21. General architectural description:
This modest 1.5-story wood frame dwelling measures 21' N-S (deep) by 28' E-W (across), and has an open shed-roofed front porch on its north elevation which measures 6' N-S by 14' E-W. The house is supported by a painted cream white concrete foundation, and the foundation walls above grade are penetrated by 3-light hopper basement windows. The exterior walls on the north, east and west elevations are clad with painted cream white horizontal weatherboard siding, with painted green 1" by 4" corner boards. The south elevation wall features exposed river rock, however. The house is covered by a low-pitched side gable roof, with metal roofing material, and with painted cream white rafter ends, covered by a painted green fascia board, beneath the eaves. A red brick chimney is located on the roof ridge. A non-historic canted bay on the west elevation has one 1x1 horizontal sliding window and two flanking single-light fixed-pane windows. Windows elsewhere are either 1/1 double-hung sash or 1x1 horizontal sliders, all with painted green wood frames and surrounds. No doors or windows penetrate the south (rear) elevation. A painted white wood-paneled front door, with three upper sash lights, enters the façade (north elevation) from the shed-roofed front porch. The east end of the porch is approached by two wooden steps, and it features a tongue-in-groove wood floor, an open wood railing, painted green turned columns, and a shed roof which extends from the house roof. A painted green glass-in-wood-frame door enters the north end of the west elevation from a 2-step concrete stoop.

23. Landscape or special setting features: **This property is located on the south side of Hill Street in the block east of Grand Street. Butcher Knife Creek flows through the front yard. Two foot bridges cross the creek providing access to the house. A steep hillslope ascends behind the house to the south.**

24. Associated buildings, features or objects:

Shed

A wood frame shed, which measures 18' by 10', is located west of the house. This utilitarian structure is supported by a wood timbers on grade foundation, and its exterior walls are clad with wide, painted white, horizontal masonite type siding. The structure is covered by a shed roof with corrugated metal roofing material laid over 1x wood decking and 2x wood rafters. A set of paired, painted white, wood-paneled doors are located on the east elevation. Two 1/1 double-hung sash windows, in metal frames, penetrate the north elevation. Two 1/1 double-hung sash windows, in metal frames, penetrate the south elevation.

IV. ARCHITECTURAL HISTORY

25. Date of construction: Estimate: **1927** Actual:
- Source of information: **Routt County Assessor, Residential Property Appraisal Record**
26. Architect: **Unknown**
- Source of information: **N/A**
27. Builder: **Unknown**
- Source of information: **N/A**
28. Original owner: **Unknown**
- Source of information: **N/A**

29. Construction history:

This modest side-gabled home was constructed in 1927, according to Routt County Assessor records. An Assessor's sketch of the building reveals that a small single-stall attached garage was located on the east elevation at one point in time. The garage no longer exists, however. The canted bay window on the west elevation was probably added some years after the home's original construction.

35. Historical background:

Routt County Assessor files indicate that this residence was built in 1927. This date seems plausible given the house's architectural character and overall condition. Information regarding its earliest owners and residents has not been uncovered. Frank Squire, who is listed at this address in the 1956 Mountain States Telephone and Telegraph directory, is the earliest known resident. Mr. Squire reportedly owned the Maxwell Building at 842 Lincoln Avenue (5RT.249) in downtown Steamboat Springs for a time. Routt County Assessor files reveal that Jeffrey J. Lee owned the property in the years prior to 1986. In June of 1986, Mr. Lee sold the property to Rick Balasso who then held title for ten years before selling to Steven Roberts in October of 1996. Mr. Roberts owned the property for just two years before selling it to John P. Fulkerson in October of 1998. The property has remained with the Fulkerson family up to the present time (2009). Mr. Fulkerson, presently of Litchfield, Connecticut, sold the property to his daughter, Phoebe Brennan Fulkerson in February 2009. She is the current owner and resident.

39. Area(s) of significance: **Not Applicable**

40. Period of significance: **Not Applicable**

41. Level of significance: National: State: Local:

42. Statement of significance:

This property is historically significant for its associations with Steamboat Springs' residential development, dating from the time of its construction in the late 1920s. The dwelling is also architecturally significant, to a modest degree, for its representative rectangular-shaped side-gabled plan. Although this property's combined level of significance and integrity is not to the extent that it would qualify for inclusion in the National Register of Historic Places or in the State Register of Historic Properties, despite some loss of integrity, it may be considered eligible for local landmark designation in the Routt County Register of Historic Places.

43. Assessment of historic physical integrity related to significance:

This property displays a slightly less than optimal standard of physical integrity, relative to the seven aspects of integrity as defined by the National Park Service and the Colorado Historical Society - setting, location, design, materials, workmanship, feeling and association. A bay window on the west (side) elevation is the most notable adverse alteration.
