

BPM RFP Template (Business Performance Management System)

Description: The Business Performance Management (BPM) RFI/RFP Template lists and describes 1621 features and functions found in Business Performance Management (BPM) software solutions. This BPM Template can help you save time, control costs, and communicate clearly with vendors at nearly every stage of your Business Performance Management (BPM) software selection projects. Features and functions included in this BPM Template:

- Data Visualization
- Analytics
- Workflow
- Data Integration
- Support
- System Requirements

This functional and technical requirement set template covers industry-standard functional criteria of BPM that can help you easily gather and prioritize your business needs in a simple and categorized excel document. More than a RFP template, it is a working document that serves as a knowledge base reference throughout the life-span of your BPM software project.

Use this template to gather your BPM requirements, build RFIs and RFPs, and track the progress of your software implementation.

Gather Your BPM Requirements Quickly and Effectively

- Identify and prioritize the features and functions you need instead of building a list from scratch.
- Easily add your company's unique BPM requirements.
- Find out what features and functions vendors support, and how they support them.

Collect Clear BPM RFI and RFP Responses

- Improve vendor participation by issuing RFIs that vendors can understand, and respond to easily.
- Use RFI responses to create lists of requirements for your RFPs or requests for quotation (RFQs).
- Make sure that vendors understand and can support all your requirements.

Eliminate BPM Implementation Surprises

- Get a clear picture of any required customizations.
- Help BPM vendors accurately cost required development work.
- Compare your existing systems to the winning solution (gap analysis).
