

**SCI 132L**  
**Peer Team Evaluation**  
**Spring 2007**

(based on Assessment form used by Dr. David Steitz)

Your name \_\_\_\_\_

Below, please estimate the percentage of each task contributed by each member of our group, including yourself. (Sum of each row should equal 100%). Please be honest, your evaluation will be confidential.

Tasks		Group Members			
	Yourself				
Organized Group Meetings					
Lead group meetings					
Had Creative Ideas					
Contributed to Group Meetings					
Prepared Proposal					
Worked on Experiment					
Summarized Data					
Performed Calculations					
Prepared Poster					
Cleaned materials in lab					
Keep Group on Task					

On a 1-10 scale, (with 1 being “no contribution to group overall” and 10 being “major contribution to group”) please rate the contribution of each member of the group **including yourself**.

Names					
Rating (1-10)					

Is there any reason that all group member should not receive the same grade for the project? (Circle one)  
**YES**                      **NO**

If yes, please explain.

Finally, if you had to assign a letter grade to your group’s work, what would it be and why?
