If you agree to sponsor a student's application to the Service-Learning Scholars Program, please write a letter of support in which you indicate

- the quality and importance of the project(s) proposed
- the ability of this student to pursue the project(s)
- the learning to be achieved through this project

Preference will be given to projects where there is a close relationship between the student's and the faculty member's research or teaching; an important goal of this program is to aid faculty who wish to explore the use of service-learning in courses.

Faculty sponsors receive \$500; this amount may be taken either as expense support or summer salary supplement.

I understand that to supervise this student's project, I will need to be available on a regular basis in Newark for at least seven of the ten weeks that the student is working and to arrange for a qualified colleague to supervise the student in my absence.
