# Red Angus Guide to EPDs

**HB** ..... HerdBuilder Index – Need bulls for developing a profitable cowherd and maximizing the value of marketed progeny? Select a bull with a high HB value.

**GM** ..... GridMaster Index – If you market all of your calf crop and want to increase the value of that calf crop, select a bull with a high GM value to maximize your profit.

**CED** ..... Calving Ease Direct – Breeding Heifers? Select bulls with a high CED to increase the probability that the heifers will calve unassisted.

**BW**..... Birth Weight – Predicts differences in birth weight. BW is included in the CED EPD, so simplify your decisions by selecting bulls based on CED instead of BW.

**WW** ..... Weaning Weight and **YW** .... Yearling Weight – Predicts differences in weight at weaning and yearling. While selection based on these growth measures can increase your payweight, be cautious what the bull's other EPDs are.

**Milk** .... Milk – Predicts differences in weaning weight of daughter's progeny due to milk production.

**ME** ..... Maintenance Energy – Selecting bulls with a lower ME EPD will decrease the amount of feed his daughters will require to maintain body weight.

**HPG**..... Heifer Pregnancy – Retaining heifers? Select bulls with a high HPG to increase the percentage of exposures that result in a calving observation.

**CEM** .... Calving Ease Maternal – Another number to pay attention to if you are retaining heifers. Selecting bulls with a high CEM will increase the probability of those daughters calving unassisted.

**STAY**.... Stayability – The most important trait if your goal is developing cows that stay productive, thus increasing your profitability. Bulls that have a high Stay EPD are expected to sire daughters that remain productive in the herd until at least 6 years of age.

**MARB** .. Marbling Score – Select bulls with high MARB EPD to increase the number of progeny that grade Choice or Prime.

**YG** ..... Yield Grade – Marketing calves on a grid? Placing selection pressure on YG EPD will decrease the number of YG discounts on grid-marketed progeny.

**CW**..... Carcass Weight – Selecting bulls with a high CW EPD will increase the weight of the hanging carcass, which directly impacts revenue.

**REA** ..... Rib Eye Area – Need to add muscle? Select bulls with a high REA EPD to increase rib eye area, which favorably increases Yield Grade.

**FAT** ..... Backfat – Need to reduce waste in carcasses? Select bulls with a low FAT EPD to reduce backfat, which favorably increases Yield Grade.

**Ranch Tested. Rancher Trusted.**

# Welcome to Bowles J5 Red Angus 2015 Annual Production Sale at Glasgow, MT

We have really worked at getting our cattle herd as trouble free as we can. Not only breeding for calving ease but judging and culling our cows for maternity, udder quality, structure and disposition, and our bulls need to be clean sheathed and have adequate testicle shape and development. Trying to balance the cowherd leads us to consider much more than what you can see or can read in the EPD's or even see in the live animal. Our goal is to produce cattle that make your life easier, and ours too. As always we are very hard on our cattle to make sure that we offer you the best possible animals that we can. That means they are structurally sound, thick and long with good dispositions, to make them easy to deal with, easy to live with, and very easy to look at. Whatever your operation needs we should have a number of bulls to fit any criteria that you are looking for.

As always we feed and take care of our bulls and replacement heifers on our ranch located between Chinook and Harlem Montana on the Milk River. This situation gives us the opportunity to truly know the individuals that we are raising and we get to make sure that they are completely sound so that we can offer for sale only the best. These animals are not just shoveled feed but are developed on a diet of grass hay, sorghum sudan hay, and a CHS Bull Challenger pellet. For most of us our cattle need to be able to utilize grass as their main feed source. We feel that keeping them used to this diet is the best way for them to stay in the herd for the long haul while still getting the bulls to a point of maturity to find their true genetic potential. We feel like we have them in condition to go straight to work, without watching them melt away trying to make a living on pasture.

As a family we would like to thank you for your interest in our program and hope that your lives continue to be as blessed as ours. Doing what we love, living off the land, raising the cattle that we enjoy. With our friends and family that we love, keeping us going through the good times and the bad, we look forward to seeing you all on April 2.

What a combination of cattle in one package, this guy is a complete heifer bull and to top it off he is out of a first calf heifer who did a tremendous job on her first try. Rebella 69Z still bred back early, she was our first 3 year old to calve this year. A lot of style, thickness, and calving ease.

Take a look here, Shape, Style, and Function, this is what we're aiming at. You Betcha really hit the mark. A herd bull and heifer bull in one anima. You can use him anywhere and could probably use him everywhere. His ears are short, but his body is long and his feet are great.

MPPA 96.9.  
 Extra muscle and thickness here in a great genetic package. MPPA doesn't always tell the whole story, his mom always calves early and weans a big calf. Thor has the kind of shape and dimension that you can build a herd around. Dam also has a wonderful udder.

MPPA 101.2.

The mass needed to sustain the production of your cowherd. Cattle with natural thickness naturally stay around in your herd for a longer period of time. Cattle with style are easier to market as feeders, replacements, and as bred cows. You will get both with this Critical Mass.

 Exa Extra read all about it, this guy is a Herd Bull! Out of a big bodied easy fleshing cow this bull caught up to and passed a lot of older bulls in the herd. This is another bull that a ranch can really build around. Built on a little more frame, with a good disposition.

Lot 52

# 52

MPPA 101.3.  
 Still a lot of style and function this late in the book. If we wouldn't use the bull we wouldn't expect you to. Cow is a big bodied free moving Lancer daughter that is doing a really good job.

# 40 HEAD OF TOP NOTCH STRAIGHT RED COMMERCIAL HEIFERS

Commercial heifers will be penned in pens of 20 head and sold in lots of 5. The winning bidder will have the right to take 5 to 20 heifers. If the winning bidder takes less than 20 head the bidding will open up to take the remaining heifers in that pen.

MINIMUM PREMIUM		-	\$150 FOR ANNUAL & 6 MONTH POLICIES

ALL OF THE ABOVE COVER 100% OF SUM INSURED MINUS SLAUGHTER VALUE, IF ANY NO DEDUCTIBLES

2014 Registered Heifers

# ***TERMS & CONDITIONS***

***TERMS:*** The terms of the sale are cash. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released.

***BIDDING DISPUTES:*** The auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

***PURCHASER'S RISK:*** Each animal will become the risk of the purchaser as soon as sold. Any animals left in the care of the Seller after the sale shall be reasonably cared for and Buyer will be advised of any health issues that should arise while in the Seller's care.

***ANNOUNCEMENTS:*** Changes of information contained in this catalog relating to animals offered for sale will be announced from the auction box and such announcements shall take precedence over printed material.

***REGISTRATION CERTIFICATES:*** A certificate of registry and transfer will be furnished on all registered cattle, at the Buyer's request and after settlement has been made. Certificated will specify exact percentage of Red Angus blood as is applicable. Please be sure to inform the clerk at the time of settlement how you would like the papers transferred.

***IDENTIFICATION:*** Each registered animal carries a readable tattoo.

***BREEDING GUARANTEED:*** All bulls are guaranteed to be breeders and have passed a fertility and soundness exam. All heifers are guaranteed open. Any claims for refund of adjustment must be made in writing within six months of the sale date. In the event a bull is claimed to be a non-breeder, the purchaser may return the bull to the ranch of the Seller, if in good condition and complying with the health requirements of the Seller's state. The Seller will be entitled to six months trial, following the return of the animal, in which to prove that the bull is a breeder. The Seller will be obligated to offer a suitable and comparable replacement, credit towards the purchase of another bull, or refund of the purchase price less any salvage value received by Buyer. Such replacement, credit, or refund shall in any case be deemed full satisfaction and settlement. If the Seller proves the bull to be a breeder, it shall be the obligation of the Buyer to take delivery of the animal at the Buyer's expense.

***LIABILITY:*** Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damage of any kind.

***RETAINED INTEREST:*** Seller reserves the right to keep a breeding interest in any bull so designated in the catalog or during the auction. In the event Seller elects to collect semen from a designated bull, it will be done at Seller's expense and during such time when purchaser is not using the bull for breeding.

***IMPLIED WARRANTY:*** Except for those stated in the terms and conditions, there are no warranties, either expressed or implied, as to merchantability or fitness for a particular purpose with the respect to the cattle being sold in this auction. The warranties set forth in the terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the Buyer, or any party claiming through the Buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

***CONTRACT:*** The above terms and conditions shall constitute a contract between the Buyer and Seller of each animal sold.

**The ranch-tested and rancher-trusted source for productive, efficient cowherds!**
