

## Incoming Student Roommate Form

This form is intended for any student who desires to live with an incoming student (new first time freshman, transfer, or readmit). Every student in the suite/apartment must still confirm the incoming student on their housing application found at <https://housing.indwes.edu>. This form notifies the housing office to confirm roommates on the incoming student's application (other than preferred roommate) and also waives the registration restriction for that incoming student.
