Use of Internet Protocol Address

We use your Internet Protocol (IP) address for several reasons: to help diagnose problems with our server, to administer our Web site, to help identify you and your shopping cart, and to gather broad demographic information.

Use of Order Information

When you join our organization or request information regarding one of our members, request information such as contact information, credit card number and demographic information. The contact information you provide is used to confirm your membership, and occasionally, promotional material from one of our partners. You can Opt-In, or Opt-Out at any time. (See Opt-In/Opt-Out below.) Your credit card information is used for the sole purpose of billing you for products and services. Demographic data is collected to personalize future visits by displaying the content we feel would interest you most.
