1

View and download your VAT compliant paperless bills and copy bills

3

Access 24/7 Download your data and view at your convenience

5

Carbon Reduction Commitment Energy Efficiency Scheme (CRCEES)

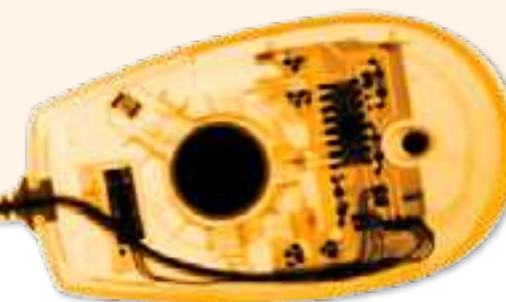

If you qualify for the CRCEES, order an annual statement...

2

Accurate bills Submit your meter readings online and only pay for the energy you have used

4

Manage and control your important documents all in one place

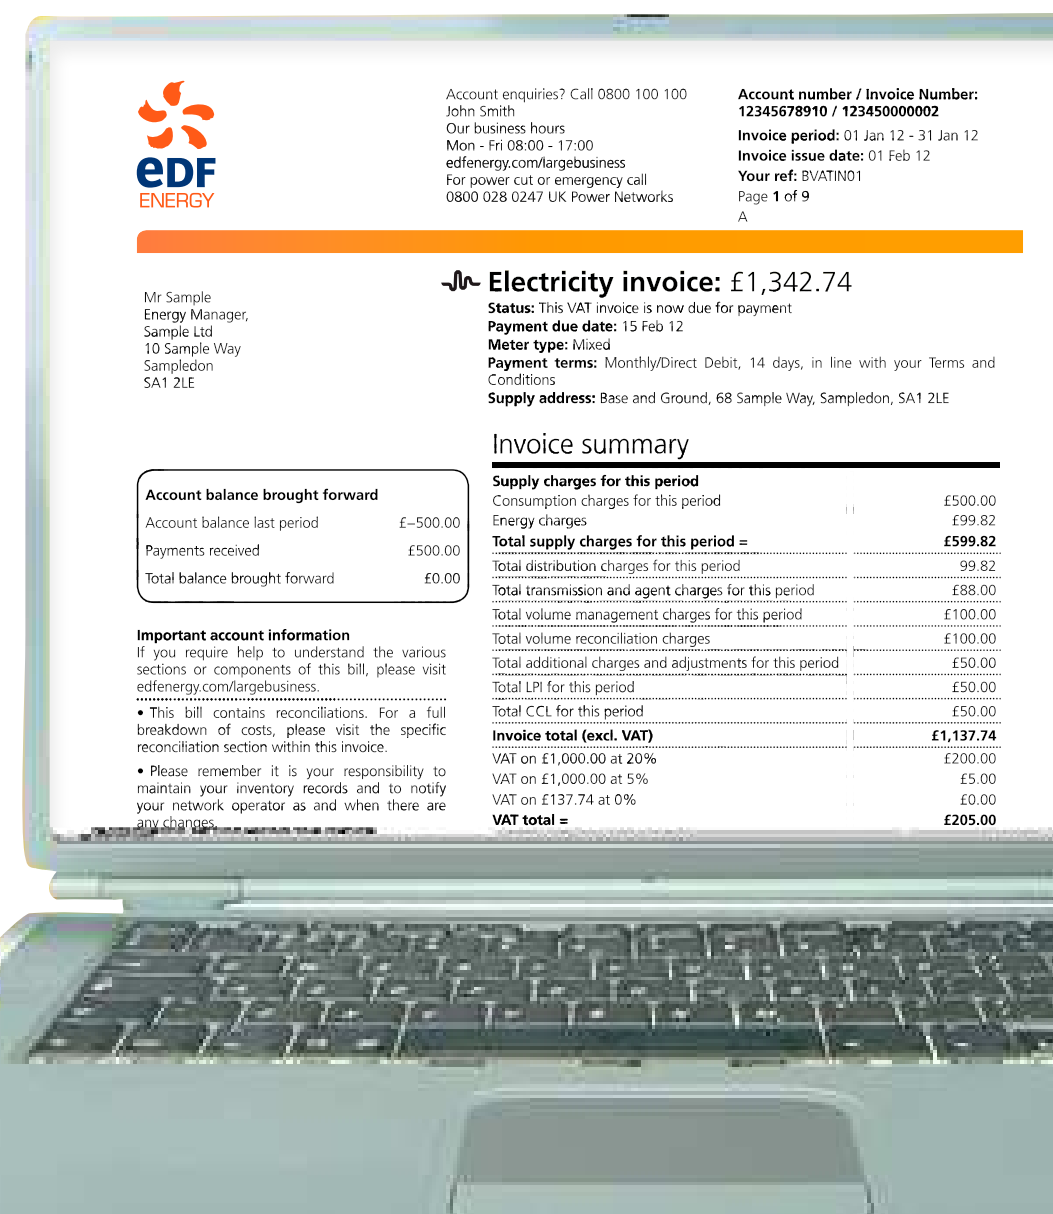

MyAccount for Large Business now at your service 24hrs a day, 7 days a week, all year round.

1

View and download your paperless and copy bills...

...so you won't need to request and wait for copy bills to arrive. What's more, our paperless bills are VAT complaint* too. They're stored in the system so you can view them online and save them to your computer. You can view your latest bill and what's more, you'll reduce the paper burden and won't have to worry about losing a bill ever again.

*if you choose to have online paperless bills as your primary billing method.

2

Accurate bills

Submit your meter readings regularly online and only pay for the energy you have used

MyAccount for Large Business allows you to submit meter readings for your non-half hourly sites online. Regular meter readings allow us to provide you with more accurate bills, based on actual data. In addition, you can also view the last meter reading submitted, allowing you to keep track of what's been entered before.

MyAccount: Meter Reading

Submit Meter Reading

Select a meter:

Reading date: 13/09/2012

Register	Last reading date	Last reading	New reading
871892012	30/03/12	90225	<input type="text"/>
140540012	30/03/12	5070	<input type="text"/>

Download your data and view at your convenience...

Analyse your half hourly and non-half hourly data

View and download the electricity usage data used to create your bills. Choose to see your data in spreadsheet format or as graphs, to help you analyse and manage energy usage within your portfolio. For example, you can use historical comparisons to look for any anomalies in usage, which you can then investigate.

MyAccount for Large Business also provides consumption data for your properties with non-half hourly meters.

You can see the split of consumption by register on your meter, which will match the rates charged on your bill. The data provided is listed by invoice number so it's easily reconcilable against your bills.

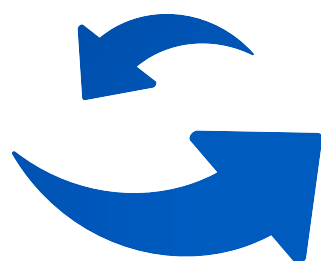

View this data in different graph formats to compare registers against each other, and track trends over a maximum of 12 invoice periods.

Customers who qualify for the Carbon Reduction Commitment Energy Efficiency Scheme (CRCEES) will find it especially helpful to gain an understanding of their half hourly energy use.

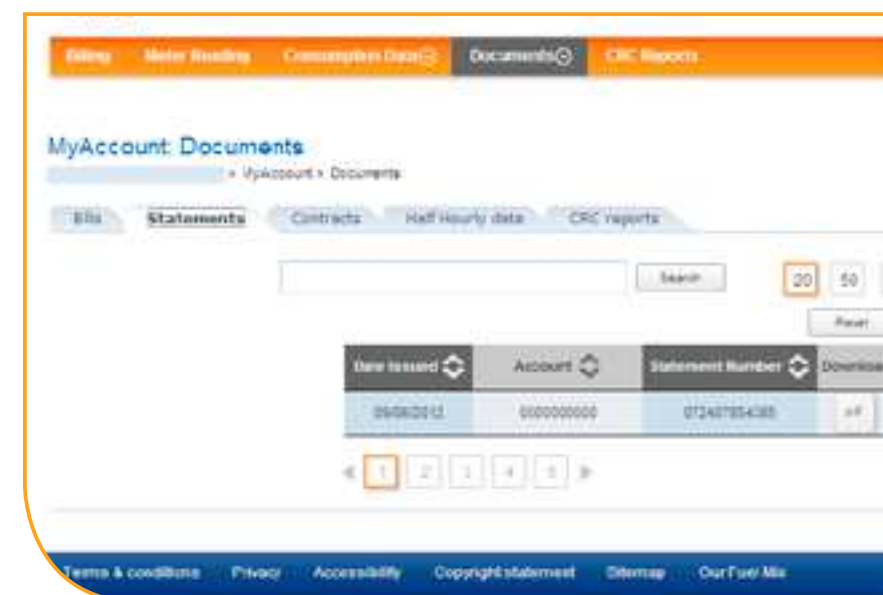

4

Manage and control your important documents all in one place...

Information is easy to share and store. MyAccount for Large Business allows you to access documents and data related to your energy accounts into the document section, a secure online storage area, accessible whenever you need it. Any half hourly data files that you request will be placed in the document section, for you to download at your convenience.

You can also view your bills, statements and request a Carbon Reduction Commitment Energy Efficiency Scheme report.

5

The Carbon Reduction Commitment Energy Efficiency Scheme (CRCEES)

If you qualify for the CRCEES order an annual statement...

The Carbon Reduction Commitment Energy Efficiency Scheme (CRCEES) is a mandatory scheme aimed at improving energy efficiency and cutting emissions in large public and private sector organisations. Organisations qualified for the CRCEES phase 1 (April 2010 - March 2014) based on 2008 consumption.

To help, we offer a free CRCEES reporting service via MyAccount for Large Business which allows you to choose from a range of reporting periods available in PDF and spreadsheet format. The report will give you key information regarding your energy for annual reporting and the allowances you will need to purchase to cover those emissions. It also contains information to help you comply and succeed in the scheme.

The screenshot shows the 'MyAccount: CRC Reports' page. At the top is a navigation bar with links: Billing, Meter Reading, Consumption Data, Documents, and CRC Reports. The main heading is 'MyAccount: CRC Reports' with a sub-link 'MyAccount > CRC Reports'. Below this is the instruction 'Request your annual statement for the Carbon Reduction Commitment Energy Efficiency Scheme'. There are two sections for selection: 'Select Dates' with radio buttons for 'Jan 2011 - Dec 2011', 'Apr 2011 - Mar 2012', 'Jan 2012 - Dec 2012', and 'Apr 2012 - Mar 2013'; and 'Reporting for' with radio buttons for 'All Sites' and 'Selective Sites'. A 'Next' button with a right arrow is positioned below these options. On the right side, there is a 'Getting Started' section with text explaining the process and a link to 'View a Sample Report'.

...and gain quick, online access to your electricity account data. Use our range of tools to help you extract the information you need.

It's simple to use and secure, so what are you waiting for - visit edfenergy.com/myaccount-business and make your life easier!

e-brochures – a better way of working

Why e-brochures? At EDF Energy we are committed to using the most sustainable working practices wherever possible and this includes when delivering communications to our customers. e-brochures significantly reduce the volume of printed material we need, reducing our carbon footprint and contributing towards our 2012 Climate Commitment pledges.

Our customers appreciate e-brochures because they offer timely delivery of easy to access information in an ideal format for the modern screen based working environment.
