In combination with a "Laser in Medicine" basic course (Sachkundekurs), this course is recognized as a specialized training course (Fachkundekurs) in accordance with the certification guidelines of the German Society of Laser Medicine.

The course has applied for CME credits (ECMEC) by the European Accreditation Council for Continuing Medical Education (EACCME).

December 12th - 13th, 2013

Expert Meeting on Laser Application in Thoracic Surgery

Department of Thoracic Surgery
Albert-Ludwigs-University,
Freiburg

CME credits have

according to the guidelines of the

German Society of Laser Surgery

INVITATION PROGRAM PROGRAM REGISTRATION

Dear colleagues,

After six successful Expert Meetings on Laser Application in Thoracic Surgery in 2007, 2008, 2009, 2010, 2011 and 2012, I cordially invite you to our seventh meeting in December 2013.

Optimal treatment of our patients deserves optimal technical equipment. This is especially true in patients with lung metastasis. In more or less every one of these patients we encounter a different situation. This ranges from simple wedge resections to complex resections in cases of multiple metastases or metastases which are in the vicinity of the central vascular and bronchial structures of the lung. With the KLS Martin Laser we now have an optimal instrument which allows to dissect the lung parenchyma in a superior fashion.

Furthermore, the KLS Martin Laser is also applicable for endotracheal and endobronchial problems. Therefore, it is an interesting tool which is useful in different clinical situations and applications.

The aim of our workshop is to demonstrate the usefulness of the laser technology for pulmonary diseases. On the first day we will have an introduction into laser technology and the theoretical aspects of pulmonary metastasectomy. Additionally, there will be live demonstrations on laser lung surgery as well as on endotracheal applications. On the second day all participants have the opportunity to work in the wet-lab with the laser equipment.

We wish all participants an interesting and fruitful insight into the state of art technique of the resection of pulmonary metastases and shall provide ample opportunity for discussions with colleagues from different countries.

Bernward Passlick, M. D. Scientific Director

Sebastian Wiesemann, M. D. Organization

Thursday, December 12th, 2013 8:15 a.m. Registration/enrolment at the hotel 8:40 a.m. Bus transfer to Universitätsklinikum Freiburg, Robert-Koch-Klinik **Department of Thoracic Surgery** 9:00 a.m. Word of welcome/introduction Prof. Dr. med. B. Passlick 9:05 a.m. Technical basics of medical laser systems, optical fibers and applicators Prof. Dr. med. H.-P. Berlien 9:35 a.m. Safety rules and practical advice for using the laser in the OR Prof. Dr. med. H.-P. Berlien **10:05 a.m.** Technical innovations improving pulmonary U. Ott laser resections 10:30 a.m. Coffee break, snack **10:45 a.m.** Pulmonary laser resections: Technical aspects Prof. Dr. med. B. Passlick 11:15 a.m. Indications and results of pulmonary metastasectomy for different primary tumors Prof. Dr. med. B. Passlick 11:45 a.m. The role of lymphadenectomy in pulmonary metastasectomy: Does it make sense? PD Dr. med. S. Welter 12:15 p.m. Endotracheal and endobronchial application with the KLS Martin Laser Dr. med. M. Elze 12:30 p.m. Lunch **1:30 p.m.** Case examples of laser operations Auditorium at Universitätsklinikum Freiburg and OR Video transmission of live operations from the OR 5:00 p.m. Bus transfer to the hotel 7:30 p.m. Social evening

Friday, December 13th, 2013 7:45 a.m. Bus transfer to IRCAD, Strasbourg, France 9:30 a.m. Demonstration of laser system; Resection of lung metastases in the wet-lab (groups of 6 - 7 participants) **12:00 noon** Round-table discussion and hand-over of certificates 12:30 p.m. Lunch 1:30 p.m. Bus transfer to Freiburg Lecturers Prof. Dr. med.
