- The completed Student Credit Form **must** be attached to a signed, dated tax return.
- **If this form is not attached to a signed, dated return, the credit will be disallowed.**

Post Secondary Education Credit

Qualifying for the Credit

- 1) Must be a Green resident.
- 2) Must attend a “Qualifying post-secondary institution” which is defined as a “college, university, technical school, vocational school or training program whose students are eligible to receive grants and loans through programs established by the United States Department of Education.”
- 3) Must file “Student Credit Form” and attach to a **signed** tax return.
- 4) Can **not** receive any **tuition reimbursement** or **assistance** from employer.

Specifically, a resident must be enrolled as a full time student for: “**9 calendar months of the year**” or “**4 calendar months of the year and continue as a full time student the following calendar year.**”

The “4 month” rule is interpreted to mean that a student won’t qualify unless that student is enrolled for the **entire** following academic year. For instance, if a student graduates from High School in 2014 and attends college for the fall term in 2014 (4 or 5 months depending on whether quarters or semesters), that student will **not** qualify for the credit for 2014 until that student is enrolled full time for 9 months (a standard academic year) in 2015. As of January 1, 2016 that student would “qualify” for 2014 and 2015, but prior to January 1, 2016 would not qualify for 2014. An amended 2014 return (claiming the credit) can be filed after January 1, 2016 when the student is eligible for the credit.

The **Student Credit Form** is valid for income of up to \$15,000 regardless of where the income was earned or how much was withheld or not withheld. Credit for tax withheld is limited to the 2.0% rate. If income is over \$15,000 and there are multiple W-2’s with varying withholding rates (no withholding to 2.25% in Akron), the credit could be calculated several ways depending on the number of W-2’s and the withholding rates. It is recommended that these taxpayers come to the tax office so the maximum credit can be calculated.
