List new courses required for the new or revised curriculum. How do they support the overall program objectives of the major/minor/concentrations)?

(Be aware that approval of the curriculum is dependent upon these courses successfully passing through the Course Challenge list. If there are no new courses enter "None")

DANC 201 Careers in Dance is being proposed as an introductory required 1 cr. addition to the Dance Minor. Over the past two years since the minor was first offered, we have determined that students would benefit from an introductory seminar course that will educate them at the outset of their minor course of study of the wide range of options in the dance field. This will allow students to select courses that best fit their future goals, particularly in relation to their major course of study, which is subsequently connected to the capstone experience requirement at the end of the minor course of study.

Explain, when appropriate, how this new/revised curriculum supports the 10 goals of undergraduate education: <http://www.ugs.udel.edu/gened/>

The course will provide students with the opportunity to gain skills in oral and written communication (Goal 1). The students will write a well-researched topic and present the information orally. They will also prepare written and electronic materials for a portfolio. They will also be able to work and learn both independently and collaboratively (Goal 3). The students will work in small groups to critically analyze information about specific career options in dance. Finally, they will expand understanding and appreciation of human creativity and diverse forms of aesthetic and intellectual expression (Goal 8). Through research, they will gain knowledge of interdisciplinary programs and projects that combine components of their selected major with the dance minor.

Identify other units affected by the proposed changes:

(Attach permission from the affected units. If no other unit is affected, enter "None")

The Dance Minor is a joint offering between the College of Arts and Sciences and the College of Health Sciences. Documentation of support is attached.

Describe the rationale for the proposed program change(s):

(Explain your reasons for creating, revising, or deleting the curriculum or program.)

Over the past two years since the minor was first offered, we have determined that students would benefit from an introductory seminar course that will educate them at the outset of their minor path of study of the wide range of options in the dance field. This will allow students to select courses that best fit their future goals, particularly in relation to their major course of study, which is subsequently connected to the capstone experience requirement at the end of the minor course of study.

This course will provide dance minor students and other students with an interest in a career in dance access to knowledge about the wide range of career options. The students in Careers in Dance will: 1. Explore a variety of potential dance careers 2. Consider ways of combining their major and minor. 3. Present a final oral presentation on two potential career options 4. Develop an electronic career development portfolio that will contain career preparation, and educational artifacts. This introductory course for dance minors will provide them with important information as they continue their educational experiences at the University of Delaware. At the conclusion of this course, they will have knowledge of a variety of career options and a career development portfolio.

Note: While the minimum credits for the minor increases to 17, the maximum will remain at 18. We have reduced the capstone course to 1-2 crs. rather than 1-3 crs. to accommodate the introductory 1 cr. course.

Program Requirements:

(Show the new or revised curriculum as it should appear in the Course Catalog. If this is a revision, be sure to indicate the changes being made to the current curriculum and **include a side-by-side comparison** of the credit distribution before and after the proposed change.)

Dear Cathy Conrad:

I have attached a copy of the proposed dance minor revision to this message. We are a joint minor with the College of Health Sciences, and the College of Arts and Sciences. We are adding a 1 credit freshman introductory course and reducing the capstone course from 3 credits maximum, to 2 credits maximum to accommodate the additional credit. Deputy Dean, Susan Hall from the College of Health Sciences, has provided a statement of support for the change. Please contact me if further information is needed.

Sincerely,

Lynnette Young Overby
