	<p>Medical Record completion status:</p> <p>Clinical performance criteria: (Inpatient and outpatient performance measures – to be defined, diagnoses of patients seen, etc.)</p>	
<p>Forwarding information (for senior year residents only)</p>	<p>Current and future address: (if applicable)</p> <p>Practice Specialty:</p> <p>Type of Practice:</p> <p>Practice setting:</p> <p>Full/Part time:</p> <p>Research involvement:</p>	<p>Comments</p>
<p>Standardize Testing Results (include dates taken)</p>	<p>ITE, PGY-1:</p> <p>USMLE-Part 1:</p> <p>USMLE-Part 2:</p> <p>USMLE-Part 3:</p> <p>ABIM Certifying Examination:</p>	<p>Define plans for ABIM certifying exam preparation and mentorship.</p> <p>See below.</p>
<p>Self evaluation</p>	<p>-List skills or content areas that you plan to improve over the next 6 months.</p> <p>Continued Board Prep</p>	<p>-Define how you have structured your reading efforts 20min/day several times/week in MKSAP; pre-and post-test, planned additional MKSAP questions.</p>

	<p>-Describe notable interactions with patients</p> <p>Husband, wife, and son who all see me in clinic.</p>	<p>-What conferences have been most helpful to you? Most of the AAP lectures.</p> <p>-Discuss your current strengths and weakness Getting much better at ambulatory medicine. Need to work on making regular, focused study time before long-block is over.</p>
Program evaluation	<p>-Suggest items that might be included in the PGY-1 orientation based upon your current experience A single page on how to locate and access (including algorithm for- or specific Log-On) : Lastword, McKesson, AccessAnywhere, Centricity.</p> <p>-Describe you clinic experience to include interaction with staff, diversity of patients, and faculty Excellent Clinic experience; most preceptors are very helpful and try to address an educational point on each patient.</p> <p>-Describe the volume and variety of patients that you have seen on the inpatient and in the outpatient setting</p> <p>Good breadth of patient care in general. Tension between In-patient consult services and Clinic responsibilities in long-block is currently being addressed; sometimes this leads to fewer consults than is optimal.</p>	<p>-Discuss the quality of the conferences</p> <p>Generally excellent. No complaints.</p> <p>-Describe any notable interactions that you have had with faculty and/or other residents</p> <p>??</p> <p>-Comment upon your mentoring network that you have or has been identified for you in the DOM</p> <p>Dr. Warm's support and direction for my above research project. Dr's Deepe and Smulian have also been helpful regarding fellowship issues.</p>
