has read this agreement, understands it and agrees to be bound by its terms, and further agrees that it is the complete and exclusive agreement between the parties. The invalidity or enforceability of any provision hereof shall not affect, modify, or impair the validity and enforceability of all other provisions herein.

TIPS FOR MATERIAL HANDLING SPACEOPS 2014

HELPFUL HINTS

1. Ship prepaid – collect shipments will not be accepted at either the warehouse or show site.
2. If you ship by way of your own truck or car, it is important to have a delivery ticket prepared indicating the piece count and weight. You are invoiced for material handling based on weight. If no information is available, the weight is estimated by the unloading crew.
3. Consolidate as many pieces as possible into one shipment to avoid being billed for several minimum shipments. To reduce material handling costs (Material Handling), ship all of your exhibit materials in ONE shipment. Remember, there is a 200 pound minimum charge per shipment. See the example below.
4. Please be sure to obtain and complete an AEI Bill of Lading. Bills of Lading will be made available at the AEI service center on the final show day. Please be sure to return your completed Bill of Lading and any additional outbound information before you leave the show floor.
5. Should you choose to use a carrier other than the official show carrier, please be certain to contact them with any necessary pick-up information. **AEI is not responsible for contacting outside carriers for pick-ups.**
6. **BE SURE YOUR MATERIALS ARE INSURED** from the time they leave your firm until they are returned after the show. It is suggested that exhibitors arrange all risk coverage. This can be done by adding exposition floaters to existing policies. Contact your insurance representative. **BE SURE YOUR LIABILITY AND PROPERTY INSURANCE IS IN EFFECT DURING TRANSIT, STORAGE AND WHILE AT CONVENTION SITE.**

SPECIAL HANDLING

SPACEOPS 2014

Special handling applies to shipments that are loaded by cubic space and/or packed in such a manner as to require additional labor/handling, such as ground unloading/loading, constricted space unloading/loading, designated piece unloading/loading, carpet/padding only shipments or stacked shipments. Also included are multiple shipments, alternate delivery locations, mixed loads, and shipments without individual bills of lading. Shipments loaded in this manner require additional time, labor, or equipment to unload, sort and deliver. All Federal Express, Airborne Express, DHL and UPS shipments require special handling.

SPECIAL HANDLING DEFINITIONS

Ground Unloading/Loading:

Vehicles that are not dock height, preventing the use of loading docks, such as personal owned vehicles, U-hauls, vans, flat bed trailers, double drop trailers, company vehicles with trailers that are not dock level, etc.

Stacked Shipments:

Shipments loaded in such a manner requiring multiple items to be removed to ground level for delivery to booth. Stacked or "cubed out" shipments, loose items placed on top of crates and/or pallets constitute special handling.

Constricted Space Unloading/Loading:

Trailer loaded "high and tight" shipments that are not easily accessible. Freight that is loaded to full capacity of trailer – top to bottom, side to side. One example of this is freight that is loaded down one side of a trailer that must be by passed to reach the targeted freight.

Designated Piece Unloading/Loading:

Drivers that require the loading crew to bring multiple pieces of freight to the rear of the trailer to select the next piece, having to remove freight from the trailer then reload to fit or the trailer must be loaded in a sequence to ensure all items fit.

Mixed Loads:

Shipments of mixed crated and uncrated goods, where the percentage of uncrated is minimal and does not warrant the full uncrated rate for the shipment, but does require special handling.

Crated vs. Uncrated:

Crated shipments are those that are packed in any type of shipping container that can be unloaded at the dock with no additional handling required. Such containers include crates, fiber cases, cartons, and properly packed skids. An uncrated shipment is material that is shipped loose or pad-wrapped, and/or unskidded without proper lifting bars and hooks.

Multiple Shipments:

Shipments on a carrier that are intermingled, or delivered in such a manner that additional labor is needed to sort through and separate the various shipments on a truck for delivery to a booth.

Alternate Delivery Location:

Shipments that are delivered by a carrier that requires all or partial delivery of the shipment to a different level in the same building, or to other rooms in the same facility.

Carpet Only Shipments:

Shipments that consist of carpet and/or carpet padding only require special handling because of additional labor and or equipment to unload.

Improper Paperwork / No Documentation:

Shipments that arrive from a small package carrier (including among others, Federal Express, Airborne Express, DHL, and UPS) without an individual Bill of Lading, requiring additional time, labor and equipment to process. Shipments received without paperwork will be delivered without guarantee of piece count or condition. Shipments that arrive without machine printed documentation showing the weight of the shipment.

Improper Weight:

Shipments that come in and are re-weighed showing the documentation was incorrect with a lower weight than the actual weight. These shipments get charged special handling plus a weight ticket charge.
