# Instructions for Advance Construction Equipment Declaration

## General Instructions

### Purpose of Form

This form is used for taxpayers to declare construction equipment which will be located in the City of Pueblo ("City") and report any use tax that may be due from the utilization thereafter. A declaration must be made even if no use tax is due.

### Due Date

Construction equipment must be declared to the City prior to or on the date the equipment is first located in the City. Any use tax due from such use must be paid at the time of declaration in order for the declaration to be considered as filed on time.

### Declaration After-the-Fact

***Taxpayers declaring equipment after it has been located in the City who have not included such equipment on a previously filed advance declaration must file a standard Construction Equipment Declaration form.*** Equipment declared after the fact is not eligible for the pro-rated amount of use tax and is subject to penalties and interest for late payment. A standard *Construction Equipment Declaration* form may be obtained from the Sales Tax section of the City website or by contacting the Sales Tax Division.

### Reminders

**Amended Declaration(s) Required.** Taxpayers must report changes to original declarations by filing amended declarations at least once every ninety (90) days after the equipment is first located in the City. For projects less than ninety (90) days in duration, an amended declaration is required no later than ten (10) days after substantial completion of the project. Indicate whether the declaration is an original or amended declaration in the upper right side of the form. Equipment not previously declared must be declared on a separate original declaration filed prior to or on the date of its location in the City even if it has been less than 90 days since the previous filing.

**Equipment under \$2,500 need not be declared.** Taxpayers need not declare any existing equipment for which the purchase price was less than \$2,500. Such equipment shall be presumed to have been purchased in a municipality having a sales or use tax rate at least equal to the rate established and such tax shall be presumed to have been paid to that municipality. This exemption does not apply to the sales/use tax due on rented or leased tools or equipment, or tools or equipment purchased directly for and charged directly to a specific job or project in the City.

**Claim for Refund Required for Overpayment.** If after amending a declaration, the taxpayer discovers that an overpayment of use tax has occurred, a signed *Claim for*

*Refund* form must be submitted with the amended declaration. A *Claim for Refund* form may be obtained from the Sales Tax section of the City website or by contacting the Sales Tax Division.

**Signature required.** The person completing the declaration on behalf of the taxpayer must sign and date the form at the bottom. A printed name is also required. If the taxpayer is not a natural person, the title of the officer or agent completing the form on behalf of the taxpayer must also be printed on the form. Forms without a signature will be returned and may not be considered timely filed.

---

## Specific Instructions

**Lines 1 thru 6 – Taxpayer Information.** Print the legal name, the trade or other name the taxpayer is known as, and the mailing address of the taxpayer. For declarations of natural persons or sole proprietorships, print the last name followed by the first name on line 1.

**Line 7 – City Account Number.** If the taxpayer is licensed with the City, list the 7 digit City account number.

**Line 8 – Project Address.** List the street address of the project or job in the City.

**Line 9 – Anticipated Date of First Location in the City.** List the date that construction equipment will be or is anticipated to be first located in the City. This date will determine the date that use tax is due (see *Due Date* above).

**Note:** Some taxpayers may wish to defer the payment of use tax for equipment that will not be located in the City until later in the job or project. This can be accomplished by filing separate declarations for each piece of equipment as it is located in the City. *In any case, each piece equipment must be declared prior to or on the date of its location in the City.*

**Lines 10 – 20 (and additional sheets if necessary).** *Complete one line for each piece of equipment.*

**Column a – Equipment Description & Identification Number.** List a general description for the piece of equipment along with an identification number that may be used to trace the equipment to the taxpayer's purchase records such as a serial number or asset tag number.

**Column b – Days in City.** List the number of days the equipment will be used in the City. For original declarations, list an anticipated number of days.

**Column c – Purchase price.** List the full original purchase price of the equipment.

**Note:** Use tax is due on the full original purchase price of the equipment regardless of its age or condition at the time of first use in the City. *Do not list a depreciated value.*

**Column d – Municipal Credit.** Credit may be taken against City of Pueblo use tax for legally imposed sales or use taxes paid to other municipalities. Such credit may not

exceed the City of Pueblo use tax due. If no municipal sales or use tax has been paid on the equipment, enter a zero (0) in this column (d).

To compute the municipal credit amount, take the total of any previously paid, legally imposed municipal sales or use tax and divide this amount by 0.035. Enter the result in this column (d).

Do not include State of Colorado, RTD, cultural district (CD), football district (FD), county, or other special district sales or use taxes. Credit is allowed only for legally imposed sales or use tax previously paid to other municipalities.

For example, if a piece of equipment was purchased for \$125,000 and a sales tax of 6.1% (consisting of 2.9% State tax, 1.2% RTD/CD/FD tax, and 2.0% city tax) was legally imposed (\$2,500 in city sales tax, \$7,625 in total sales tax), the municipal credit amount would be \$71,428.57 (\$2,500 city sales tax divided by 0.035).

**Column e – Net Purchase Price.** If the amount in column d is *greater than or equal to* the amount in column c, enter a zero (0) in this column (e). If the amount in column d is *less than* the amount in column c, subtract the amount in column d from column c and enter the difference in this column (e).

**Column f – Taxable Amount.** Use tax may be prorated for equipment which will be located in the City for thirty (30) consecutive days or less provided that it is declared prior to or on the date of its location in the City. If the number in column b is *greater than 30*, enter the amount in column e in this column (f). If the number in column b is *less than or equal to 30*, divide the amount in column e by 12 and enter the result in this column (f).

Complete each column for each piece of equipment. If additional lines are needed for more than 10 pieces of equipment, attach additional schedules with the same information. For audit purposes, *do not summarize all equipment in a single line.*

**Line 21 – Total – Lines 10-20.** Enter the sum of column f for lines 10 through 20.

**Line 22 – Total Taxable Amount from Additional Sheets.** Enter the taxable amount, if any, computed on additional schedules used to detail additional pieces of equipment.

**Line 23 – Total Taxable Amount.** Enter the sum of lines 21 and 22. This is the amount subject to City use tax.

**Line 24 – Use Tax Due.** Multiply the amount in line 23 by 0.035 (3.5%, the City use tax rate). This is the amount of use tax due. This amount must be remitted on or before the 20<sup>th</sup> of the month following the date listed on line 9.

**Signature –** After reviewing the form for accuracy, sign and date the form. Print your name and title below your signature. Return the form to the Pueblo Department of Finance.

**Payment –** Checks should be made payable to the *City of Pueblo* and mailed to the address listed below. The use tax is due when the declaration is filed. The declaration and payment of use tax due must be postmarked on or before the date that equipment is first located in the City. Payments postmarked after the due date will be subject to penalties and interest.
