Instructions Prior to October 1, each staff employee should have a performance appraisal completed within the last year. Supervisors should use the current job description as the foundation for the performance appraisal. NSU's mission, vision, values and service excellence values should be considered when evaluating job performance factors, and setting all goals and objectives. Performance appraisal is a management tool used to improve communication, improve performance, encourage employee development, and guide personnel actions. Rate each area using the below rating levels. Please only print this document two-sided by setting computer print function. Performance Ratings The purpose of performance appraisal is to measure levels of job-related behavior. In using the scale each supervisor should consider the extent to which the employee meets the expected standards for all job factors. The supervisor should refer to the job description and the performance standards when rating job performance. Performance ratings should not be made for job behaviors that were not observed during the appraisal period. Indicate the employee's level of performance by checking the appropriate level. If the employee has not been observed performing a duty, then write, "NOT OBSERVED" next to the factor item or use the N/A (non-applicable) column. Performance Level Definitions DOES NOT MEET EXPECTATIONS: Employee requires improvement is required to be retained in the position. Must improve and will be evaluated monthly. MEETS EXPECTATIONS: Employee performance improvement is required to be retained in the position. Must improve and will be evaluated. This level represents "Good Performance" and should be used for those employees who perform well in the job, and meet job factors at proficient, competent and effective levels. Job Performance Factors Each supervisor should identify the core job duties in the job description, and assess the employee's performance on each of those						
duties. Specific job duties may be taken from the <u>Work Skills</u> – Essential functions of job. Additional Consideration At the time of the performance appraisal, if the immediate supervisor along with the Director or Dean concludes that the employee has performed at an exceptionally high level during the year, documentation may be entered in this section. This section of the performance appraisal reflects performance beyond successful completion of all job duties at a Meets Expectations rating, and behaviors identified in the core competencies at a Meets Expectations rating. This section identifies significant and continued contributions to the mission, vision and values above what is expected in the daily performance of duties. Here you may list performance and accomplishments throughout the year that exceed what is expected in the position's duties or core competencies. Be specific as this will be reviewed by others. At the discretion of the President, this information may be viewed for consideration of merit pay recognition by the Cabinet. Recognition of merit may or may not result in merit pay for the year, depending upon funding availability.
