Disability Tax Credit Certificate

6729 Protected B when completed

Help

Use this form to apply for the disability tax credit (DTC). Being eligible for this credit may reduce your income tax and open the door to other programs. For more information, go to www.cra.gc.ca/dtc.

Part A – To be completed by the person with the disability

Step 1: Complete only the sections of Part A that apply to you. Remember to sign.

Step 2: Ask a medical practitioner to complete and certify Part B.

Step 3: Send us the completed and signed form.

For additional information, see the General information on page 6. For definitions, examples of impairments that may qualify for the DTC, and a self-assessment questionnaire, see <u>Information Sheet T2201-1</u>, *Disability Tax Credit Certificate*.

Help

Part B – Must be completed by the medical practitioner

Step 1: Complete only the section(s) on pages 2 to 4 that apply to your patient. Each category states which medical practitioner(s) can certify the form.

Note

Whether completing this form for a child or an adult, assess your patient compared to someone of similar age with no impairment.

Step 2: Complete the "Effects of impairment", "Duration", and "Certification" sections on pages 5 and 6. If more information is needed, the Canada Revenue Agency may contact you.

For definitions and examples of impairments that may qualify for the DTC, see <u>Information Sheet T2201-1</u>, <u>Disability Tax Credit Certificate</u>. For more information, go to **www.cra.gc.ca/dtcmedicalpractitioners**.

Vision – Medical doctor or optometrist	Not applicable
Your patient is considered blind if, even with the use of corrective lenses or medication:	
• visual acuity in both eyes is 20/200 (6/60) or less, with the Snellen Chart (or an equivalent); or	
 the greatest diameter of the field of vision in both eyes is 20 degrees or less. 	
1. Is your patient blind , as described above?	Yes No
If yes , when did your patient become blind, as described above (this is not necessarily the year of the diagnosis, as it is often the case with progressive diseases)?	Year
2. What is your patient's visual acuity after correction?	Right eye Left eye
3. What is your patient's visual field after correction (in degrees if possible)?	Right eye Left eye
Speaking – Medical doctor or speech-language pathologist	Not applicable
Your patient is considered markedly restricted in speaking if, even with appropriate therapy, medication, and device	es:
 he or she is unable or takes an inordinate amount of time to speak so as to be understood by another person familiar with the patient, in a quiet setting; and 	
• this is the case all or substantially all of the time (at least 90% of the time).	
Is your patient markedly restricted in speaking, as described above?	Yes No
If yes , when did your patient's restriction in speaking become a marked restriction (this is not necessarily the year of the diagnosis, as it is often the case with progressive diseases)?	Year
Hearing – Medical doctor or audiologist	Not applicable
Your patient is considered markedly restricted in hearing if, even with appropriate devices:	
 he or she is unable or takes an inordinate amount of time to hear so as to understand another person familiar with the patient, in a quiet setting; and 	
• this is the case all or substantially all of the time (at least 90% of the time).	
Is your patient markedly restricted in hearing, as described above?	Yes No
If yes , when did your patient's restriction in hearing become a marked restriction (this is not necessarily the year of the diagnosis, as it is often the case with progressive diseases)?	Year
Walking – Medical doctor, occupational therapist, or physiotherapist	Not applicable
Your patient is considered markedly restricted in walking if, even with appropriate therapy, medication, and devices	5:
 he or she is unable or takes an inordinate amount of time to walk; and 	
• this is the case all or substantially all of the time (at least 90% of the time).	
Is your patient markedly restricted in walking, as described above?	Yes No
If yes , when did your patient's restriction in walking become a marked restriction (this is not necessarily the year of the diagnosis, as it is often the case with progressive diseases)?	Year

Eliminating (bowel or bladder functions) – Medical doctor	N	ot applicable
Your patient is considered markedly restricted in eliminating if, even with appropriate therapy, medica and devices:	ition,	
• he or she is unable or takes an inordinate amount of time to personally manage bowel or bladder	functions; and	
 this is the case all or substantially all of the time (at least 90% of the time). 		
Is your patient markedly restricted in eliminating, as described above?	Yes	No 🗌
If yes , when did your patient's restriction in eliminating become a marked restriction (this is not neces the year of the diagnosis, as it is often the case with progressive diseases)?	sarily	Year
Feeding – Medical doctor or occupational therapist	N	ot applicable
Your patient is considered markedly restricted in feeding if, even with appropriate therapy, medication	1, and devices:	
 he or she is unable or takes an inordinate amount of time to feed himself or herself; and 		
• this is the case all or substantially all of the time (at least 90% of the time).		
Feeding oneself does not include identifying, finding, shopping for, or otherwise obtaining food.		
Feeding oneself does include preparing food, except when the time associated is related to a dietary r or regime, even when the restriction or regime is required due to an illness or health condition.	estriction	
Is your patient markedly restricted in feeding, as described above?	Yes	No 🗌
If yes , when did your patient's restriction in feeding become a marked restriction (this is not necessar the year of the diagnosis, as it is often the case with progressive diseases)?	ily	Year
Dressing – Medical doctor or occupational therapist	N	ot applicable
Your patient is considered markedly restricted in dressing if, even with appropriate therapy, medication	on, and devices:	
 he or she is unable or takes an inordinate amount of time to dress himself or herself; and 		
• this is the case all or substantially all of the time (at least 90% of the time).		
Dressing oneself does not include identifying, finding, shopping for, or otherwise obtaining clothing.		
Is your patient markedly restricted in dressing, as described above?	Yes	No 🗌
If yes , when did your patient's restriction in dressing become a marked restriction (this is not necessa the year of the diagnosis, as it is often the case with progressive diseases)?	rily	Year
Mental functions necessary for everyday life - Medical doctor or psychologis	st N	ot applicable
Your patient is considered markedly restricted in performing the mental functions necessary for every (described below) if, even with appropriate therapy, medication, and devices (for example, memory aid aids):		
• he or she is unable or takes an inordinate amount of time to perform these functions by himself or	herself; and	
• this is the case all or substantially all of the time (at least 90% of the time).		
Mental functions necessary for everyday life include:		
 adaptive functioning (for example, abilities related to self-care, health and safety, abilities to initiate a social interactions, and common, simple transactions); 	ind respond to	
 memory (for example, the ability to remember simple instructions, basic personal information such a address, or material of importance and interest); and 	s name and	
 problem-solving, goal-setting, and judgment, taken together (for example, the ability to solve probler keep goals, and make appropriate decisions and judgments). 	ns, set and	
Note A restriction in problem-solving, goal-setting, or judgement that markedly restricts adaptive functioni substantially all of the time (at least 90% of the time), would qualify.	ng, all or	
Is your patient markedly restricted in performing the mental functions necessary for everyday life, as described above?	Yes	No 🗌
If yes , when did your patient's restriction in performing the mental functions necessary for everyday li become a marked restriction (this is not necessarily the year of the diagnosis, as it is often the case w progressive diseases)?		Year

Life-sustaining therapy – Medical doctor	N	ot applicable
Life-sustaining therapy for your patient must meet both of the following criteria:		
• your patient needs this therapy to support a vital function, even if this therapy has eased the symptometer	oms; and	
• your patient needs this therapy at least 3 times per week, for an average of at least 14 hours per we	eek.	
The 14-hour per week requirement		
Include only the time your patient must dedicate to the therapy – that is, the patient has to take time a normal, everyday activities to receive it.	away from	
If a child cannot perform the activities related to the therapy because of his or her age, include the tin the child's primary caregivers performing and supervising these activities.	ie spent by	
Do not include the time spent on activities related to dietary or exercise restrictions or regimes (even restrictions or regimes are a factor in determining the daily dosage of medication), travel time to receive medical appointments (other than appointments where the therapy is received), shopping for medication recuperation after therapy.	ve therapy,	
1. Does your patient need this therapy to support a vital function?	Yes	No 🗌
2. Does your patient need this therapy at least 3 times per week?	Yes	No 🗌
3. Does this therapy take an average of at least 14 hours per week?	Yes	No 🗌
If yes , when did your patient's therapy begin to meet the above criteria (this is not necessarily the y the diagnosis, as it is often the case with progressive diseases)?	ear of	Year
It is mandatory that you describe how the therapy meets the criteria as stated above. If you need of paper.		
Cumulative effect of significant restrictions – Medical doctor or occupationa	al therapist N	ot applicable
Note: An occupational therapist can only certify for walking, feeding and dressing.		
Answer all the following questions to certify the cumulative effect of your patient's significant restriction	ns.	
1. Even with appropriate therapy, medication, and devices, does your patient have a significant restri is not quite a marked restriction , in two or more basic activities of daily living or in vision and one the basic activities of daily living?		No No
If yes , tick at least two of the following, as they apply to your patient.		
vision speaking hearing wall	king	
 eliminating (bowel or bladder functions) feeding dressing mer Note You cannot include the time spent on life-sustaining therapy. 	ntal functions necess	ary for everyday life
2. Do these significant restrictions exist together, all or substantially all of the time (at least 90% of	the time)? Yes	No No
3. Is the cumulative effect of these significant restrictions equivalent to being markedly restricted in activity of daily living?	one basic Yes	No

4. When did the cumulative effect described above begin (this is not necessarily the year of the diagnosis, as it is often the case with progressive diseases)?

Year

1 I.

Protected B when completed

Effects of impairment - Mandatory

The effects of your patient's impairment must be those which, even with therapy and the use of appropriate devices and medication, cause your patient to be restricted **all or substantially all of the time** (at least 90% of the time).

Note

Working, housekeeping, managing a bank account, and social or recreational activities are **not** considered basic activities of daily living. Basic activities of daily living are limited to walking, speaking, hearing, dressing, feeding, eliminating (bowel or bladder functions), and mental functions necessary for everyday life.

It is mandatory that you describe the effects of your patient's impairment on his or her ability to perform each of the basic activities of daily living that you indicated are or were markedly or significantly restricted. If you need more space, attach a separate sheet of paper and/ or include copies of medical reports, diagnostic tests, and any other medical information.

Effects of impairment:

Duration – Mandatory			
Has your patient's impairment lasted, or is it expected to last, for a continuous period of at least 12 months? For deceased patients, was the impairment expected to last for a continuous period of at least 12 months?		Yes	No
If yes , has the impairment improved, or is it likely to improve, to such an extent that the patient would no longer be blind, markedly restricted, in need of life-sustaining therapy, or have the equivalent of a marked restriction due to the cumulative effect of significant restrictions?	Unsure	Yes	No 🗌
If yes, enter the year that the improvement occurred or may be expected to occur.			Year

What is the DTC?

The disability tax credit (DTC) is a non-refundable tax credit that helps persons with disabilities or their supporting persons reduce the amount of income tax they may have to pay. An individual may claim the disability amount once they are eligible for the DTC. This amount includes a supplement for persons under 18 years of age at the end of the year.

For more information, go to **www.cra.gc.ca/dtc** or see Guide RC4064, *Medical and Disability-Related Information*.

Are you eligible?

You are eligible for the DTC only if we approve this form. A medical practitioner has to complete and certify that you have a severe and prolonged impairment and must describe its effects.

To find out if you **may be eligible** for the DTC, use the self-assessment questionnaire on <u>Information Sheet T2201-1</u>, <u>Disability Tax Credit Certificate</u>. If we have already told you that you are eligible, do not send another form unless the previous period of approval has ended or if we tell you that we need one. **You must tell us immediately if your condition improves.**

If you receive Canada Pension Plan or Quebec Pension Plan disability benefits, workers' compensation benefits, or other types of disability or insurance benefits, **it does not necessarily mean you are eligible for the DTC**. These programs have other purposes and different criteria, such as an individual's inability to work.

You can send the form to us at any time during the year. By sending us your form before you file your income tax and benefit return, you may prevent a delay in your assessment. We will review your form before we assess your return. Keep a copy of the completed form for your records.

Fees – You are responsible for any fees that the medical practitioner charges to complete this form or to give us more information. However, you may be able to claim these fees as medical expenses on line 330 or line 331 of your income tax and benefit return.

What happens after you send Form T2201?

Once the CRA has received the completed and signed Form T2201, we will assess your application to determine if you are eligible to the DTC. We will then send you a notice of determination to inform you of our decision. If your application is denied, the notice of determination will explain why. For more information, see Information Sheet T2201-1, *Disability Tax Credit Certificate*, or go to www.cra.gc.ca/dtc.

General information

Where do you send your form?

Send your completed and signed form to the Disability Tax Credit Unit of your tax centre. Use the chart below to get the address.

If your tax services office is located in:	Send your correspondence to the following address:
British Columbia, Regina or Yukon	Surrey Tax Centre 9755 King George Boulevard Surrey BC V3T 5E1
Alberta, London, Manitoba, Northwest Territories, Saskatoon, Thunder Bay, or Windsor	Winnipeg Tax Centre 66 Stapon Road Winnipeg MB R3C 3M2
