

Report Template – Letter “e” Lab

Directions: Use the following information to complete the Letter “e” Lab Report. Include ALL required information for each section. Be as specific as possible.

A. Purpose

What was the reason for doing the lab? Write in complete sentences.

B. Materials

List the materials you used to complete this lab.

C. Procedure

Write a short summary (in complete sentences) to explain how you did the “experiment.”

D. Magnifications

List the three different magnifications of the objective lenses.

E. Observations

Draw a detailed sketch of what you observed.

F. Two Things That Went Well

Describe two things that you did well with or that were easy for you. Use complete sentences.

G. Two Things That Didn’t Go Well

Describe two things that were difficult for you or did not go as planned. Use complete sentences.

H. One Thing To Remember

Write one thing you will remember about how to use a microscope.
