Academic Plan to regain Satisfactory Academic Progress for financial aid

This worksheet will assist you in developing a plan to regain SAP. The qualitative requirement to maintain SAP is to have earned a cumulative GPA of 2.0 and the quantitative measurement is to have earned 67% of your attempted credits.

Step 1. Enter your cumulative credits and your current Quality Points/Quality Hours

The following fields from your **transcript** must be entered to obtain a calculation

Attempted Hours			**Quality Points**	
Earned Credit Hours			**Quality GPA Hours**	

This is your current cumulative GPA (Quality Points divided by Quality Hours)

Step 2. Estimate your academic progress for the FALL 2012 semester (expected credits earned)

Enter classes	Attempt credits	Earned Credits	Estimate grade	GPA
Total Fall				
Add Credits from above				
Total Cumulative				

You must meet these TWO requirements before receiving Spring financial aid

Step 3. Estimate your academic progress for the SPRING 2013 semester (expected credits earned)

Enter classes	Attempt credits	Earned Credits	Estimate grade	GPA
Total Spring				
Add Credits (from total cumulative credits above)				
Total Cumulative				

Step 4. Estimate your academic progress for the SUMMER 2013 semester (expected credits earned)

Enter classes	Attempt credits	Earned Credits	Estimate grade	GPA
Total Summer				
Add Credits (from total cumulative credits above)				
Total Cumulative				

This is your projected GPA at the end of the Summer 2013 and prior to the Fall 2013 semesters

This is your projected earned credit requirement at the end of the Summer 2013 and prior to the Fall 2013   (TOTAL Cumulative earned credits at the end of Summer should be greater or = to this amount)

(cumulative attempted credits	0 x 67%	Equals	)
