2016-	2017 Advance Payments Program¹(Canada-Wide)	
1. Pı	roduct & Advance Rate List	
i)	Grains, Oilseeds, Fruits, Vegetables, Forage, Hay, Biomass, Honey, Maple Syrup, Tobacco, Ginseng, Hemp Grain & Seeds (Storable Products)	1-3
ii)	Fruits & Vegetables (Non-storable Products)	4-5
iii)	Trees, Evergreens, Shrubs & Turf-grass/Sod (Storable Products)	6
iv)	Christmas Trees, Cut Flowers, GH Potted Plants, GH Vegetables & Mushrooms (Non-storable Products)	6-7
v)	Livestock & Animals	8-9
vi)	Ranch Raised Fur (Mink Pelts & Fox Pelts)	9
2. Pı	roduct Group List	
	Cut Flowers, GH Potted Plants, Trees, Evergreens & Shrubs	10-19
3. EI	igible Advance Calculation Worksheet	20-22
4. R	eporting & Repayment Deadlines	22
2016	Commodity Loan Program <sup>2</sup> (Ontario Only)	
1. Pi	roduct & Loan Rate List Grains, Oilseeds, Fruits, Vegetables & Tobacco	23
2. EI	igible Loan Calculation Worksheet	24
Meas	urement Conversion Tables	25

<sup>&</sup>lt;sup>1</sup> The Advance Payments Program (APP) is a federal financial loan guarantee program that helps producers meet their financial obligations and benefit from the best market conditions by improving their cash flow throughout the year.

<sup>&</sup>lt;sup>2</sup> The Commodity Loan Program was developed in 1992 to assist farmers in financing their crop planting, cultivating, and harvesting expenses in Ontario.

		Combine	ed Above Total =	[A]\$				

AGRISTABILITY (AS)
--------------------

#### **COMPLETE IF USING AGRISTABILITY AS SECURITY (EXCLUDES LIVESTOCK)**

The maximum Eligible Advance is determined using AgriStability positive and negative reference margins as security. To calculate the positive and negative reference margins, enter the most current information (and corresponding year) provided by AgriStability in the Reference Margin Calculation into the table below. Use only the 3 years used to calculate the reference margin. For negative margins, when subtracting the reference margin from the expenses, use absolute value.

Each partner is required to complete the information below and sign the Assignment Agreement – **APPENDIX A**. Any AgriStability payment will be applied against your outstanding advance, even if it is before the repayment due date or before the agricultural product(s) is/are marketed. Your decision to take an application for an eligible advance should be guided accordingly. Attach a copy of **1**) your "entire" most recent, <u>AgriStability package</u> (if new, Inventory Sales from prior year) along with **2**) your 2016 AgriStability Renewal Notice (or Coverage Confirmation for new participants) with application. Refer to the checklist at back of application for breakdown of AgriStability package

				PIN ID#	PIN ID#	PIN ID#	PIN ID #

#### PRODUCTION CALCULATION WORKSHEET

#### **PRODUCTION CALCULATION WORKSHEET** Key point for completing specific Agricultural Products: (a x b x c) differs by product. Refer to ACC's Product & Advance Rate List and; (1) list the specific product type under the Agricultural Product(s) column, then (2) simply complete the applicable columns below: (a), (b), (c) by referring to the corresponding Worksheet(s) guide found in the Product & Advance Rate List. If including a commodity that falls under a Grouping, please assist us by ensuring you provide the "full name" of the commodity AND Group # under the Agricultural Product(s) column. Please attach a separate sheet if required. For your convenience, the Product & Advance Rate List is available on our website at agcreditcorp.ca/2016 2017 advance payments program Refer to Refer to (ACC Use Only) Producer(s) Sample in Sample in Security Requested Product & Product & **Agricultural** Eligible 1<sup>st</sup> Advance Advance Advance Advance(s) 60%/ Type Product(s) Advance(s) Rate Rate List Rate List Instal-(Eligible Advance or 100% (PI, AS, ASRA, IN) ment (a) Less) (b) (c) \$ \$ \$ \$ \$ \$ \$ \$ X X \$ Producer(s) Requested Advance based on Anticipated Production using PI [C1]\$ Producer(s) Requested Advance based on Anticipated Production using AS \$ **[C21s** Producer(s) Requested Advance based on Quantity in Inventory (IN) [C3]\$ \$ Producer(s) Requested Advance based on Anticipated Production using ASRA [C4]\$

Note: for all storable and non-storable products using PI as security, when the guaranteed production/insured value is not yet available, the Producer Requested Advance is calculated based on the <u>anticipated production</u>, and the 1st instalment worth 60% of the eligible advance is released. When ACC received PI document showing the guaranteed production/insured value (before August 1st, 2016), the eligible advance is recalculated and the 2nd instalment will be released.

## **MAXIMUM ADVANCE LIMIT WORKSHEET**

MAXIMUM ADVANCE LIMIT WORKSHEET							
At no point in time can the Eligible Producer(s), individually or in combination with other related producers, such as shareholders, members, partners of the business,							
<u>relative or advances received from other Administrators</u> receive more than \$400,000 in advances, including the overlap period between	•	•					
free advance is limited to the first \$100,000 issued per program year. Refer to Terms & Conditions to learn about credit checks, fees a	nd issuan	ce of loan advances.					
Producer(s) Requested Advance using PI = [C1]		\$					
Producer(s) Requested Advance using AS = the (lesser of [B1] or [C2])	[D]	\$					
Producer(s) Requested Advance using ASRA = the (lesser of [B2] or [C4])	[D]	\$					
Producer(s) Requested Advance using Inventory (IN) (including all livestock advances) = [C3]		\$					
Total Maximum Producer(s) Requested Advance calculated based on all above Security used to secure loan advance (Total of [D])	[E]	\$					
Maximum Allowable Advance	[F]	\$400,000.00					
Total combined Current & Outstanding Advances or Amount Attributed (that have not been rebutted) to each individual  Producer(s) with ACC and with other APP Administrators = [A] (Refer to pg. 2)	[G]	\$					
Program Year Maximum Allowable Advance = [F] minus [G]	[H]	\$					
ADVANCE REQUESTED BY PRODUCER(S) (Lesser of [E] or [H])  Your amount will be based on Subsection 4 and/or 5 of Terms and Conditions on pg. 6 and/or 7.	[1]	\$					
ACC TO COMPLETE BELOW FOR THE PRODUCER(S)							
1st instalment of [1] will be further reduced if Priority Agreement reflects a cap.							
Cap Requested? Yes ☐ No ☐;Second Payee? Yes ☐ No ☐ Payee Name: CAP AMOUNT →	[J]	\$					
ADVANCE (1st Instalment) APPROVED BY ACC (= [I] or if CAP [J] minus \$675)	=	\$					
2 <sup>ND</sup> INSTALMENT OF REQUESTED AMOUNT (if applicable).							
On your behalf, ACC will re-calculate all of the above steps based on your "Actual" Seeded Acreage, less 1st instalment.							
ADVANCE (2nd Instalment) APPROVED BY ACC							
ACC USE: Is BRM Assignment for "different commodity planted" warranted? Yes or No; Ensured if "different commodity added to loan at 2 <sup>nd</sup> stage that maturity date reflects the commodity that is added or changed; Notified Producer(s) and Finance Dept. on overpayment situation or Check if does not apply.
