BLM Verification of Collections (completed by BLM)			
BLM Official:			
Date Received:			

REPOSITORY RECEIPT FOR COLLECTIONS

Artifacts and specimens recovered from BLM-administered lands are Federal property, and must be managed in a manner consistent with Federal stewardship responsibilities for museum collections. Cultural or paleontological resource permits for collecting activities require that the permittee arrange for curation of artifacts and specimens in an appropriate repository. Collections must be deposited in a repository for curation within one year of completion of the permitted project, unless alternate arrangements have been approved by the BLM permitting official.

This Deposition of Museum Collections Confirmation and Inventory form is required as a condition of the permit and must be completed for all museum collections originating from BLM administered lands, with the associated documentation, to ensure collections are deposited in an appropriate curatorial facility. A receiving document generated by the repository may be substituted if it contains the same information as this form.

Instructions

- 1. All information requested on this form must be completed by the permittee and repository officials.
- Permittees must provide an itemized inventory of the objects, lots, samples, and associated documentation to be deposited attached to this statement. The inventory must include site or locality designation, number of units per material type according to BLM and the repository standards. A complete collection includes:
 - All artifacts, specimens, and environmental materials collected with provenience data
 - All survey or excavation records and logs
 - All maps showing locations and boundaries
 - All valid photographs, negatives, and slides
 - All analysis records, and copies of all reports and publications
- 3. A repository official must acknowledge receipt of the collection. Before signing, the repository official should compare the inventory to the actual objects and records being deposited.
- 4. If the permittee and the Repository Official are the same individual, an additional Repository Official must be signatory to this form.
- After this form has been signed by the repository official, the original form with the collection inventory must be submitted the BLM State Archaeologist by the permittee.
- 6. Upon submission to BLM, the BLM official may contact the repository to verify the inventory of collections deposited by the permittee.
