82 CONS LGCA-3 CHECKLIST Commercial Acquisition Team

Version 10, 17 Feb 16

This document is **REQUIRED** for all new purchase requirements. Form 9's received without this document completed may be rejected by the Contracting Office. The purpose of this document is to provide a full and accurate description of the requirement with supporting documents. Some items are flagged with numbered endnotes which are explained in further detail at the end of this checklist. Also, real world examples and templates of all documents referenced in this checklist may be found on the Buy Me University campus.

Requester Signature/Date

Requester Printed Name/Office Symbol/ Phone Number

Acronyms:

<u>GSA</u> – General Services Administration – a required source of supply. You must check GSA to see if your purchase is available in GSA prior to going to the open market place.

<u>Sole Source</u> – a source for a purchase that is ONLY available from one contractor. The reasoning for this must be very detailed and explain why only one contractor has your particular item. Contracting must post the Sole Source requirement on Fedbizops (an electronic website available to all vendors). We may find other sources making the requirement a Brand Name requirement instead. If so, this may delay your purchase.

<u>Brand Name</u> – A purchase for a particular purchase by brand name because only that brand name will work for your particular purchase. One example is a CISCO Router, meaning no other router would work for the requirement.

<u>IGE</u> – Independent Government Estimate – You perform your own market research to determine how much the item or service you want to purchase will cost the government. Your market research should include THREE separate estimates or quotes. Typically, the lowest priced similar item would become your IGE.

Questions? Please contact Chris Lamiroult at 940-676-4406.
