

“If nature appreciation can be developed in a student early enough, and over a long enough period of time, perhaps the love of the land will stay with them as adults and so influence their behavior.”

—Mary Alice White

“All knowledge of reality starts from experience and ends in it.”

A UNIQUE LEARNING EXPERIENCE

Children gain confidence through many opportunities for success.

Children learn concepts by seeing, feeling, and doing in a real environment -- the home, farm, and out of doors.

Children grow by sharing, planning, talking in small classes guided by qualified teachers.

“When I hear  
I forget;  
When I see  
I remember;  
WHEN I DO  
I LEARN”  
Chinese Proverb

The Children's Farm is a non-profit tax exempt corporation. It admits students of any race, color, and national or ethnic origin. Children with disabilities are welcomed.

Founded in 1976, the school at The Children's Farm, Inc. is a licensed half-day program for children ages three and four. It emphasizes fostering the child's intellectual, social, physical, and emotional growth, using the farm animals, garden and nature as the learning environment.

Small classes with qualified teachers allow the consideration of each child's abilities and interests. Consistent classes through the school year promote friendships and growing social skills.

Parent involvement is encouraged through parent visiting days, parent-teacher conferences and parent use of classroom observation windows. In addition, a parent orientation night, parent discussion meetings, a spring Open Farm and class picnics are offered.

Acres of fields and woodlands with their small ponds provide a diversity of ecosystems which children can discover and explore. Along with this environmental exploration, children develop physical self-confidence, curiosity and problem-solving skills through guided group hiking experiences.
